From the Preface: The title for this
collection was the title of a course in literary
criticism that I gave for many years at
Bennington College. And much of the
material presented here was used in that

course. The title should serve well to convey
the gist of these various pieces. For all of
them are explicitly concerned with the
attempt to define and track down the
implications of the term "symbolic action,"
and to show how the marvels of literature
and language look when considered from
that point of view.

Person, Animal, Thing in Early
Enlightenment Literature and Culture
Wildside Press LLC

The death of the book has been duly
announced, and with it the end of brick-and-
mortar libraries, traditional publishers,
linear narrative, authorship, and
disciplinarity, along with the emergence of
a more equitable discursive order. These
essays suggest that it won't be that simple.
While the contributors to this volume are

enthusiastic about the possibilities created
by digital technologies, they also see the
new media raising serious critical issues
that force us to reexamine basic notions
about rhetoric, reading, and the nature of
discourse itself.

In the 1950s, a young crop of
British writers sprang forth
with an unusual commonality of
interests. They were promptly
dubbed the "angry young men"
by the press. Included are
Colin Wilson, John Braine,
John Wain, Bill Hopkins, and
more.

Encyclopedia of Indiana Univ of California Press
From the drifting sand dunes and quaint shops of Provincetown to Nantucket's whitewashed verandas and craggy beaches, *Cape Cod Stories* evokes all the rustic beauty and history of this picturesque area in the words of America's best writers. With a striking new cover, this popular anthology is the next best thing to a summer on the Cape.

Writing about Writing Springer

Offers an examination of the works of the American horror writer.

The Turnaway Study University Press of Colorado

Perhaps Willa Cather's most autobiographical work, *The Song of the Lark* charts the story of a young woman's awakening as an artist against the backdrop of the western landscape. Thea Kronborg, an aspiring singer, struggles to escape from the confines her small Colorado town to the world of possibility in the Metropolitan Opera House. In classic Cather style, *The Song of the Lark* is the beautiful, unforgettable story of American determination and its inextricable connection

to the land.

Notable Latino Writers Macmillan Higher Education
Provides critical analysis of the works of Latino novelists, poets, and dramatists of the Western Hemisphere.

MLA Style Manual and Guide to Scholarly Publishing Penguin

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Theory and Applications for Expanding the Teaching of Composition Simon and Schuster
This book grew out of a series of articles which were published originally in *Ebony* magazine.

The book, like the series, deals with the trials and

triumphs of a group of Americans whose roots in the American soil are deeper than those of the Puritans who arrived on the celebrated "Mayflower" a year after a "Dutch man of war" deposited twenty Negroes at Jamestown. This is a history of "the other Americans" and how they came to North America and what happened to them when they got here. The story begins in Africa with the great empires of the Sudan and Nile Valley and ends with the Second Reconstruction which Martin Luther King, Jr., and the "sit-in" generation are fashioning in the North and South. The story deals with the rise and growth of slavery and segregation and the continuing efforts of Negro Americans to answer the question of the Jewish poet of captivity: "How shall we sing the Lord's song in a strange land?" This history is founded on the work of scholars and specialists and is designed for the average reader. It is not, strictly speaking, a book for scholars; but it is as scholarly as fourteen months of research could make it. Readers who would like to follow the story in greater detail are urged to read each chapter in connection with the outline of Negro history in the appendix.

A Global Snapshot of Solid Waste Management to 2050 MLA Style Manual and Guide to Scholarly Publishing

GLOBAL AMERICANS speaks to an increasingly diverse population of students who seek to

understand the place of the United States in a shifting global, social, cultural, and political landscape. America's national experience and collective history have always been subject to transnational forces and affected by global events and conditions. In recognition of this reality, this insightful new text presents a history of North America and then the United States in which world events and processes are central rather than colorful sidelights. The narrative recovers the global aspects of America's past and helps students understand the origins of the interconnected world in which they live. By weaving together stories, analysis, interpretation, visual imagery, and primary sources from across time and place, this book presents a revised history that reflects America's -- and Americans' -- relationship to events and peoples across the continent and beyond. With a Few Other Poems Oxford University Press

Although the Enlightenment is often associated with the emergence of human rights and humanitarian sensibility, "humanity" is an elusive category in the literary, philosophical, scientific, and political writings of the period. *Fiction Without Humanity* offers a literary history of late seventeenth- and early eighteenth-century efforts to define the human. Focusing on the shifting terms in which human difference from animals, things, and machines was expressed, Lynn Festa argues that writers and artists treated humanity as an indefinite class, which needed to be called into being through literature and the arts.

Drawing on an array of literary, scientific, artistic, and philosophical devices—the riddle, the fable, the microscope, the novel, and trompe l'oeil and still-life painting—*Fiction Without Humanity* focuses on experiments with the perspectives of nonhuman creatures and inanimate things. Rather than deriving species membership from sympathetic identification or likeness to a fixed template, early Enlightenment writers and artists grounded humanity in the enactment of capacities (reason, speech, educability) that distinguish humans from other creatures, generating a performative model of humanity capacious enough to accommodate broader claims to human rights. In addressing genres typically excluded from canonical literary histories, *Fiction Without Humanity* offers an alternative account of the rise of the novel, showing how these early experiments with nonhuman perspectives helped generate novelistic techniques for the representation of consciousness. By placing the novel in a genealogy that embraces paintings, riddles, scientific plates, and fables, Festa shows realism to issue less from mimetic exactitude than from the tailoring of the represented world to a distinctively human point of view.

Hummingbird House Amer Psychological Assn

The *MLA Style Manual* has been the standard guide for graduate students, teachers, and scholars in the humanities and for professional writers in many fields. The second edition contains several added

sections and updated guidelines on citing electronic works -- including materials found on the World Wide Web. There is an expanded chapter on the publication process, from manuscript to published work, and advice for those seeking to publish their articles or books. A chapter by the attorney Arthur F. Abelman reviews legal issues, such as copyright law, the concept of fair use, the provisions of a typical publishing contract, defamation, and the emergence of privacy law. Other chapters discuss stylistic conventions and the preparation of manuscripts, theses, and dissertations and offer an authoritative and comprehensive presentation of MLA documentation style.

Beowulf Modern Language Assn of Amer
The Elements of Style William Strunk
concentrated on specific questions of usage—and the cultivation of good writing—with the recommendation "Make every word tell"; hence the 17th principle of composition is the simple instruction: "Omit needless words." The book was also listed as one of the 100 best and most influential books written in English since 1923 by Time in its 2011 list.

A memoir done in the form of a graphic novel by a cult favorite comic artist offers a darkly funny family portrait that details her relationship with her father--a funeral home director, high school English teacher, and closeted homosexual.

Publication Manual of the American Psychological Association Hassell Street Press

Based on Wardle and Downs' research, the first edition of *Writing about Writing* marked a milestone in the field of composition. By showing students how to draw on what they know in order to contribute to ongoing conversations about writing and literacy, it helped them transfer their writing-related skills from first-year composition to other courses and contexts. Now used by tens of thousands of students, *Writing*

about Writing presents accessible writing studies research by authors such as Mike Rose, Deborah Brandt, John Swales, and Nancy Sommers, together with popular texts by authors such as Malcolm X and Anne Lamott, and texts from student writers. Throughout the book, friendly explanations and scaffolded activities and questions help students connect to readings and develop knowledge about writing that they can use at work, in their everyday lives, and in college. The new edition builds on this success and refines the approach to make it even more teachable. The second edition includes more help for understanding the rhetorical situation and an exciting new chapter on multimodal composing. The print text is now integrated with e-Pages for *Writing about Writing*, designed to take advantage of what the Web can do. The conversation on writing about writing continues on the authors' blog, *Write On: Notes on Writing about Writing* (a channel on Bedford Bits, the Bedford/St. Martin's blog for teachers of writing).
