If the Universe is teeming with aliens
then where is ...

Given the fact that there are perhaps
400 billion stars in our Galaxy alone,
and perhaps 400 billion galaxies in the
Universe, it stands to reason that
somewhere out there, in the 14-billion-
year-old cosmos, there is or once was
a civilization at least as advanced as
our own. The sheer enormity of the
numbers almost demands that we
accept the truth of this hypothesis.

If the Universe Is Teeming with
Aliens ... WHERE IS ...

viii If the Universe Is Teeming with
Aliens...WHERE IS EVERYBODY?
chemistry of terrestrial life is the
only possibility, or just one
chemical basis among many options

that could be realized elsewhere.

Furthermore,
even if simple life is widespread,
we can't assess the odds that it
evolves into a complex biosphere. And,
even if it did, the outcome might anyway
