Iicrc Water Damage S500 Manual

This Standard and Reference Guide (S500) is intended to provide information about the restoration of water-damaged structures and contents and to assist individuals and entities working in the water damage restoration industry in establishing and maintaining their professional competence.

[Home page](#) | [IICRC Bookstore](#)

While the S500 is the definitive authority and industry standard for water damage restoration, the manual begins with a major disclaimer and rule of thumb for following these principles. Every water cleanup project is unique, with a special set of circumstances that must be taken into account before the restoration process begins.
