PART 1 : Introduction and interview (4 to 5 minutes) You are invited to sit down. The examiner checks your ID. The examiner tries to get you to settle down (feel relaxed), asking basic questions about your life, your background, family and so on.
PART 2 : (3 to 4 minutes) The examiner gives you a card with a topic written on it. You have one minute to think about this topic and prepare what you are going to say. Then you must speak about the topic for one to two minutes. After you finish talking, the examiner could ask some follow-up questions.

PART 3 : (4 to 5 minutes) The examiner engages you in a discussion about topic that has the same general theme as of Part 2 In Part 2, you have only 1 minute to think about the topic before you start speaking. Then you can speak continuously for between 1 and 2 minutes. You can then spend more time thinking about and preparing how to answer that topic better.

After several iteration, your score will go up very quickly.

BIG DISCOUNT - ONLY for this WEEKEND!!!!!!!!!!!!!!!!!!!!!! There are a number of IELTS speaking books on the market but this book aims to break new ground by focusing on how to prepare for and achieve a speaking score of 7 (or maybe higher). All of the skills and strategies presented in this book are typical of a high scoring speaking candidate. This book is intended for anyone who intends to take the IELTS test; it will also help learners of English improve their speaking skills. It is suitable for both classroom use and self-study. Most people would agree that an OK score in speaking is 5 or 6. Many students now realise that a score of 5 or 6 for speaking is not enough for their study requirements. Many students spend months preparing for the IELTS speaking test and still find it difficult to score 7 or higher. In fact some candidates actually score lower than they potentially could have scored. There are a few reasons behind this poor performance and these will be discussed in detail throughout this book, but one major factor is the lack of quality material available for IELTS speaking preparation.

Everything you need to know about IELTS Speaking in one book! What exactly do you have to do to get a particular band score? Which easy-to-learn words and phrases can improve your score quickly? What should you include in your answers to impress the examiner? Which aspects of grammar or pronunciation should you focus on? Anyone aiming for band 6 or higher in IELTS Speaking needs targeted practise and easy-to-follow explanations. This book - the result of years of IELTS examination experience - provides the most up-to-date information and an extensive bank of topics and questions with suggestions on how to create impressive answers that demonstrate to the examiner that your English is of a high

standard. Having taught IELTS preparation courses in China for twelve years and having extensive experience as an IELTS examiner, I have become familiar with the main problems students from different cultural backgrounds face when getting ready to take the test. This book aims to help students deal with these problems. The first part of the book gives an overview of the speaking test and its requirements in terms of the test criteria. This section also includes information on the use of grammar and various parts of speech. The second part of the book provides topics for the three parts of the test with questions and suggestions for active practice. These topics and questions are based on actual topics and questions that appear in the IELTS Speaking Module. So how is this book different - and better - than other books on the market? First of all, it takes the user through the test and through the test criteria in greater detail than other books. It looks at problems that candidates actually have during the test. Furthermore, it provides candidates with various structured ways to create their own original answers. For each topic, for each part of the test, there are questions followed by suggestions for answer development. Of course, these suggestions are not the only ways to answer the questions, but they provide starting points for candidates who are having difficulty finding ideas. Students should, of course, aim to supplement them with others that they have learnt during their English studies.
