What is Impact Factor? - Journals Club

The impact factor is also known by the name
of journal impact factor of an academic
journal. It is based on the scientometric index
that shows the annual average number of
citations. Moreover, impact factor is having all
the information which is published in the last
two years in the given journal received.

The impact factor of the journal (impact factor,
IF, JIF) is a numerical indicator of the
significance and popularity of a periodical.
This mechanism was first used in the 60s of the
20th century in the United States.
