The Highlander's Surrender Plume

Eliza Knight's bestselling Scottish historical romance series, The Stolen Bride Series, is back with another amazing tale of adventure, passion and love! Ceana Montgomery had notions of marrying for love after her first disastrous marriage ended in widowhood. But now Robert the Bruce has ordered her to marry a stranger, securing a strong alliance and ending a decades-old feud. Already used as a pawn once in marriage, she is devastated that she will once more have to give up her happiness in order to please the edicts of men. And while the braw warrior standing before her might incite feelings inside her she thought long since buried, desire is a far cry from love. The rivalry between Brochan Lamont and his twin brother, John, began in the womb, and only grew worse from there. They were pitted against each other in childhood, and their father left them with a legacy that was a race to the finish-whoever has an heir first inherits the lands. The only problem is that Brochan has given his loyalty to the Scots, and his brother to the English. In order to keep the lands and ships under Scottish control, Robert the Bruce demands Brochan marry to break the iron-clad will. His new bride harbors a fiery temperament that lures Brochan into stoking her passions instead of her ire. Aligned to strengthen the Scottish claims on the realm, Brochan and Ceana must work together to overcome the obstacles that bind them. But perhaps seeing their duties through does not have to be as painful as they both predicted. Is it possible that love can be forged from a

union born in alliance? Maybe Fate knew all along just who was meant for who...

Physical Methods in Chemical Analysis, Volume IV focuses on the application of physical methods in chemical analysis, including dialysis, chromatography, electromagnetic separations, and thermal diffusion. The selection first offers information on dialysis and separations with molecular sieves and foams. Topics include membranes for dialysis, apparatus and techniques, application of molecular sieves to the problems of separation, adsorption measurements and techniques, and molecular sieve adsorbents. The text then elaborates on separations with foams and electromagnetic separations. The publication explains ion exchange and analytical applications of inclusion. Discussions focus on separations by ion-exchange chromatography, general properties of ion-exchange resins, ion exclusion, and methods and technical details. The publication then ponders on separation of gases and liquids by thermal diffusion and solvent extraction. The selection is highly recommended for readers interested in the application of physical methods in chemical analysis.

Kirkus Review, Starred Review American Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to become attached to anything, anyone, or any place. But it only took her two days to fall in love with Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he's as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn't have to share. The last cookie all to himself. And solitude. But when you grow up in a

family of seven, you can kiss those things goodbye. He's finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she'll be gone in a few months... Except now she's determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs? Each book in the Patterson's Bluff series is STANDALONE: * The Aussie Next Door * Her Aussie Holiday The Aussie Next Door HarperCollins Examining the growth trend towards community rehabilitation in neurology, this book is directed towards all clinicians involved with neurorehabilitation. The study analyzes community rehabilitation needs from diverse international perspectives that include the views of disabled people, rehabilitation clinicians and service providers. Many examples of community rehabilitation plans are presented, and supplemental case studies highlight the main issues. Chapters also cover the disabled child in the community and neuropsychological rehabilitation. The Descendants Complete Series (Books 1, 1.5, 2, 3) "O'Reilly Media, Inc." Come home to 59 Memory Lane with a new novel from the top Kindle and USA Today bestselling author Celia Anderson! ADSP-2100 Family User's Manual Harper Collins John Joseph wants men to know, in no uncertain terms, that they don't need to eat steak, burgers, wings, ribs, or any other animal product, for that matter, to be strong—in fact, he would argue, eating animals is for the weak. Because when your protein sources come from animals, you're missing out on all of the nutritional benefits of a plant-based diet—a diet that can make you more fit, more sexy, and more manly. In Meat is for Pussies, Joseph presents a throw-down of information, offering both personal and scientific evidence that a plant-based diet offers the best path to athleticism, endurance, strength, and overall health. In addition to handily dispelling the myths surrounding meat, Joseph offers workout advice, a meal plan, and recipes that make going plant-based easy. Flavor and vitamin-packed options like the Working Man Stew and Veggie Chili with Cornbread will keep men's (and women's) bodies healthy and energized, while workouts that emphasize cardio and strength training build endurance and stamina and prove that you don't need meat to build muscle. Joseph also offers living proof that living a plant-based lifestyle is badass, from super-athlete Brendan Brazier to MMA champion

Jake Shields to Joseph himself, who is an Ironman Triathlete and still rocking out (at the age of fifty-two) on world tours as the frontman for his legendary band the Cro-Mags. Joseph's passion for educating the world about the benefits of a plant-based diet comes through on each page, in a voice and a vocabulary that is uniquely his own. At the end of the day, he wants readers to live a long, healthy, happy life . . . and he won't take no for an answer. Death Waits in the Dark J.S. Cooper It's a summer internship. Never mind that the owners are hot. Never mind that there are three of them. Never mind that they are twice her age. Never mind that they have a secret "play" room in the basement. Never mind that she's never been more intrigued in her life. She only has three months. No matter how deeply she gets involved, she can't stay... Pharmacology of Purine and Pyrimidine Receptors L.D. Hall One L, Scott Turow's journal of his first year at law school was a bestseller when it was first published in 1977, and has gone on to become a virtual bible for prospective law students. Not only does it introduce with remarkable clarity the ideas and issues that are the stuff of legal education; it brings alive the anxiety and competitiveness - with others and, even more, with oneself - that set the tone in this crucible of character building. Turow's multidimensional delving into his protagonists' psyches and his marvellous gift for suspense prefigure the achievements of his bestselling first novel, Presumed Innocent. Each September, a new crop of students enter Harvard Law School to begin an intense, often gruelling, sometimes harrowing year of introduction to the law. Turow's group of One Ls are fresh, bright, ambitious, and more than a little daunting. Even more impressive are the faculty: Perini, the dazzling, combative professor of contracts, who presents himself as the students' antagonist in their struggle to master his subject; Zechman, the reserved professor of torts who seems so indecisive the students fear he cannot teach; and Nicky Morris, a young, appealing man who stressed the humanistic aspects of law. Will the One Ls survive? Will they excel? Will they make the Law Review, the outward and visible sign of success in this ultra-conservative microcosm? With remarkable insight into both his fellows and himself, Turow leads us through the ups and downs, the small triumphs and tragedies of the year, in an absorbing and thought-provoking narrative that teaches the reader not only about law school and the law but about the human beings who make them what they are. Surveying for Construction McFarland Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Permissions, A Survival Guide Becca Jameson Publishing Psychosocial Rehabilitation is a comprehensive ready-reference for

mental health practitioners and students, providing practical advice on the full range of interventions for psychosocial rehabilitation. It contextualises the interventions described and provides pointers to enable the reader to explore the theory and research. This manual recognises the wide-ranging impact of mental illness and its ramifications on daily life, and promotes a recovery model of psychosocial rehabilitation and aims to empower clinicians to engage their clients in tailored rehabilitation plans. The book is divided into five key sections. Section 1 looks at assessment covering tools available in the public domain, instruments, scoring systems, norms and applications for diagnosis and measurement of symptoms, cognitive functioning, impairment and recovery. Section 2 covers the full range of therapeutic interventions and offers advice on training and supervision requirements and evaluation of process, impact and outcome. Section 3 provides manuals and programs for interventions effectively provided as group activities. Section 4 explains how to design a full programme that integrates therapeutic interventions with group programmes as well as services provided by other agencies. The final section looks at peer support and self help, providing manuals and resources that support programmes and interventions not requiring professional or practitioner direction.

The importance of spiritual and religious frames of reference in making sense of and recovering from mental health difficulties is increasingly being recognized by mental health researchers. This book focuses on a variety of broad existential experiences. These are variously termed 'religious', 'spiritual', 'anomalous', 'extraordinary or exceptional experiences', or 'aberrant perceptions or beliefs' by researchers and health practitioners active in this field. In recognition of the burgeoning work in this area in recent years, this book brings together a broad range of approaches and perspectives to focus on an important set of topics that are important in demarcating this topic area. While Universal's *Dracula* and *Frankenstein* (both 1931) have received the most coverage of any of the studio's genre releases, it is the lesser known films that have long fascinated fans and historians alike. Starting with *The Last Warning*, a 1929 movie released as both a silent and a talkie, Universal provided a decade of films that entertained audiences and sometimes frustrated critics. Each of Universal's horror, science fiction and "twisted mystery" films receives an in-depth essay for each film. The focus is first on the background to the making of the movie and its place in the Universal catalog. A detailed plot synopsis with critical commentary follows. Filmographic data for the film conclude the entry. Universal's *The Shadow* short film series is covered in an appendix. Many rare illustrations and movie posters are also included.
