True Legend Harper Paperbacks

Born at the turn of the 21st century, The Storyteller, also known as Ishkwegaabawiikwe (Last Standing Woman), carries her people's past within her memories. The White Earth

Anishinaabe people have lived on the same land for over a thousand years. Among the towering white pines and rolling hills, the people of each generation are born, live out their lives,

and are buried. The arrival of European missionaries changes the community forever. Government policies begin to rob the people of their land, piece by piece. Missionaries and Indian agents work to outlaw ceremonies the Anishinaabeg have practised for centuries. Grave-robbing anthropologists dig up ancestors and whisk them away to museums as artifacts. Logging operations destroy traditional sources of food, pushing the White Earth people to the brink of starvation. Battling addiction, violence, and corruption, each member of White Earth must find their own path of resistance as they struggle to reclaim stewardship of their land, bring their ancestors home, and stay connected to their culture and to each other. In this highly anticipated 25th anniversary edition of her debut novel, Winona LaDuke weaves a nonlinear narrative of struggle and triumph, resistance and resilience, spanning seven generations from the 1800s to the early 2000s.

Each offers Lennie something she desperately needs. One boy helps her remember. The other lets her forget. And she knows if the two of them collide, her whole world will explode. As much a laugh-out-loud celebration of love as a nuanced and poignant portrait of loss, Lennie's struggle to sort her own melody out of the noise around her makes for an always honest, often uproarious, and absolutely unforgettable read.

Letter to My Daughter Wendy Lamb Books

A novel attempt to make sense of our preoccupation with copies of all kinds—from counterfeits to instant replay, from parrots to photocopies. The *Culture of the Copy* is a novel attempt to make sense of the Western fascination with replicas, duplicates, and twins. In a work that is breathtaking in its synthetic and critical achievements, Hillel Schwartz charts the repercussions of our entanglement with copies of all kinds, whose presence alternately sustains and overwhelms us. This updated edition takes notice of recent shifts in thought with regard to such issues as biological cloning, conjoined twins, copyright, digital reproduction, and multiple personality disorder. At once abbreviated and refined, it will be of interest to anyone concerned with problems of authenticity, identity, and originality. Through intriguing, and at times humorous, historical analysis and case studies in contemporary culture, Schwartz investigates a stunning array of simulacra: counterfeits, decoys, mannequins, and portraits; ditto marks, genetic cloning, war games, and camouflage; instant replays, digital imaging, parrots, and photocopies; wax museums, apes, and art forgeries—not to mention the very notion of the Real McCoy. Working through a range of theories on biological, mechanical, and electronic reproduction, Schwartz questions the modern esteem for authenticity and uniqueness. The *Culture of the Copy* shows how the ethical dilemmas central to so many fields of endeavor have become inseparable from our pursuit of copies—of the natural world, of our own creations, indeed of our very selves. The book is an innovative blend of microsociology, cultural history, and philosophical reflection, of interest to anyone concerned with problems of authenticity, identity, and originality. Praise for the first edition “[T]he author... brings his considerable synthetic powers to bear on our uneasy preoccupation with doubles, likenesses, facsimiles, replicas and re-enactments. I doubt that these cultural phenomena have ever been more comprehensively or more creatively chronicled.... [A]

book that gets you to see the world anew, again.” —The New York Times “A sprightly and disconcerting piece of cultural history” —Terence Hawkes, London Review of Books “In *The Culture of the Copy*, [Schwartz] has written the perfect book: original and repetitive at once.” —Todd Gitlin, Los Angeles Times Book Review

A Certain Strain of Peculiar Haymarket Books

The moving story of a young girl's struggle to face her mother's death. "She traveled to our small white house near the Iowa border on a buckboard, her green bag caked with the dusty road . . . I knew that she was called "the Shrouding Woman" because I'd heard Papa use those words to describe her. I didn't know what it meant but I knew it had something to do with death." It was once common practice for small towns to have a shrouding woman to help put their dead to rest. Still, when eleven-year-old Evie's Aunt Flo—herself a shrouding woman—comes to town, Evie knows little of a shrouding woman's ways and wants nothing to do with this aunt of hers, especially after her own mother's recent death. But as this mysterious woman slowly makes her way into Evie's life, her strong and sensitive presence brings far more than signs of death to a grieving girl's home. Set in the mid-1800s, this beautifully written story, centered on the little-known practice of shrouding, touches on death and healing with sensitivity and quiet dignity.

CRACKER IS ONE OF THE UNITED STATES ARMY'S MOST VALUABLE WEAPONS: a German shepherd trained to sniff out bombs, traps, and the enemy. The fate of entire platoons rests on her keen sense of smell. She's a Big Deal, and she likes it that way. Sometimes Cracker remembers when she was younger, and her previous owner would feed her hot dogs and let her sleep in his bed. That was nice, too. Rick Hanski is headed to Vietnam. There, he's going to whip the world and prove to his family and his sergeant -- and

everyone else who didn't think he was cut out for war -- wrong. But sometimes Rick can't help but wonder that maybe everyone else is right. Maybe he should have just stayed at home and worked in his dad's hardware store. When Cracker is paired with Rick, she isn't so sure about this new owner. He's going to have to prove himself to her before she's going to prove herself to him. They need to be friends before they can be a team, and they have to be a team if they want to get home alive. Told in part through the uncanny point of view of a German shepherd, *Cracker!* is an action-packed glimpse into the Vietnam War as seen through the eyes of a dog and her handler. Dennis Banks, an American Indian of the Ojibwa Tribe and a founder of the American Indian Movement, is one of the most influential Indian leaders of our time. In *Ojibwa Warrior*, written with acclaimed writer and photographer Richard Erdoes, Banks tells his own story for the first time and also traces the rise of the American Indian Movement (AIM). The authors present an insider's understanding of AIM protest events—the Trail of Broken Treaties march to Washington, D.C.; the resulting takeover of the BIA building; the riot at Custer, South Dakota; and the 1973 standoff at Wounded Knee. Enhancing the narrative are dramatic photographs, most taken by Richard Erdoes,

depicting key people and events.

This volume includes an unpublished manuscript and selected portions of five seminars by Harold Garfinkel – the founder of ethnomethodology – on the topic of practices in the natural sciences and mathematics. The volume provides a coherent and sustained account of his program for the study of ordinary and specialized social actions. Presenting broader theoretical and methodological initiatives, as well as discussions and summaries of exemplary studies of social phenomena within and beyond the sciences, this work dates to the period in the 1980s during which

the field of Science and Technology Studies was taking shape, with ethnomethodological studies of scientific practice forming a major part of its development at the time. Aside from their historical importance, the manuscript and seminars present a distinctive perspective on the natural and social sciences that remains highly original and pertinent to research on science, social science, and everyday life today. Offering critical insights and proposals relating to developments in Ethnomethodology and Conversation Analysis, this volume will appeal to scholars of Sociology and Science and Technology Studies with interests in the work of Garfinkel.
