New York City 's desegregated Palladium Ballroom springs to life with a diverse 1940s cast in this jazzy picture-book tribute to the history of mambo and Latin jazz. Millie danced to jazz in her Italian neighborhood. Pedro danced to Latin songs in his Puerto Rican neighborhood. It was the 1940s in New York City, and they were forbidden to dance together . . . until first a band and then a ballroom broke the rules. Machito and His Afro-Cubans hit the scene with a brand-new sound, blending jazz trumpets and saxophones with Latin maracas and congas creating Latin jazz, music for the head, the heart, and the hips. Then the Palladium Ballroom issued a bold challenge to segregation and threw open its doors to all. Illustrated with verve and told through real-life characters who feature in an afterword,

¡ Mambo Mucho Mambo! portrays the power of music and dance to transcend racial, religious, and ethnic boundaries.

The Idea of the PhD: The doctorate in the twenty-first-century imagination analyses the PhD as it is articulated in

diverse areas of contemporary discourse at a time in which the degree is undergoing growth, change and scrutiny worldwide. It considers not just institutional ideas of the PhD, but those of the broader cultural and social domain as well as asking whether, and to what extent, the idea of the Doctor of Philosophy, the highest achievable university award, is being reimagined in the twenty-first century. In a world where the PhD is undergoing significant radical change, and where inside universities, doctoral enrolments are continually climbing, as the demand for more graduates with high-level research skills increases, this book asks the following questions: How do we understand how the PhD is

---

currently imagined and conceptualised in the wider domain? Where will we find ideas about the PhD, from its purpose, to the nature of research work undertaken and the kinds of pedagogies engaged, to the researchers who undertake it and are shaped by it? International in scope, this is a text that explores the culturally inflected representation of the doctorate and its graduates in the imagination, literature and media. The Idea of the PhD contributes to the research literature in the field of doctoral education and higher education. As such, this will be a fascinating text for researchers, postgraduates and academics interested in the idea of the university.

"Gómez-Peña Unplugged is an anthology of recent writings from Guillermo Gómez-Peña, a figure who stands alone as unique and ground-breaking in the history of performance art, and as the Artistic Director of transdisciplinary performance troupe La Pocha Nostra. Throughout this collection, Gómez-Peña tackles literature, theory, pedagogy, activism and live art in an eclectic mix that demonstrates how the process of writing is simultaneously a performative exercise in embodied language. The writing stands as a call for action utilizing what Gómez-Peña terms 'imaginary

activism' and 'radical citizenship'; it invites the reader to embody a borderless, polygendered, cross generational and race literate ethos. This timely anthology comes straight from the heart of a troubled Trump-era United States and a crime cartel ridden Mexico. Artists are prompted to engage in radical performance pedagogy within the civic realm and to think of themselves as 'artists' participating in the great debates of our times. By encouraging artists and emerging writers to wildly imagine their practice beyond the normative art world and academia, this book is a unique read for

"This remarkable set of essays defines the role of imagination in general education, arts education, aesthetics, literature, and the social and multicultural context.... The author argues for schools to be restructured as places where students reach out for meanings and where the previously silenced or unheard may have a voice. She invites readers to develop processes to enhance and cultivate their own visions through the

application of imagination and the arts. Releasing the Imagination should be required reading for all educators, particularly those in teacher education, and for general and academic readers." —Choice  
"Maxine Greene, with her customary eloquence, makes an impassioned argument for using the arts as a tool for opening minds and for breaking down the barriers to imagining the realities of worlds other than our own familiar cultures.... There is a strong rhythm to the thoughts, the arguments, and the entire sequence of essays presented here."

a vivid portrait of the possibilities of human experience and education's role in its realization. It is a welcome corrective to current pressures for educational conformity." —Elliot W.
