Everyone thinks Augie is a weirdo except for her dog - after all, she slips away to work on her lattice of tree forts, dresses like a chimney sweep, and has imaginary adventures after sneaking off from school. But when she dozes off high up in a tree and finds herself falling, something unusual happens - SHE DISCOVERS A SECRET WORLD LONG FORGOTTEN. Inspired by the novels from my childhood, I've put together a rough draft telling Augie's epic adventure. I've tried to fill it with magic-not just the sort that only happens in stories, but the strangenesses of those books we loved as children, and also the lessons about how to better live in the world. My goal is to spend the year revising Augie's story into a crisp and polished book. I think I have something with Augie. She's brave, and I've written her story to encourage younger folks to pay attention to the natural world and be able to discern how certain ways we have of seeing threaten that world. Rather than pitching her story to publishers or sending it out to never hear a word back, I want to share Augie in a way that engages people as I do it. Rather than relying on men behind the curtain of the publishing world to make a declaration about the appeal of this book, I've come up with a new idea that puts my writing in your hands. If people like the story, it continues. If not, oh well. Here's the plan: I'll release new sections each month as the same Kindle book based on downloads. If you want to see more of Augie's world, you can download the latest release and encourage your friends/family/social media connections, etc to do the same. Buying it is a vote for me to keep going and once I get 100 downloads, I'll re-release the book with the next section by the end of the month. After another hundred, I'll re-release it with another section and so on (I'm shooting for at least 10+ pages per release). If you want to keep up and you're not a Kindle Unlimited member, you'll have to keep buying the book after each release in order to get the new version. However, once I finish, anyone who bought Augie along the way can get a full digital version by going to www.facebook.com/augiebook and messaging me. If you message me, no matter what, I'll make sure you get the book, however far I take it, for just that initial \$1. If you want to do more, just visit my patreon page: www.patreon.com/canner If people get behind it, by this time next year I should have a complete first draft that I can release in print and you'll have helped me accomplish a dream, plus Augie's story will be there to hopefully help push us toward a better way of being. I know that's a lofty ambition, but I also know this world needs us to be lofty if we want to stem the looming disasters.

The print-on-paper book industry under threat as never before. This threat was exposed in a study by Barclay's Capital which suggested that a quarter of all worldwide book sales in 2015 will be made up of eBooks. The explosive growth of eBook publishing has serious ramifications for all bricks-and-mortar libraries, bookstores and the entire supply chain which supports them. Indeed the rationale for their very existence is under threat. This book will help publishers and authors understand the paradigm shift that is taking place. Unfortunately, the nascent eBook industry operates in a Tower of Babel with different eBook reading languages on competing devices offered by ruthless dog-eat-dog competitors; each of which is fighting for market share. It is no wonder that many publishers, self-publishers and authors are confused. That's where this book can help them. It reviews the myriad of different devices on which eBooks can be read and then it covers the different computer languages used to deliver them. Readers will find out what's involved in preparing their material so that it can be read in eBook format.

NEW YORK TIMES BEST SELLER • From the indie rock sensation known as Japanese Breakfast, an unforgettable memoir about family, food, grief, love, and growing up Korean American—"in losing her mother and cooking to bring her back to life, Zauner became herself" (NPR) • CELEBRATING OVER ONE YEAR ON THE NEW YORK TIMES BEST SELLER LIST In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread.

Read this if you want to sell more books, make more money as an author, or rank higher in your category. My name is Nick Vulich. The first thing you should know about me is I'm not a writer, and I'm not an expert on self-publishing either. I never worked in the industry, and I don't have any experience working for the big publishers. In fact, the only thing I consider myself an expert in is how to sell on eBay, Amazon, and Fiverr... So why should you listen to me? Like most indie authors, I came into publishing through the back door. I had a story to tell, and one day I just sat down and let it all come out. What I wrote wasn't pretty, or polished...but, it helped a lot of people sell more stuff on eBay. What I couldn't say with fancy prose, I made up for with enthusiasm. Because of that, my books sold. I'm not going to lie to you. It wasn't easy. I read just about every book available on self-publishing. I studied up on KDP Free days, Countdown Deals, price pulsing...

Let Me Tell You What I Mean Bloomsbury Publishing

Stewart Brand famously declared, "Information wants to be free." Except he didn't (not really). And it doesn't. Information is much more complicated than that. What information really wants—what makes it more valuable, useful, and immediate, Joshua Gans argues—is to be shared. Using the tools and logic of information economics, Gans shows how sharing enhances most information's value. He also shows how the business models of traditional media companies, gatekeepers who have relied on scarcity and control, have collapsed in the face of new technologies. Equally important, he argues that sharing can revive moribund, threatened industries even as he examines platforms that have, almost accidentally, thrived in this new environment. Provocative, intriguing, and useful, *Information Wants to Be Shared* will change the way you think about your ideas and the media you use to consume and produce them. HBR Singles provide brief yet potent business ideas, in digital form, for today's thinking professional.

The Broadview Anthology of Restoration and Early Eighteenth-Century Drama, Concise Edition, with twenty-one plays, is half the length of the full anthology without compromising its breadth. Concentrating on plays from the heyday of 1660-1737, it focuses on Restoration drama proper and Revolution drama, with a selection from the early Georgian period and the later Georgian period's "laughing comedy." Seven of the nine sub-genres (personal tragedy, tragicomic romance, social comedy, subversive comedy, corrective satire, menippean satire, and laughing comedy) of the full anthology are represented, with the preponderance of exposure given to the jewel of this theatre, its comedy. Each play is fully annotated and prefaced with an historical introduction. Also included are a general introduction, a statement of procedures, and a glossary.

This book explores hybrid memoirs, combining text and images, authored by photographers. It contextualizes this sub-category of life writing from a historical perspective within the overall context of life writing, before taking a structural and cognitive approach to the text/image relationship. While autobiographers use photographs primarily for their illustrative or referential function, photographers have a much more complex interaction with pictures in their autobiographical accounts. This book explores how the visual aspect of a memoir may drastically alter the reader's response to the work, but also how, in other cases, the visual parts seem disconnected from the text or underused.
