A magisterial study of the history and theory of one of the most controversial political movements Anarchism routinely gets a bad press. It's usually seen as meaning chaos and disorder -- or even nothing at all. And yet, from Occupy Wall Street to Pussy Riot, Noam Chomsky to David Graeber, this philosophical and political movement is as relevant as ever. Contrary to popular perception, different strands of anarchism -- from individualism to collectivism -- do follow certain structures and a shared sense of purpose: a belief in freedom and working towards collective good without the interference of the state. In this masterful, sympathetic account, political theorist Ruth Kinna traces the tumultuous history of

---

anarchism, starting with thinkers and activists such as Peter Kropotkin and Emma Goldman and through key events like the Paris Commune and the Haymarket affair. Skilfully introducing us to the nuanced theories of anarchist groups from Russia to Japan to the United States, *The Government of No One* reveals what makes a supposedly chaotic movement particularly adaptable and effective over centuries -- and what we can learn from it.

"Mark Wilson presents a highly original and broad-ranging investigation of the way we get to grips with the world conceptually, and the way that philosophical problems commonly arise from this. He combines traditional philosophical concerns about human conceptual thinking with illuminating data derived from a large variety of fields including physics and applied mathematics, cognitive psychology, and linguistics. *Wandering Significance* offers abundant new insights and perspectives for philosophers of language, mind, and science, and will also reward the interest of psychologists, linguists, and anyone curious about the mysterious ways in which useful language obtains its practical applicability."--Publisher's description.

**Architecture and Modern Literature** explores the representation and interpretation of architectural space in modern

literature from the early nineteenth century to the present, with the aim of showing how literary production and architectural construction are related as cultural forms in the historical context of modernity. In addressing this subject, it also examines the larger questions of the relation between literature and architecture and the extent to which these two arts define one another in the social and philosophical contexts of modernity. *Architecture and Modern Literature* will serve as a foundational introduction to the emerging interdisciplinary study of architecture and literature. David Spurr addresses a broad range of material, including literary, critical, and philosophical works in English, French, and German, and proposes a new historical and theoretical overview of this area, in which modern forms of "meaning" in architecture and literature are related to the discourses of being, dwelling, and homelessness.

Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary

---

studies and the ethnography of speaking, Ruth Finnegan's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism.

A major work by one of the more innovative thinkers of our time, *Politics of Nature* does nothing less than establish the conceptual context for political ecology--transplanting the terms of ecology into more fertile philosophical soil than its proponents have thus far envisioned. Bruno Latour announces his project dramatically: "Political ecology has nothing whatsoever to do with nature, this jumble of Greek philosophy, French Cartesianism and American parks." Nature, he asserts, far from being an obvious domain of reality, is a way of assembling political order without due process. Thus, his book proposes an end to the old dichotomy between nature and society--and the constitution, in its place, of a collective, a community incorporating humans and nonhumans and building on the

experiences of the sciences as they are actually practiced. In a critique of the distinction between fact and value, Latour suggests a redescription of the type of political philosophy implicated in such a "commonsense" division--which here reveals itself as distinctly uncommonsensical and in fact fatal to democracy and to a healthy development of the sciences. Moving beyond the modernist institutions of "mononaturalism" and "multiculturalism," Latour develops the idea of "multinaturalism," a complex collectivity determined not by outside experts claiming absolute reason but by "diplomats" who are flexible and open to experimentation. Table of Contents: Introduction: What Is to Be Done with Political Ecology? 1. Why Political Ecology Has to Let Go of Nature First, Get Out of the Cave Ecological Crisis or Crisis of Objectivity? Exploring Common Worlds Time's Two Arrows The Learning Curve The Third Power and the Question of the State The Exercise of Diplomacy War and Peace for the Sciences Conclusion: What Is to Be Done? Political Ecology! Summary of the Argument (for Readers in a Hurry...) Glossary Notes Bibliography Index From the book: What is to be done with political ecology? Nothing. What is to be done? Political ecology! All those who have hoped that the politics of nature would bring about a renewal of public life have asked the first question, while noting the stagnation of the so-called "green" movements. They would like very much to know why so promising an endeavor has so often come to naught. Appearances notwithstanding, everyone is bound to answer the second question the same way. We have no choice: politics does not fall neatly on one side of a divide and nature on the other. From the time the term "politics" was invented,

every type of politics has been defined by its relation to nature, whose every feature, property, and function depends on the polemical will to limit, reform, establish, short-circuit, or enlighten public life. As a result, we cannot choose whether to engage in it surreptitiously, by distinguishing between questions of nature and questions of politics, or explicitly, by treating those two sets of questions as a single issue that arises for all collectives. While the ecology movements tell us that nature is rapidly invading politics, we shall have to imagine - most often aligning ourselves with these movements but sometimes against them - what a politics finally freed from the sword of Damocles we call nature might be like.

Reminiscences, 1819-1899 Egmontusa Living Mindfully Across the Lifespan: An Intergenerational Guide provides user-friendly, empirically supported information about and answers to some of the most frequently encountered questions and dilemmas of human living, interactions, and emotions. With a mix of empirical data, humor, and personal insight, each chapter introduces the reader to a significant topic or question, including self-worth, anxiety, depression, relationships, personal development, loss, and death. Along with exercises that clients and therapists can use in daily practice, chapters feature personal stories and case studies, interwoven throughout with the authors' unique intergenerational perspectives. Compassionate, engaging writing is balanced with a straightforward presentation of research data and practical strategies to help address issues via psychological, behavioral, contemplative, and movement-oriented exercises. Readers will learn how to look

deeply at themselves and society, and to apply what has been learned over decades of research and clinical experience to enrich their lives and the lives of others. One Hundred Years of the African Methodist Episcopal Zion Church New York : McClure, Phillips

In this second edition of her 1989 survey on feminist theory, Rosemarie Tong provides a more comprehensive and substantially redrawn map of twentieth-century feminist thinking. Besides providing up-to-date coverage of liberal, radical (libertarian and cultural), and Marxist-socialist schools of feminism, she covers psychoanalytic, existentialist, and postmodern feminism. All the chapters have been rethought and new chapters on ecofeminism and multicultural and global feminism have been added. In the clear-sighted and accessible style for which has become known, Tong guides the reader through the complexities of even the most notoriously difficult thinkers. Students will become familiar with many of the essential figures in the feminist tradition as well as some of the issues that have been of special concern to women (e.g., pornography, reproductive technology, housework, the environment, and militarism). Moreover, students are repeatedly urged to consider the many differences that separate women (class, race, ethnicity, age, nationality, religion) as well as the sameness that continue to unite women. Tong treats all views with

respect and encourages the reader to think both sympathetically and critically about what feminism is and what relevance it has to their own lives. As valuable as the first edition of *Feminist Thought*, this second edition surpasses its predecessor in depth and breadth. Clearly, Tong believes that feminist thought is still developing even as it approaches the millennium.

Everlasting Embrace Routledge  
Covers the history of reading and children's literature in the eighteenth century. Drawing upon the Jane Johnson (1706-1759) archives in the Bodleian Library, Oxford and the Lilly Library, University of Indiana, it is able to document the typical reading practices of an upper middle class family in this period. More particularly, it draws on these unique collections to throw light on a series of questions currently preoccupying scholars in the fields of the history of reading, the history of children's literature, and the history of women. At the same time, the human presence of Jane Johnson and her children gives this book a wide appeal to non-specialist readers through its thorough use of the Johnson archives. *Immortal Embrace* Simon and Schuster

What do medieval Icelanders mean when they say ¿ troll ¿ ? What did they see when they saw a troll? What did the troll signify to them? And why did they see them? The principal subject of this book is the Norse idea of the troll, which the author uses to engage with the larger topic of paranormal experiences in the medieval North. The texts under study are from 13th-, 14th-, and 15th-century Iceland. The focus of the book is on the ways in which paranormal experiences are related and defined in these texts and how those definitions have framed and continue to frame scholarly interpretations of the paranormal. The book is partitioned into numerous brief chapters, each with its own theme. In each case the author is not least concerned with how the paranormal functions within medieval society and in the minds of the individuals who encounter and experience it and go on to narrate these experiences through intermediaries. The author connects the paranormal encounter closely with fears and these fears are intertwined with various aspects of the human experience including gender, family ties, and death. The Troll Inside You hovers over the boundaries of scholarship and literature. Its aim is to prick and provoke but above all to challenge its audience to reconsider some of their preconceived ideas about the medieval past.

A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she 'll never recover. Between her parents ' arguing and the battle she ' s fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn ' t sure a change of scenery will alter anything, but she ' s willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo ' s beach house. Once they ' re settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He

makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that ' s when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother ' s dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more.
