"My paradise lies in the shadow of my sword." With these words, Friedrich Nietzsche described his attitude toward his philosophical

war against Christianity. Even though he saw that God is dead and as a result, Christian morality must eventually collapse and perish, Nietzsche condemned Christianity and wanted to "crush the infamy" because, as an anti-natural slave morality, Christianity corrupts humanity by making it weaker and by hindering the pursuit of knowledge and truth. Ever since the slave revolt in morality began over two thousand years ago, the slave morality of Christianity and its heir, the democratic movement, have been victorious in the struggle against master morality, resulting in the corrupted humanity of today. In response,

Nietzsche waged a war against slave morality in his revaluation of all values in order to bring about the victory of a new master morality. As the means for this victory, Nietzsche's idea of the eternal recurrence provides the basis for both his philosophy of the future and his religion of the future (the Dionysian faith) that he intended to serve as the foundations of a European cultural rebirth during a new era when a new nobility tackles the greatest of all tasks, the higher breeding of humanity, with the goal of human enhancement. Nietzsche deemed it his destiny to be the herald of this new era. A product of a lifetime of study and

thought, this book explains and connects in a systematic manner most of Nietzsche's major ideas: the death of God, master and slave moralities, revaluation of all values, Great Noon, Overman, last man, idea of the eternal recurrence, will to power, beyond good and evil, new nobility, higher breeding of humanity, philosophers of the future, amor fati, and the concept of Dionysus. The result is a fuller understanding of and appreciation for the relevance of Nietzsche's ideas to us today. The book is enhanced by a detailed chronology of Nietzsche's life, an explanatory summary of *Thus Spoke Zarathustra*, and an index of all Nietzsche's works quoted or cited therein.

The Philosophy of Friedrich Nietzsche
Courier Dover Publications

Thus Spoke Zarathustra is a foundational work of Western literature and is widely considered to be Friedrich Nietzsche's masterpiece. It includes the German philosopher's famous

discussion of the phrase 'God is dead' as well as his concept of the Superman. Nietzsche delineates his Will to Power theory and devotes pages to critiquing Christian thinking, in particular Christianity's definition of good and evil. Revised translation with modern American English spelling.

Thus Spoke Zarathustra Penguin
Originally published as separate volumes as *Mixed Opinions and Maxims* (1879) and *The Wanderer and His Shadow* (1880), the two works included here continue the aphoristic style begun in Volume I of Nietzsche's "Book for Free Spirits" and offer a window into the intellectual sources behind his evolution as a philosopher. The Complete Works of Friedrich Nietzsche Courier Corporation
The works of Friedrich Nietzsche have fascinated readers around the world ever since the publication of his first book more than a hundred years ago. As Walter Kaufmann, one of the world's leading authorities on Nietzsche, notes in his introduction, " Few

writers in any age were so full of ideas," and few writers have been so consistently misinterpreted. The *Portable Nietzsche* includes Kaufmann's definitive translations of the complete and unabridged texts of Nietzsche's four major works: *Twilight of the Idols*, *The Antichrist*, *Nietzsche Contra Wagner* and *Thus Spoke Zarathustra*. In addition, Kaufmann brings together selections from his other books, notes, and letters, to give a full picture of Nietzsche's development, versatility, and inexhaustibility. " In this volume, one may very conveniently have a rich review of one of the most sensitive, passionate, and misunderstood writers in Western, or any, literature. " —Newsweek

This classic work of creative criticism from German philosopher Friedrich Nietzsche argues that ancient Greek drama represents the highest form of art ever produced. In the first section of the book, Nietzsche presents an in-depth analysis of Athenian tragedy and its many merits. In the second section, Nietzsche contrasts the refinement of classical tragedy with what he regards as the cultural wasteland of the nineteenth-century.

Collected here in this omnibus edition are three of Nietzsche's three most important books: *The Anti-Christ*, *Beyond Good and Evil*, and *Thus Spake Zarathustra*, as well as *The Philosophy of Friedrich Nietzsche* by Henry Louis Mencken. A perfect book for new readers of Nietzsche or anyone hoping to understand his writing and philosophy more thoroughly. *The Philosophy of Friedrich Nietzsche* by Henry Louis Mencken was the first, and many believe the best book on the subject. Mencken was known for his attention to detail. This book is a must read for anyone who wishes to understand Nietzsche and his underlying philosophy. *Thus Spake Zarathustra* is a masterpiece of philosophical literature, and it is here that Nietzsche uttered the famous phrase "God is dead!" This powerful book spells out Nietzsche's belief in the will to power, and serves as an introduction to his doctrine of eternal return. One of the most influential books of philosophy ever written. Nietzsche writes with style, power, and conviction. In *Beyond Good and Evil*, Nietzsche attacks past philosophers for their alleged lack of critical sense and their blind acceptance of the Christian premises in

their consideration of morality. The work attempts to move "beyond good and evil" in the sense of leaving behind the traditional morality which Nietzsche subjects to a destructive critique in favor of what he regards as an affirmative approach that fearlessly confronts the perspectival nature of knowledge and the perilous condition of the modern individual. Here is Friedrich Nietzsche's great masterpiece *The Anti-Christ*, wherein Nietzsche attacks Christianity as a blight on humanity. This classic is essential reading for anyone wishing to understand Nietzsche and his place within the history of philosophy. Friedrich Wilhelm Nietzsche Yale University Press

Basic Writings of Nietzsche CRC Press

Ecce Homo is the last original book written by philosopher Friedrich Nietzsche before his final years of insanity that lasted until his death in 1900. It was written in 1888 and was not published until 1908. According to one of Nietzsche's most prominent English translators, Walter Kaufmann, the book offers "Nietzsche's own interpretation of his development, his works, and his significance." The book contains several chapters with ironic

self-laudatory titles, such as "Why I Am So Wise," "Why I Am So Clever," "Why I Write Such Good Books" and "Why I Am a Destiny." Walter Kaufmann, in his biography Nietzsche: Philosopher, Psychologist, Antichrist noticed the internal parallels, in form and language, to Plato's Apology which documented the Trial of Socrates. In effect, Nietzsche was putting himself on trial with this work, and his sardonic judgments and chapter headings are mordant, mocking, self-deprecating, sly, and they turn this trial against his future accusers, distorters, and superficial judges.

Nietzsche: Untimely Meditations Psychology Press

The Joyful Wisdom, written in 1882, just before "Zarathustra," is rightly judged to be one of Nietzsche's best books. Here the essentially grave and masculine face of the poet-philosopher is seen to light up and suddenly break into a delightful smile. The warmth and kindness that beam from his features will astonish those hasty psychologists who have never divined that behind the destroyer is the creator, and behind the blasphemer the lover of life. In the retrospective valuation of his work which appears in "Ecce Homo" the author himself observes with truth that the fourth book, "Sanctus Januarius," deserves especial attention: "The whole book is a gift from the Saint, and the introductory verses express my gratitude for the most wonderful month of January that I have ever spent." Friedrich Nietzsche Delphi Classics Major work on ethics, by one of the most influential thinkers of the last 2 centuries, deals with master/slave morality and modern man's moral practices; the evolution of man's feelings of guilt; and ascetic ideals.
