The International 484 replaced the 464. The new model was given a forward-slanting grille with the headlights and IH logo moved into a separate top panel. The gasoline engine was discontinued. The governed speed of the diesel engine was dropped back to 2200 rpm, from the previous 2400, reducing the power output slightly.

...

I have an International 464 diesel with the D179 engine. I have been working on changing the fuel filters and am ready to tear my hair out (the little that is left). The filters are the cartridge type with glass sediment bowl at the bottom. Here is the problem. Primary filter went on, fills, and bleeds the air out OK.
