For the first time, former Vice President Dick Cheney opens up about a life and career in politics that has spanned more than four decades. His Military and Personal History, Embracing a Large Amount of Information Hitherto Unpublished Chris Kent "There are so many serious biographies and stories about army operations out there, well this is kind of a biography too - but totally different ..." Per M. Griebler Per M. Griebler is a retired German Master Sergeant who joined the Army in November 1998, and started as a Private in the Mechanized Infantry in Koblenz, Rhineland-Palatinate. In 2003, after tours as a Drill Sergeant, Armored Personnel Carrier Commander, and a Soldier in different companies and battalions all over Germany, he went right back where he started from. But this time as an MP, where he eventually specialized as an Air Marshal. He was also assigned as a Company Liaison Officer to the United States Army Garrison Mannheim, in Baden-Wurttemberg for more than seven years. "The horse makes me better." Sallie Stewart suffered a traumatic brain injury when her Andalusian stallion, Escogido XXV, lost his footing and fell over while she was riding him. Sallie hit the ground first, and then Esco landed on Sallie's head, causing facial fractures and a brain injury that dramatically changed her life. A successful real estate broker and dressage rider at the time of the accident, Sallie had been leading a happy life with her husband, children, and four horses. After Esco fell on her, she lost her memory, her balance, and her ability to perform the most basic tasks. She couldn't hold a job or shake the overwhelming fear that replaced the confidence she once felt. While her husband and sons taught her to walk, talk, dress, and feed herself, Sallie's greatest healing was still to come. With her personal life in disarray and her family's finances in tatters, Sallie was contemplating suicide when she received a life-changing phone call from her dressage coach, Mike Osinski. Osinski calmed the traumatized horse and challenged Sallie to conquer her fears. As she progressed in her lessons, Sallie recovered her memories and developed a new sense of self. She discovered that her deepest healing took place on the back of the very horse that had fallen on her. "Escogido XXV: The Chosen" tells the story of a courageous woman, a compassionate trainer, an extraordinary horse, and their determination to heal their accidental wounds.

What do you do after life has handed you a wake-up call? Author Brian Seth Hurst experienced a significant professional setback, but, rather than "soldier on," he recognized it as a profound opportunity to acknowledge a deeper foundation at work in his life. It is the affirmation that there is sheer power in what one believes, and, for better or worse, those beliefs are the foundation for the reality we

create. The question of "Why?" began a thirty-day inquiry and adventure for Hurst into the unknown. The result is the book W H O L E - a collection of powerful essays that examine how beliefs serve, or do not serve, us in our lives, how those beliefs can be transformed to change our circumstances, and the power of the ultimate connection to Source. What do you do after life has handed you a wake-up call? If you decide to remain awake, then you begin looking at your life. W H O L E is your companion as you review the past, balance all areas of your life, and begin to create anew. W H O L E prompts a very personal, progressive, and conscious examination of concepts and belief systems in every area of your life, ranging from relationships, work and time, to money, the environment, morality and your purpose. It asks provocative and thoughtful questions that lead to understanding. How do you reconcile everything that has happened and is happening in your life with the one you truly want? The good and the bad, the joy and the hurt, the wins and the losses - all those parts form the experience of your life and your identity. Yet, you are much greater than the sum of all those parts. W H O L E allows you to make sense of the pieces of your life as part of the greater being that is You. W H O L E presents you with the opportunity to reconcile the past, arrive wholly connected in the present, and create your future. W H O L E literally answers the question, "What was I thinking?" "To know "whole" in the duality of your reality, you must know broken. To know broken is to recognize that you are, always have been, and always will be WHOLE."

Traffic citations are big business, providing billions of dollars

annually to municipal corporations. Police are incentivized to unlawfully pull over and detain drivers, seize and search their belongings, and ask interrogating questions, all in the the hope of finding excuses to issue fine-generating infractions. Society has been conditioned to accept violations to their individual rights that in past generations wouldn't have been tolerated. The author reveals that traffic enforcement has become a nationwide racketeering scam. With a deft understanding of natural law and the Constitution, the author shows how police officers routinely ignore individuals' rights, while traffic courts actively disregard due process for the sake of revenue. The chilling reality is that the misapplication of motor vehicle codes is representative of a greater trend towards eliminating our rights in general. Our government is vitiating its people; the sovereign are being transformed into subjects. Its time for Americans to resist totalitarianism: whether at the capitol, in the courts, or on our highways. As one of "We the people," I humbly implore you to read this book and spend time comprehending its implications. As Thomas Jefferson said, "If a nation expects to be ignorant and free in a state of civilization, they expect what never was nor ever will be."

Living energy is personal and within our conscious control, and by learning about it, we can use it to transform our life into vibrant and meaningful expressions of who we really are.

Consciousness is purely energetic and therefore difficult to quantify in mechanistic terms. It is the characteristic of living energy and is the foundation of awareness. Consciousness is the thread running through all life. Living Energy is an introduction to the process of mystic spirituality. The reader is

encouraged to attain a deep and meaningful connection to the divine with expanded awareness. The principles given in this book are equally relevant to the novice and the advanced practitioner. Robert explains how we may reveal our hidden potential by shifting our perception away from what is customary and comfortable to open the doors to greater spiritual awareness.

*The Book of Knowledge and Wonder* is a memoir about claiming a legacy of wonder from knowledge of a devastating event. In some ways it has the feel of a detective story in which Steven Harvey pieces together the life of his mother, Roberta Reinhardt Harvey, who committed suicide when he was eleven, out of the 406 letters she left behind. Before he read the letters his mother had become little more than her death to him, but while writing her story he discovered a woman who, despite her vulnerability to depression, had a large capacity for wonder and a love of familiar things, legacies that she passed on to him. The book tackles subjects of recent fascination in American culture: corporate life and sexism in the fifties, mental illness and its influence on families, and art and learning as a consolation for life's woes, but in the end it is the perennial theme of abiding love despite the odds that fuels the tale. As the memoir unfolds, his mother changes and grows, darkens and retreats as she gives up her chance at a career in nursing, struggles with her position as a housewife, harbors paranoid delusions of having contracted syphilis at childbirth, succumbs to a mysterious, psychic link with her melancholic father, and fights back against depression with counseling, medicine, art, and learning. Harvey charts the way, after his mother's death, that he blotted out her memory almost completely in his new family where his mother was rarely talked about, a protective process of letting go that he did not resist and in a way welcomed, but the book grows out of a nagging longing that never went away, a sense of being haunted that caused the writer to seek out places alone-dribbling a basketball on a lonely court, going on long solitary bicycle rides, walking away from his family to the edge of a mountain overlook, and working daily at his writing desk-where he might feel her presence. In the end, the loss cannot be repaired. Her death, like a camera flash in the dark, blotted out all but a few lingering memories of her in his mind, but the triumph of the book is in the creative collaboration between the dead mother, speaking to her son in letters, and the writer piecing together the story from photographs, snatches of memory, and her words so that he can, for the first time, know her and miss her, not some made up idea of her. The letters do not bring her back-he knows the loss is irrevocable-but as he shaped them into art, the pain, that had been nothing more than a dull throb, changed in character, becoming more diffuse and ardent, like heartache.
