ICTS - the Best Teachers' Test Prep Mometrix Media Llc

The concept of "funds of knowledge" is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents "how to do school" although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.

This study guide is designed to help you prepare for the Teacher of Students Who Are Blind or Visually Impaired test of the Illinois Certification Testing System (ICTS). Candidates for initial certification in Illinois must take and pass the Basic Skills and content tests. Additionally, an Assessment of Professional Teaching test is required of individuals who on or after October 1, 2003, apply for early childhood, elementary, secondary, or special teaching certificates.

Study Guide CreateSpace

The ILTS Expanded Study Guide for Basic Skills is designed as an online study tool for the Test of Academic Proficiency (TAP): Reading Comprehension, Language Arts and Writing, and Mathematics,

brought to you by the experts at the Evaluation Systems group of Pearson, the most experienced company in standards-based educator licensure testing. The online Illinois Licensure Testing System: Expanded Study Guide for Basic Skills -- Access Card provides 6-months of online access to prepare for the Test of Academic Proficiency (TAP): Reading Comprehension, Language Arts and Writing, and Mathematics. This online study guide features: An annotated test framework with an overview of each subtest, and includes 50 authentic multiple-choice questions and 2 authentic writing assignments. A rationale for each multiple-choice question explains why the correct response is the best answer. Sample responses for the writing assignments demonstrate the level of writing skills that correspond to a strong score and a weak score. A score report interpretation helps examinees better understand their test results and offers strategies for retaking subtests. A description of the test development process and a list of resources for further study are also included. Once the access code is activated, the subscription is valid for six months.
