BSWE-01 Introduction to Social Work Topics Covered Block 1 - Emergence of Professional Social Work Unit 1 - Introduction to Social Work Concepts-I Unit 2 - Introduction to Social Work Concepts-II Unit 3 - Emergence of Social Work Abroad Unit 4 - Evolution of Social Work Tradition and Education in India Block 2 - Basics of Social Work Unit 1 - Professional Social Work: Nature, Scope, Goals and Functions Unit 2 - Professional Social Work: Genetic Principles, Values and their Application Unit 3 - Social Service and Social Welfare Programmes in Five Year Plans Unit 4 - Voluntary Action and Social Work in India Unit 5 - Social Work Ethics in Indian Context Block 3 - Introduction to Society Unit 1 - Basic Social Concepts Unit 2 - Evolution of Human Society: Nature and Characteristics Unit 3 - Social Processes Unit 4 - Social Change: Concept and Factors Involved in Social Change Unit 5 - Social Control Block 4 - Social System and Social Sub-Systems Unit 1 - Marriage and Family Unit 2 - Society and Culture: Plurality of Culture in India Unit 3 - Social Stratification Unit 4 - The State as a Social Institution: Its Role and Impact on other Institutions Block 5 - Human Growth and Development Unit 1 - Personality Development Unit 2 - Determinants of Personality: Role of Heredity and Environment Unit 3 - Different Stages of Human Development Unit 4 - Theories of Personality Unit 5 - Psychosexual Development: Freudian Concept Block 6 - Basics of Psychology for Social Worker Unit 1 - Relevance of Psychology in Social Work Practice Unit 2 - Basic Psychological Concepts in Human Behaviour Unit 3 - Defence Mechanism Unit 4 - Normality and Abnormality Unit 5 - Basic Concepts of Social Psychology Question Papers (Total-17, Solved-5, Unsolved-12) (1) June (2013-2020) (2) December (2012-2020)

IGNOU B.Ed. Entrance Test Harmony

This book is useful for IGNOU MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-031: Design and Analysis of Algorithm Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Algorithm definition and specification - Design of Algorithms, and Complexity of Algorithms, Asymptotic Notations, Growth of function, Recurrences, Performance analysis - Elementary Data structures:- stacks and queues - trees - dictionaries - priority queues -sets and disjoint set union - graphs - basic traversal and search techniques. Divide - and - conquer:- General method - binary search - merge sort - Quick sort. The Greedy method:-General method - knapsack problem - minimum cost spanning tree - single source shortest path. Dynamic Programming - general method - multistage graphs - all pair shortest path - optimal binary search trees - 0/1 Knapsack - traveling salesman problem - flow shop scheduling. Backtracking:- general method - 8-Queens problem - sum of subsets - graph coloring - Hamiltonian cycles - knapsack problem - Branch and bound:- The Method - 0/1 Knapsack problem - traveling salesperson. Parallel models:-Basic concepts, performance Measures, Parallel Algorithms: Parallel complexity, Analysis of Parallel Addition, Parallel Multiplication and

division, parallel. Evaluation of General Arithmetic Expressions, First-Order Linear recurrence. Published by MeetCoogole

MCS-031: Design and Analysis of Algorithms OECD Since Dr. Brizendine wrote The Female Brain ten years ago, the response has been overwhelming. This New York Times bestseller has been translated into more than thirty languages, has sold nearly a million copies between editions, and has most recently inspired a romantic comedy starring Whitney Cummings and Sofia Vergara. And its profound scientific understanding of the nature and experience of the female brain continues to guide women as they pass through life stages, to help men better understand the girls and women in their lives, and to illuminate the delicate emotional machinery of a love relationship. Why are women more verbal than men? Why do women remember details of fights that men can't remember at all? Why do women tend to form deeper bonds with their female friends than men do with their male counterparts? These and other questions have stumped both sexes throughout the ages. Now, pioneering neuropsychiatrist Louann Brizendine, M.D., brings together the latest findings to show how the unique structure of the female brain determines how women think, what they value, how they communicate, and who they love. While doing research as a medical student at Yale and then as a resident and faculty member at Harvard, Louann Brizendine discovered that almost all of the clinical data in existence on neurology, psychology, and neurobiology focused exclusively on males. In response to the overwhelming need for information on the female mind, Brizendine established the first clinic in the country to study and treat women's brain function. In The Female Brain, Dr. Brizendine distills all her findings and the latest information from the scientific community in a highly accessible book that educates women about their unique brain/body/behavior. The result: women will come away from this book knowing that they have a lean, mean, communicating machine. Men will develop a serious case of brain envy.

CSIR-UGC NET/JRF/SLET Mathematical Sciences (Paper I & II) Gk Publications

Disaster Management is an intended textbook for students pursuing a first and intermediate course on the subject in any undergraduate programme, especially engineering courses like civil, structural, geotechnical engineering and other specialized courses on the subject. The latest AICTE and the earlier UGC model curriculums have been extensively consulted to design the contents of the book. Knowledge of research methodology is essential for all who either play an active role in conducting research or desire to keep themselves updated in the field of knowledge. Keeping this in mind, this edition has been thoroughly revised. The book contains an up-to-date account of the methods and techniques suited to the field of education and other allied disciplines and thus provides an understanding of significant research problems that need to be tackled. The book elaborates the quantitative and qualitative data analysis techniques; use of descriptive and inferential statistics; reporting of the results of research along with the characteristics and uses of historical, descriptive, ethnographic and experimental methods. Case studies form an important part of the text. It also provides priority areas of educational research in India in the context of National Education Policy (1986) and its Programme of Action (1992), UGC, DEC-IGNOU (2006), NCERT (2005), and UNESCO initiatives and policies as well as the Surveys of Research in Education (1997 and 2006). Designed and written mainly for the students of M.A. (Education, Psychology and Sociology), M.Ed. and M.Phil. (Education, Psychology and Sociology), the book will be of immense value to the Ph.D. students and other researchers of Social Sciences, Biological Sciences, Management, Legal Studies, Humanities and Languages.

Global society in the 21st century is facing challenges of improving the quality of air, water, soil and the environment and maintaining the ecological balance. Environmental pollution, thus, has become a major global concern. The modern growth of industrialization, urbanization, modern agricultural development and energy generation has resulted in the indiscriminate exploitation of natural resources for fulfilling human desires and needs, which has contributed in disturbing the ecological balance on which the quality of our environment depends. Human beings, in the truest sense, are the product of

their environment. The man-environment relationship indicates that pollution and deterioration of the environment have a social origin. The modern technological advancements in chemical processes/operations have generated new products, resulting in new pollutants in such abundant levels that they are above the self-cleaning capacity of the environment. One of the major issues in recent times is the threat to human lives due to the progressive deterioration of the environment from various sources. The impact of the pollutants on the environment will be significant when the accumulated pollutants load will exceed the carrying capacity of the receiving environment. Sustainable development envisages the use of natural resources, such as forests, land, water and fisheries, in a sustainable manner without causing changes in our natural world. The Rio de Janeiro-Earth Summit, held in Brazil in 1992, focused on sustainable development to encourage respect and concern for the use of natural resources in a sustainable manner for the protection of the environment. This book will be beneficial as a source of educational material to post-graduate research scholars, teachers and industrial personnel for maintaining the balance in the use of natural sources for sustainable development.

The past 25 years have seen a major paradigm shift in the field of violence prevention, from the assumption that violence is inevitable to the recognition that violence is preventable. Part of this shift has occurred in thinking about why violence occurs, and where intervention points might lie. In exploring the occurrence of violence, researchers have recognized the tendency for violent acts to cluster, to spread from place to place, and to mutate from one type to another. Furthermore, violent acts are often preceded or followed by other violent acts. In the field of public health, such a process has also been seen in the infectious disease model, in which an agent or vector initiates a specific biological pathway leading to symptoms of disease and infectivity. The agent transmits from individual to individual, and levels of the disease in the population above the baseline constitute an epidemic. Although violence does not have a readily observable biological agent as an initiator, it can follow similar epidemiological pathways. On April 30-May 1, 2012, the Institute of Medicine (IOM) Forum on Global Violence Prevention convened a workshop to explore the contagious nature of violence. Part of the Forum's mandate is to engage in multisectoral, multidirectional dialogue that explores crosscutting, evidence-based approaches to violence prevention, and the Forum has convened four workshops to this point exploring various elements of violence prevention. The workshops are designed to examine such approaches from multiple perspectives and at multiple levels of society. In particular, the workshop on the contagion of violence focused on exploring the epidemiology of the contagion, describing possible processes and mechanisms by which violence is transmitted, examining how contextual factors mitigate or exacerbate the issue. Contagion of Violence: Workshop Summary covers the major topics that arose during the 2-day workshop. It is organized by important elements of the infectious disease model so as to present the contagion of violence in a larger context and in a more compelling and comprehensive way.

Millennium Development Goals Report 2015 PHI Learning Pvt. Ltd.

This report on the funding of school education constitutes the first in a series of thematic comparative reports bringing together findings from the OECD School Resources Review. School systems have limited financial resources with which to pursue their objectives and the design of school funding policies plays a key role in ensuring that resources are directed to where they can make the most difference. As OECD school systems have become more complex and characterised by multi-level governance, a growing set of actors are increasingly involved in financial decision-making. This requires designing funding allocation models that are aligned to a school system ’ s governance structures, linking budget planning procedures at different levels to shared educational goals and evaluating the use of school funding to hold decision makers accountable and ensure that resources are used effectively and equitably. This report was co-funded by the European Commission. .
