Alan Lomax is a legendary figure in American folk music circles. Although he published many books, hundreds of recordings and dozens of films, his contributions to popular and academic journals have never been collected. This collection of writings, introduced by Lomax's daughter Anna, reintroduces these essential writings. Drawing on the Lomax Archives in New York, this book brings together

articles from the 30s onwards. It is divided into four sections, each capturing a distinct period in the development of Lomax's life and career: the original years as a collector and promoter; the period from 1950-58 when Lomax was recording throughout Europe; the folk music revival years; and finally his work in academia.

“Meticulously researched, detailed and documented, this long awaited overview justly establishes Konitz as one of the most consistently brilliant, adventurous and original improvisers in the jazz tradition—a genius as rare as Bird himself.” —John Zorn
“Hamilton’s work may well mark the inception of a format new to writing on Western music, one which avoids both the self-aggrandizing of autobiography and the stylized subjectification of biography.”

—The Wire “An extraordinary approach to a biography, with the man himself speaking for extended sessions. The main vibration I felt from Lee’s words was total honesty, almost to a fault. Konitz shows himself to be an acute observer of the scene, full of wisdom and deep musical insights, relevant to any historical period regardless of style. The asides by noted musicians are

beautifully woven throughout the pages. I couldn’t put the book down—it is the definition of a living history.” —David Liebman
The preeminent altoist associated with the “cool” school of jazz, Lee Konitz was one of the few saxophonists of his generation to forge a unique sound independent of the influence of Charlie Parker. In the late 1940s, Konitz began his career with the Claude Thornhill band, during which time he came into contact with Miles Davis, with whom he would later work on the legendary Birth of the Cool sessions. Konitz is perhaps best known through his association with Lennie Tristano, under whose influence much of his sound evolved, and for his work with Stan Kenton and Warne Marsh. His recordings have ranged from cool bop to experimental improvisation and have appeared on such labels as Prestige, Atlantic, Verve, and Polydor. Crafted out of numerous interviews between the author and his subject, the book offers a unique look at the story of Lee Konitz’s life and music, detailing Konitz’s own insights into his musical education and his experiences with such figures as Miles Davis, Stan Kenton, Warne Marsh, Lennie Tristano, Charles Mingus, Bud Powell, and Bill Evans. Andy Hamilton is a jazz pianist and contributor to major jazz and contemporary music magazines. He teaches philosophy, and the history and aesthetics of jazz, at Durham University in the United Kingdom. He is also the author of the book *Aesthetics and Music* (Continuum 2007).
Joe Lovano is a Grammy Award-winning tenor saxophonist. His most recent album is *Streams of Expression*.

Jerry presents an easy-to-understand, no-nonsense approach for quickly analyzing any tune to make it easier to understand, transpose, and improvise over. Thinking in Roman numerals, recognizing the common elements from which nearly all tunes are derived, and knowing the traditional road maps will make you more prepared, and therefore---a more confident improviser.

Improvising Jazz Alfred Music Publishing
Any listener knows the power of music to define a place, but few can describe the how or why of this phenomenon. In *Lonesome Roads and Streets of Dreams: Place, Mobility, and Race in Jazz of the 1930s and '40s*, Andrew Berish attempts to right this wrong, showcasing how American jazz defined a culture particularly preoccupied with place. By analyzing both the performances and cultural context of leading jazz figures, including the many famous venues where they played, Berish bridges two dominant scholarly approaches to the genre, offering not only a new reading of swing era jazz but an entirely new framework for musical analysis in general, one that examines how the geographical realities of daily life can be transformed into musical sound. Focusing on white bandleader Jan Garber, black bandleader Duke Ellington, white saxophonist Charlie Barnet, and black guitarist Charlie Christian, as well as traveling from Catalina Island to Manhattan to Oklahoma City, *Lonesome Roads and Streets of Dreams* depicts not only a geography of race but how this geography was disrupted, how these musicians crossed physical and racial

boundaries—from black to white, South to North, and rural to urban—and how they found expression for these movements in the insistent music they were creating.

Deal: My Three Decades of Drumming, Dreams, and Drugs with the Grateful Dead Routledge (Book). More than a player's manual, this book portrays jazz bass as a vital element of 20th century American music. Citing examples from key recordings in the jazz canon, the book defines the essence of the musical contributions made by more than 70 important jazz bassists, including Ray Brown, Eddie Gomez, Charles Mingus, Milt Hinton and many others. Bassists get expert guidance on mastering proper technique, practice methods and improvisation, plus new insight into the theoretical and conceptual aspects of jazz. The companion audio featuring bass plus rhythm section allows readers to hear technical examples from the book, presented in slow and fast versions. It also offers play-along tracks of typical chord progressions and song forms.
