The Only Question Is Will Their Love Survive? When Sara and Jacob find out they ' re pregnant with a

baby boy, nothing could make them happier. They were your typical expecting parents - deeply in love, deliriously excited to be starting a family. However, their hopes are dashed when the doctor gives a recommendation for Sara to take an AFT. Five words change their destiny forever... " Your son has Trisomy 21 " Their perfect love story unexpectedly spirals into panic, and their dream shatters with it — devastating Sara. Jacob, confused and troubled with the situation, tries to prompt Sara into following the doctor ' s suggestion: terminate the pregnancy; assuring her that they can try again. Sara angry at even the thought of destroying the life inside of her, rejects him. Their love, marriage and future suddenly start to fall apart; sending them both on very different journeys... Chapter 1 - Bacon Sara stared out the window in awe. The branches of the trees in the backyard swayed back and forth in the light breeze, the sun ' s rays piercing through the leaves causing shadows to dance across the wilted grass. Sara practically floated around the kitchen in her excitement which filled the room along with the smell of the sizzling bacon she was cooking. After years of being married, Sara knew exactly how to rouse her husband from sleep, and she knew that the aroma would eventually coax him out of bed. Elated, she let out a girlish laugh. Today is going to be perfect, she thought. Sizzling and crackling sounds from the frying bacon echoed from the kitchen. She was certain that last pop would have woke him up but she didn ' t care because she was having too much fun. She let her hand rest on her pregnant belly, patting it affectionately. " I hope you like it out here, " she murmured to herself and as if on cue, she felt a tiny flutter in her stomach. Being pregnant was unlike any other chapter of her life, she had never felt more purposeful. She felt like a mess of contradictions. Completely afraid and simultaneously stronger than ever. Powerful, yet unattractive but her mother-in-law had assured her that it was all just the hormones. It didn ' t stop her from feeling like a thanksgiving turkey, although she did appreciate everyone ' s attempt at making her feel better. It wasn ' t long before Jacob ' s head peeked around the corner, sleepy eyed and resembling more of a toddler than a grown man. His golden hair was creased in the middle, pointing up on one side and flattened on the other. He flashed a smile at her, " What ' s all this? " She chuckled, " You have some serious bed head Mr. Michaels. " Without a word he came up behind her, wrapping his arms around her waist and placing his hands on her stomach. " Should you really be standing up for such a long time, Mrs. Michaels? " " I ' m fine Jacob, " she replied. " Besides the doctor said walking is healthy for me and the baby, so standing shouldn ' t hurt. " She laughed patting his cheek playfully. He left a butterfly kiss where her fingers brushed against his lips. " Well, if physical activity is helpful... " Her grin gave way to a full smile as she reached back to swat him. After a short pause he continued, " Seriously, do you know what would make this day better? " She raised her eyebrow, expecting him to say something suggestive (which was typical of him). He spun her around in his arms so that she was facing him, her belly protruded slightly between them making him hold her awkwardly but he went on pretending she didn ' t notice. " I was just going to say, what would make this day better... " he trailed off looking deeply into her eyes. " is finding out we ' re having a boy

today. ” She let out a bark of laughter “ Really, that ’ s not where I thought you were going with that. ”

Newly updated edition of the highly successful core text for using cognitive behaviour therapy with children and young people The previous edition of Think Good, Feel Good was an exciting, practical resource that pioneered the way mental health professionals approached Cognitive Behaviour Therapy with children and young people. This new edition continues the work started by clinical psychologist Paul Stallard, and provides a range of flexible and highly appealing materials that can be used to structure and facilitate work with young people. In addition to covering the core elements used in CBT programmes, it incorporates ideas from the third wave CBT therapies of mindfulness, compassion focused therapy and acceptance and commitment therapy. It also includes a practical series of exercises and worksheets that introduce specific concepts and techniques. Developed by the author and used extensively in clinical practice, Think Good, Feel Good, Second Edition: A CBT Workbook for Children and Young People starts by introducing readers to the origin, basic theory, and rationale behind CBT and explains how the workbook should be used. Chapters cover elements of CBT including identifying thinking traps; core beliefs; controlling feelings; changing behaviour; and more. Written by an experienced professional with all clinically tested material Fully updated to reflect recent developments in clinical practice Wide range of downloadable materials Includes ideas for third wave CBT, Mindfulness, Compassion Focused Therapy and Acceptance and Commitment Therapy Think Good, Feel Good, Second Edition: A CBT Workbook for Children and Young People is a "must have" resource for clinical psychologists, child and adolescent psychiatrists, community psychiatric nurses, educational psychologists, and occupational therapists. It is also a valuable resource for those who work with young people including social workers, school nurses, practice counsellors, teachers and health visitors.

An invisible mountain is rising above the streets of the capital - and at over 1,800 metres, it is Britain's highest peak. This ingenious new book is an account of the ascent of 'Mount London' by a team of writers and urban cartographers, each scaling a smaller hill within the city - from Crystal Palace (112m) to Primrose Hill (78m). The essays and stories in Mount London unpeel London's history and geography, reimagining the city as mountainous terrain and exploring what it's like to move through the urban landscape. Ascents of natural peaks are offset by expeditions to the city's artificial mountains - The Shard (306m), the chimneys of Battersea Power

Station (103m) - the search for 'ghost hills' in the back streets, and a descent into the deepest part of the Tube. Mount London is a unique and visionary record of the vertical city. - CONTRIBUTORS Matt D.
