PREFACE TO THE SIXTH EDITION In the Sixth Edition of this book there is a notable change, which we are sure that all our supporters will appreciate. While we were considering the advisability of bringing it out in the current year we were approached by Mr. Reuben Fine with a suggestion that he should under take the task of revision and we gladly agreed. Reuben Fine needs no introduction to those who are interested in the game of chess. His past achievements had already made

him famous and he added another glorious chapter to the story of his career, just as he had finished his work for us, by tying for the first place in the great A. V. R. O. Tournament towards the end of 1938. Naturally we gave our reviser a free hand in dealing with his task, merely reserving to ourselves the editorial right of making such slight changes in his text as might seem to us necessary. Mr. Fine, however, scrupulously adhered to the traditions of Modern Chess Openings, while availing himself fully of the privilege which must be con ceded to a master of his rank of expressing his personal opinions on the lines of play which are illustrated in the book, and altering as he thought fit the introductions to the various openings. In comparing this new edition with its predecessor we may note that it contains 332 pages and 1,215 columns, as against 300 pages and 1,060 columns of seven years ago, We have gladly got rid of the cumbrous device of Addenda, which was forced upon us by circumstances of production in 1932. We have also, in deference to Mr. Fines wishes, abandoned the use of starred columns to

indicate what appears to be the best line of play for both sides. In his preface the reviser explains the system adopted by him in appraising lines of play, so no comment on it is needed from us. The only difficulty which arose in the completion of this edition was caused by our desire to introduce new variations from the A. V. R. O. Tournament after the manuscript had been sent to the printers and was in process of being set up. The printers work was held back sufficiently to permit the mention of the most important of these and it so happened that this delay made it possible to put in some of the novelties from the Hastings Tournament of 1938-39 and a few from the Leningrad-Moscow Tournament this year. In conclusion we should like to convey our personal thanks to Mr. Fine for the admirable way in which he has carried out his revision on which point we think our readers will agree, and to acknowledge how little he left us to do. The manuscript was typed by his wife, and the printers had no difficulty on the score of illegibility. We desire also to express our gratitude to all who have helped us in the preparation of this new edition, and especially to our assistants in the exacting work of reading the proofs, with particular mention of Messrs. F. J. Camm and R. Hutter, and Sir Gilbert Jackson. T E EDITORS. London, Januar 1939. THE task of revising Modern Chess Openings has been both arduous and pleasant arduous because of the almost endless ramifications of modern opening theory, which necessitated the examination of the openings of thousands of games pleasant because the result is a solution, albeit an incomplete one, to the complicated labyrinth. I have been guided by the principle of the earlier editions, that this work is intended to be both modern and practical For that reason I have enlarged the sections on the Queens side openings and the Ruy Lopez, as these are the sine qua non of contemporary tournaments, although I have refrained from paying too much attention to any particular variation in these openings, since the practical player must be acquainted with a great number of different lines. I wish to express my grateful thanks to various friends who have helped me particularly to Mr... Tactical Oil Paint for Beginners Moran Press From David D. The 21st Century Edition of Spielmann ' s Classic Work Austrian Grandmaster Rudolf Spielmann ' s The Art of Sacrifice in Chess first appeared in the mid-1930s. It was immediately recognized as a classic, a masterpiece that examined the nature of chess sacrifices. In this modernized, 21st century edition, all of Spielmann ' s original work has been preserved. The antiquated English Descriptive Notation has been replaced with modern Figurine Algebraic, and German grandmaster Karsten M ü ller has added his own notes to Spielmann ' s original text. But the German grandmaster has gone far beyond simply inserting clarifying commentary. M ü ller has virtually doubled the size of the original work by adding eleven new chapters, including: The Greek Gift Sacrifice Bxh2/7+; Disaster on g7; The Achilles ' Heel f7; Strike at the Edge; Destroying the King ' s Shelter; Sacrifices on f6; Sacrifices on e6; The Magic of Mikhail Tal; Shirov ' s Sacrifices; and The Fine Art of Defense.

There are exercises at the end of each new chapter to help you hone your skill of sacrificing. " Grandmaster Karsten M ü ller ' s notes to the original text, along with the new material, brilliantly complements Spielmann ' s classic work. A welcome addition to any chessplayer ' s library... The book covers various aspects of dairying and milk products such as dairy farm establishment, management, production and utilisation of various dairy products. Information has been included on various aspects of dairy farming starting with selection and purchase of dairy cattle, their care and management, with respect to housing, feeding, breeding and health care during various physiological states such as growth, pregnancy and lactation and during different seasons. Details of health care management along with common diseases have been covered with all information required for educated farmers and technicians working in these areas. Various means for consistent improvement of the stock has also been included. Production of clean milk, its procurement, processing and distribution has been covered with more emphasis on common processing technologies such as pasteurisation and sterilisation. Different forms of liquid milk available in the market has been described along with its standards and other specifications for the knowledge of common man and technicians. Manufacturing methods of milk products have been included with appropriate flow chart wherever required and various categories of milk products have been covered in detail under different chapters under milk products. This book has been prepared with emphasis on second year syllabus of Vocational higher secondary course on milk products and dairying and considering the lack of a suitable textbook for this subject. Hence the book is expected to fill the gap of a textbook for the above said and similar courses. Also the book may be accepted as a textbook/manual for educated farmers, other teaching and training programmes covering similar syllabus like that of dairy farm

instructors and as a handbook for Veterinary Students and Dairy Extension Officers. With these introductory notes, we presume that the book will satisfy its readers' requirements and form a valuable textbook/reference book for all those concerned with dairy animal production and utilisation of their products ultimately benefiting the farming community.
