Most books on teaching ask teachers to be inspirational, to operate at 100 miles an hour with creativity oozing out of every pore. Dominic Salles says that's unsustainable. But you can get brilliant results using some simple practices taken from the myriad of educational research on classroom practices. It isn't a guide to all the extra stuff you should do to become cool and awesome. It is a book that will get you to forget about teaching and think about learning: another way of saying, it will help you to stop stressing about what you do, and get the students to work harder and smarter at what they do. Dominic Salles believes that every teacher can be slightly awesome. And here he shows you how.

Exploring the Role of Knowledge in the English Curriculum Partridge Publishing
Apollo 11 astronaut Buzz Aldrin's courageous, candid memoir of his return to Earth after the historic moon landing and his personal struggle with fame and depression.

"We landed with all the grace of a freight elevator," Buzz Aldrin relates in the opening passages of *Return to Earth*, remembering Command Module Columbia's abrupt descent into the gravity of the blue planet. With that splash, Aldrin takes readers on a journey through the human side of the space program, as one of the first two men to land on the moon learns to cope with the pressures of his new public persona. In honest and compelling prose, Aldrin reveals a side of instant fame for which West Point and NASA could never have prepared him. One day a fighter pilot and engineer, the next a cultural hero burdened with the adoration of thousands, Aldrin gives a poignant account of the affair that threatened his marriage, as well as his descent into alcoholism and depression that resulted from trying to be too many things to too many people. He didn't realize that when he landed on his home planet his odyssey had just begun. As Aldrin puts it, "I traveled to the moon, but the most significant voyage of my life began when I returned from where no man had been before." *Return to Earth* is a powerful and moving memoir that exposes the stresses suffered by those in the Apollo program and the price Buzz Aldrin paid when he became an American icon.

Kakutani, *The New York Times* Entertainment Weekly • The Christian Science Monitor • The Kansas City Star • Library Journal Weaving a brilliant latticework of family legend, loss, and love, Téa Obrecht, the youngest of *The New Yorker's* twenty best American fiction writers under forty, has spun a timeless novel that will establish her as one of the most vibrant, original authors of her generation. In a Balkan country mending from war, Natalia, a young doctor, is compelled to unravel the mysterious circumstances surrounding her beloved grandfather's recent death. Searching for clues, she turns to his worn copy of *The Jungle Book* and the stories he told her of his encounters over the years with "the deathless man." But most extraordinary of all is the story her grandfather never told her—the legend of the tiger's wife. is part of its magic. . . . Its graceful commingling of contemporary realism and village legend seems even more absorbing."—*The Washington Post*

Into the Heart of Borneo Cambridge University Press
A unique and moving real-life story of the extraordinary bond between a young teacher and a penguin, this book will delight readers who loved *Marley & Me*, *Dewey the Library Cat*, *The Good Good Pig*, and any book by Jon Katz. In 1975, twenty-three-year-old Englishman Tom Michell follows his wanderlust to Argentina, where he becomes assistant master at a prestigious boarding school. But Michell's adventures really begin when, on a weekend in Uruguay, he rescues a penguin covered in oil from an ocean spill, cleans the bird up, and attempts to return him to the sea. The penguin refuses to leave his rescuer's side. "That was the moment at which he became my penguin, and whatever the future held, we'd face it together," says Michell in this charming memoir. Michell names the penguin Juan Salvador ("John Saved"), but Juan Salvador, as it turns out, is the one who saves Michell. After Michell smuggles the bird back to Argentina and into his campus apartment, word spreads about the young Englishman's unusual roommate. Juan Salvador is suddenly the center of attention—as mascot of the rugby team, confidant to the dorm housekeeper, co-host of Michell's parties, and an unprecedented swimming coach to a shy boy. Even through the collapse of the Perónist government and amid the country's economic and

political strife, Juan Salvador brings joy to everyone around him—especially Michell, who considers the affectionate animal a compadre and kindred spirit. Witty and heartwarming, *The Penguin Lessons* is a classic in the making, a story that is both absurd and wonderful, exactly like Juan Salvador. Praise for *The Penguin Lessons* "I loved this book, and you will, too! It's as charming, heartwarming, and surprising as a penguin on a roof terrace. What's more, *The Penguin Lessons* teaches an important truth: that a single act of compassion can be repaid a thousand-fold."—Sy Montgomery, author of *The Good Good Pig* and the National Book Award finalist *The Soul of an Octopus* "[Tom Michell's] tone suits the material perfectly. . . . You believe every word. . . . No fool, this penguin. No fools, these publishers, who have unleashed such a delightful and charming book just in time for Christmas."—Daily Mail (U.K.) "Heart-warming is a wholly inadequate phrase to describe this captivating story that is pure delight from beginning to end."—The Bookseller (U.K.) *Return to Earth* Cambridge University Press "First published by Georgian Press (Jersey) Limited 2004"—T.p. verso.

Making Meaning in English

Createspace Independent Publishing Platform

On Sunday April 27, 2003, 27-year old Aron Ralston set off for a day's hiking in the Utah canyons. Dressed in a t-shirt and shorts, Ralston, a seasoned climber, figured he'd hike for a few hours and then head off to work. 40 miles from the nearest paved road, he found himself on top of an 800-pound boulder. As he slid down and off of the boulder it shifted, trapping his right hand against the canyon wall. No one knew where he was; he had little water; he wasn't dressed correctly; and the

boulder wasn't going anywhere. He remained trapped for five days in the canyon: hypothermic at night, de-hydrated and hallucinating by day. Finally, he faced the most terrible decision of his life: braking the bones in his wrist by snapping them against the boulder, he hacked through the skin, and finally succeeded in amputating his right hand and wrist. The ordeal, however, was only beginning. He still faced a 60-foot rappell to freedom, and a walk of several hours back to his car - along the way, he miraculously met a family of hikers, and with his arms tourniqued, and blood-loss almost critical, they heard above them the whir of helicopter blades; just in time, Aron was rescued and rushed to hospital. Since that day, Aron has had a remarkable recovery. He is back out on the mountains, with an artificial limb; he speaks to select groups on his ordeal and rescue; and amazingly, he is upbeat, positive, and an inspiration to all who meet him. This is the account of those five days, of the years that led up to them, and where he goes from here. It is narrative non-fiction at its most compelling.
