process in today's network society, the focus shifts to research by design on agroparks. These are spatial clusters of agrofunction s and the related economic activities. Agroparks bring together hig h- productivity plant-based and animal- based production and processing along	industrial lines combined with the input of high levels of knowledge and technology. The cycles of water, minerals and gases are skillfully closed and the use of fossil energy is minimised, particularly by the processing of various flows of waste products and by-products. An agropark	may therefore be seen as the application of industrial ecology in the agrosector. The scientific aim of this book is to find answers to the questions of whether agroparks contribute to sustainable development in metropolises , how an agropark is developed and how it

world, Dr Verghese Kurien has enabled India to become the largest milk producer in the world. A man with a rare vision, Dr Kurien has devoted a lifetime to realizing his dream - empowering the farmers of India. He has engineered the milk cooperative movement in India. It was a sheer quirk of fate that landed him in Anand where a small group of farmers were forming a cooperative, Kaira District Cooperative Milk Producers' Union Limited (better known as Amul), to sell their milk. Intrigued by the integrity and commitment of their leader, Tribhuvandas Patel, Dr Kurien joined them. Since then there has been no looking back. The 'Anand pattern of cooperatives were so successful that,

at the request of the Government of India, he set up the National Dairy Development Board to replicate it across India. He also established the Gujarat Cooperative Milk Marketing Federation to market its products. In these memoirs, Dr Verghese Kurien, popularly known as the 'father of the white revolution', recounts, with customary candour, the story of his life and how he shaped the dairy industry. Profoundly inspiring, these memoirs help up comprehend the magnitude of his contributions and his multifaceted personality.
