In November 2019, Apple launched the 16-inch MacBook Pro which took the place of the previous 15-inch model. Currently, the lineup includes the 16-inch model and the 13-inch model. The features for the 16-inch model include an improved keyboard that has a scissor mechanism rather than a butterfly mechanism, slimmer bezels, bigger 16-inch Retina display, graphics cards from the AMD Radeon Pro 5000M Series, a maximum of 8TB storage space, and a maximum of 64GB RAM. In May 2019, the higher-end 13-inch model was refreshed by Apple, while the entry-level models were refreshed in July 2019, making them comparable to the more expensive choices. The updated features include new quad-core processors, an improved butterfly keyboard, True Tone support, T2 security chip, Touch ID, and Touch Bar. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users. Some of these features include the Screen Time, division of iTunes into 3 separate apps, using the iPad as a second screen, otherwise known as Sidecar and lots more. This user guide contains detailed steps on how to explore all the new features on your computer along with screenshots to make it easy for you to familiarize yourself with the workings of the macOS Catalina. In July 2019, Apple updated the MacBook Air that was originally redesigned in October 2018. Even though there were no major updates to the MacBook Air, the enhancement led to a new butterfly keyboard which utilizes the same updated materials like the 2019 MacBook Pro, some small SSD changes, an improved display with True Tone, and a lower price tag. The MacBook Air has a T2 chip as well as fingerprint sensor for the Touch ID that can be used instead of entering password. This T2 chip is built for enhanced security on the MacBook Air by ensuring a secure boot process through Secure Enclave, and fast data encryption with an SSD controller. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users. Some of these features include the Screen Time, division of iTunes into 3 separate apps, using the iPad as a second screen, otherwise known as Sidecar and lots more. The Vaccine Handbook has a simple purpose- to draw together authoritative information about vaccines into a simple and concise resource that can be used in the office, clinic, and hospital. Not an encyclopedia or scientific textbook, The Vaccine Handbook gives practical advice and provides enough background for the practitioner to understand the recommendations and explain them to his or her patients. For each vaccine, the authors discuss the disease and its epidemiology, the vaccine ' s efficacy and safety, and the practical questions most frequently asked about the vaccine ' s use. The authors also discuss problems such as allergies, breastfeeding, dosing intervals and missed vaccines, and immunocompromised individuals. This handbook is also available electronically for handheld computers. See Media listing for details.
