Synopsis In a 1950  
conversation at Los  
Alamos, four world-  
class scientists  
generally agreed, given  
the size of the  
Universe, that  
advanced  
extraterrestrial  
civilizations must be  
present. But one of the  
four, Enrico Fermi,  
asked, "If these  
civilizations do exist,  
where is everybody?"

If the Universe Is Teeming  
with Aliens ... WHERE IS ...

Given the fact that there are  
perhaps 400 million stars in  
our Galaxy alone, and  
perhaps 400 million galaxies  
in the Universe, it stands to  
reason that somewhere out  
there, in the 14-billion-year-  
old cosmos, there is or once

---

was a civilization at least as advanced as our own.

Given the fact that there are

perhaps 400 billion stars in our Galaxy alone, and perhaps 400 billion galaxies in the Universe, it stands to reason that somewhere out there, in the 14-billion-year-old cosmos, there is or once was a civilization at least as advanced as our own. The sheer enormity of the numbers almost demands that we accept the truth of this hypothesis.

Second Edition by Stephen Webb takes on Fermi's Paradox. From Springer.com: "Given the fact that there are perhaps 400 billion stars in our Galaxy alone, and perhaps 400 billion galaxies in the Universe, it stands to reason that somewhere out there, in the 14-billion-year-old cosmos, there is or once was a civilization ...

Science and Fiction - msu.ru

Science and science fiction collide to pose answers to a fundamental question about our universe. If the universe is so old and so big, shouldn't there have been ample opportunities for other solar systems, planets, life forms, intelligence, and technology to form? Some of these civilizations must be millions of years older than us on Earth, so surely should have developed the capability to communicate and travel through from star to star and galaxy to galaxy.

Universe is ALIVE:

Consciousness pervades through cosmos ...

If the Universe is teeming with aliens then where is everybody?

It ’ s one of the biggest conundrums in the Universe, known as the Fermi Paradox .

That means that if the Universe is so conducive to life, and if there are so many opportunities for it within our galaxy alone, why isn ’ t there any evidence

of extraterrestrial life?

[ONLINE] Let's Read If the Universe Is Teeming with Aliens ...

They will find much to agree with, and much to argue about, in this very accessible

volume. ٪ ٪ SCIENCE

During a Los Alamos lunchtime conversation that took place more than 50 years ago, four world-class scientists agreed, given the size and age of the Universe, that advanced extraterrestrial civilizations simply had to exist.
