A leading orthodontics reference, *Orthodontics: Current Principles and Techniques*, 5th Edition provides the latest information from the best experts in the field. It reflects today's emerging techniques, including new information on esthetics, genetics, cone-beam and other three-dimensional technologies, and evidence-based treatment. Coverage of diagnosis and treatment ranges from basic to highly complex situations, all in a concise, extensively illustrated format. Also included with this edition is a companion website that includes an electronic version of all chapters, supplemental content in select chapters, and a complete image collection to help with research and presentations. Written by Lee W. Graber, Robert L. Vanarsdall Jr., and Katherine W. L. Vig, along with a team of expert contributors, this is your go-to book for the practical orthodontic information you can use every day. Comprehensive coverage includes foundational theory and the latest on materials and techniques used in today's practice. Full-color photographs make it easy to see and distinguish the subtle differences that are necessary to mastering treatment planning. More than 2,500 images include a mixture of radiographs, clinical photos, and anatomic or schematic line drawings, showing examples of treatments, techniques, and outcomes. Detailed case studies guide you through the decision-making process, showing the consequences of various treatment techniques over time. Extensive references cite the latest in orthodontic research, so it's easy to follow up on evidence-based information. Authoritative research is provided by a team of three experienced, renowned authors/editors along with a team of worldwide experts. Cutting-edge content includes the latest concepts and techniques in orthodontics, including new coverage of temporary anchorage devices, self-ligating bracket biomechanics, clear aligner treatments, technological advances in imaging, and lasers. Improved organization separates topics into six parts and 29 chapters, enhancing both learning and research. Chapter outlines serve as a handy reference tool for practitioners and researchers. New lead author Dr. Lee Graber adds a fresh perspective to the experience of authors Drs. Robert Vanarsdall Jr., and Katherine W. L. Vig. Access to a companion website includes an electronic version of all chapters, plus case studies, a complete image collection, and supplemental content.

The Teen Owner's Manual Macmillan

This textbook provides instruction in college level rhetoric and writing. It offers readings, a research manual, a handbook and supports a range of approaches to teaching and learning, including collaboration, visual rhetoric, personal writing, writing about literature, writing in the community and the workplace, field research, portfolios, oral presentations, essay exams, and ESL. It contains step-by-step guides to writing specific kinds of essays -- remembering events, writing profiles, explaining a concept, finding common ground, arguing a position, proposing a solution, justifying an evaluation, speculating about causes, and interpreting stories. Because so much college writing requires strong argumentation skills, four of the assignment chapters focus on argumentative writing, and a separate strategies chapter covers theses, reasons and support, counterarguments, and logical fallacies. Three full chapters on research give students useful strategies not only for conducting field, library, and Internet research, but also for evaluating sources; deciding whether to quote, paraphrase, or summarize; avoiding plagiarism; and documenting sources. The authors have included 39 readings by well-known authors and various "fresh" voices, including 12 students, providing well-written examples of the different types of essays and papers that students might be asked to complete.

Millions compete for exposure on Google and Bing but 99% of them fail to get results. As the founder of leading digital intelligence firm AdGooroo, search advertising authority Richard Stokes is in a unique position to reveal what's going wrong and provide solutions to fix it. Using proven strategies from today's search advertising elite, discover how to drive significantly more traffic to your site, dramatically increase click-through rates, steal impressions from competitors, boost your conversions, and increase your sales by unbelievable amounts. Since the previous edition, there have been a number of revolutionary changes in paid search. First, we are increasingly searching from our cell phones rather than desktop computers. Second, Google is no longer the only game in town. Bing now accounts for 30 percent of all U.S. searches. Finally, "search extensions" have become a powerful new technique you can use to collect phone numbers and email addresses with your ads, limit your ads to certain times of day, deliver coupons to nearby customers, and even provide handy "call me" buttons that are displayed only on cell phones. In this new edition, Stokes details all this and more.
