woman's role in prayer seems to have been all but obliterated. Yet Jewish women have always prayed and, before prayer became standardized into a formal liturgy, Israelite women offered up spontaneous petitions and hymns to God as freely as did men. While they may not have been able to help constitute a minyan, and while many did not know Hebrew or Aramaic, women emerged in the produced and world of premodern Ashkenazic Jewry and represent one of the richest and least-known forms of Jewish religious literature. Because modern sensibility seemed to reject them, and because Yiddish was quickly forgotten by second and third generation Jews in the West, they have been sadly neglected.

Alice Walker sets out to define the concept in this anthology of early essays and other nonfiction pieces. As she outlines it, a womanist is a person who prefers to side with the oppressed: with women, with people of color, with the poor. As a writer, Walker has always taken such people as her primary subjects, and her search for paths toward self-possession and freedom always holds out hope for the transformative power

of compassion and love. Whether she's taking on nuclear proliferation, the promise and problems of the civil rights movement, or her own creative process, Walker always brings to bear a fearless determination to tell the truth. This ebook features an illustrated biography of Alice Walker including rare photos from the author's personal collection.

"Tubbs'

connection to these women is palpable on the page — as both a mother and a scholar of the impact Black

motherhood has had on America. Through Tubbs' writing, Berdis, Alberta, and Louise's stories sing. Theirs is a history forgotten that begs to be told, and Tubbs tells it brilliantly." —Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* and National Book Award winner *Stamped from the Beginning*. Much has been written about Berdis Baldwin's son James, about Alberta King's son Martin Luther, and Louise Little's son Malcolm. But virtually nothing has been said

about the extraordinary women who raised them. In her groundbreaking and essential debut *The Three Mothers*, scholar Anna Malaika Tubbs celebrates Black motherhood by telling the story of the three women who raised and shaped some of America's most pivotal heroes. These three extraordinary women passed their knowledge to their children with the hope of helping them to survive in a society that would deny their humanity from the very beginning—from Louise teaching her children about their activist roots, to Berdis encouraging James to express himself through	writing, to Alberta basing all of her lessons in faith and social justice. These women used their strength and motherhood to push their children toward greatness, all with a conviction that every human being deserves dignity and respect despite the rampant discrimination they faced. These three mothers taught resistance and a fundamental belief in the worth of Black people to their sons, even when these beliefs flew in the face of America's racist practices and led to ramifications for all three families'

safety. The fight for equal justice and dignity came above all else for the three mothers. These women, their similarities and differences, as individuals and as mothers, represent a piece of history left untold and a celebration of Black motherhood long overdue.

Simard describes up close—in revealing and accessible ways—how trees, living side by side for hundreds of years, have evolved; how they perceive	one another, learn and adapt their behaviors, recognize neighbors, and remember the past; how they have agency about their future; how they elicit warnings and mount defenses, compete and cooperate with one another with sophistication: characteristics previously ascribed to human intelligence, traits that are the essence of civil societies. Circle is the first anthology to present the entire spectrum of twentieth-century African American literary and cultural criticism. It begins with the Harlem Renaissance, continues through civil rights, the Black Arts Movement, and on into contemporary debates of post structuralist and black feminist theory. Drawing on a quote from Frederick Douglass for	the title of this book, Angelyn Mitchell explains in her introduction the importance for those "within the circle" of African American literature to examine their own works and to engage this critical canon. The essays in this collection-- many of which are not widely available today--either initiated or gave critical definition to specific periods or movements of African American	literature. They address issues such as integration, separatism, political action, black nationalism, Afrocentricity, black feminism, as well as the role of art, the artist, the critic, and the audience. With selections from Langston Hughes, Sterling Brown, W. E. B. DuBois, Zora Neale Hurston, Richard Wright, James Baldwin, Toni Morrison, Barbara Smith, Alice Walker, Henry Louis

Camila is twenty-two years old and a new mother. She has no family to rely on, no partner, and no home. Despite her intelligence and determination, the odds are firmly stacked against her. In this extraordinary work of literary reportage, Lauren Sandler chronicles a year in Camila’s life—from the birth of her son to his first birthday—as she

navigates the labyrinth of poverty and homelessness in New York City. In her attempts to secure a safe place to raise her son and find a measure of freedom in her life, Camila copes with dashed dreams, failed relationships, the desolation of abandonment, and miles of red tape with grit, humor, and uncanny resilience. Every day, more than forty-five million

Americans attempt to survive below the poverty line. Every night, nearly sixty thousand people sleep in New York City-run shelters, 40 percent of them children. In *This Is All I Got*, Sandler brings this deeply personal issue to life, vividly depicting one woman's hope and despair and her steadfast determination to change her life despite the myriad setbacks she encounters.

This Is All I Got is a rare feat of reporting and a dramatic story of survival. Sandler's candid and revealing account also exposes the murky boundaries between a journalist and her subject when it becomes impossible to remain a dispassionate observer. Our Mothers' War Haymarket Books Talk to women under forty today, and you will hear that in spite of the fact that they have achieved goals

previous generations of women could only dream of, they nonetheless feel more confused and insecure than ever. What has gone wrong? What can be done to set it right? These are the questions Danielle Crittenden answers in What Our Mothers Didn't Tell Us. She examines the foremost issues in women's lives -- sex, marriage, motherhood, work, aging, and politics -- and argues that a generation of women has been

misled: taught to blame men and pursue independence at all costs. Happiness is obtainable, Crittenden says, but only if women will free their minds from outdated feminist attitudes. By drawing on her own experience and a decade of research and analysis of modern female life, Crittenden passionately and engagingly tackles the myths that keep women from realizing the happiness they deserve. And she introduces a

new way of thinking about society's problems that may, at long last, help women achieve the lives they desire.
