### Mr. Nick's Knitting Penguin

Professor Stanley Feldman decided to write his memoirs when, in 2008, he was pronounced dead. Fortunately, however, this was not by one of his fellow doctors but instead by an Australian medical journal - prompting much shock the next time he visited his friends down under! He has been a doctor with the NHS for over 60 years now, and has presided over the transition of medicine into the modern world. His career has seen both the sublime and the ridiculous; Stanley has worked with some of the greatest doctors in the world on pioneering new heart surgeries that have changed medicine forever - and he has been the guinea pig for experiments that have ended in temporary paralysis! Stanley's career is a microcosm of the developments of the medical system in the UK over the last 60 years - from the birth of the NHS onwards - and he has obtained many hilarious anecdotes along the way, all of which can be found in *Confessions of a Doctor*

### I Wasn't Strong Like This When I Started Out: True Stories of Becoming a Nurse Hodder & Stoughton

For two years, Michael Foxtan wrote about his experiences as a junior doctor in the NHS for the Guardian. Vivid, hilarious, and often alarming, his book has gone on to find a cult following among doctors and patients alike. His observations illuminate the quirks, horrors, and delights of all aspects of doctoring, from casualty to the psychiatric ward. Foxtan tells us what it really feels like to be on call 24 hours a day, seven days a week, and introduces us to a mixed cast of patient that includes the rude, the violent, and the outrageously flirtatious. *Bedside Stories* has become a comic classic.

*Snow Ponies* Astra Publishing House

The celebrity cosmetic surgery blogger describes his misfit youth as a nerdy Korean-American student with a misshapen jaw whose life-changing surgery led him to become a successful plastic surgeon.

*Confessions of a Doctor* Library of Alexandria

The beautifully illustrated tale of Betsy K. Glory, the daughter of a mermaid and an ice cream maker, embarking on a whimsical adventure with a talking tiger and his band of tiny acrobats, is now available in paperback and printed in a dyslexia-friendly font. From a magical world of well-dressed animals, talking toads, and bossy princesses comes a timeless story about Mr. Tiger and his troupe of acrobats, and Betsy K. Glory, the daughter of a mermaid and an ice cream maker. Together they must figure out how to turn the moon blue, appease a grumpy giant, and make the best-tasting and rarest ice cream in the world--Gongalong Berry Ice Cream. Told with beautiful one-color illustrations throughout, this modern fairy tale teaches us that happiness is sometimes big enough to solve even the toughest problems.

The junior doctor . . . back on the wards. After a year on the streets treating outreach patients, Max Pemberton is back in the relative comfort of hospital. This time running between elderly care and the dementia clinic to A&E and outpatients. No longer inexperienced (Max and his doctor friends can now tell when someone is actually dead), they are on the front line of patient care for better or worse. In the midst of an NHS still under threat (some things never change) there are committed and caring doctors, big issues, hope, frustration, huge societal changes affecting the entire health system as well as the general drama of everyday life in a big hospital, from biscuit wars to resus. It's not like television, this is real - there are no easy answers - but *The Doctor Will See You Now* will give you hope that there are enough good doctors asking the questions.

*White Trash* Zombie Gone Wild Profile Books

Kid genius Kevin Brewer and his friends must defend Earth from an invasion of vengeful aliens in the second installment of John Kloefer's hilarious illustrated middle grade series *Galaxy's Most Wanted*, a perfect fit for reluctant readers. With a full-blown intergalactic war brewing, Kevin and his science-camp friends must battle two of the nastiest aliens this side of the Milky Way. It would take a genius to outsmart these extraterrestrial criminals. Lucky for Earth, Kevin and his friends are space-age masterminds.

### Breakfast at Sally's Macmillan

An exhilarating insight into the life of a doctor at Heathrow Airport, where the truth is often stranger than fiction. For over a decade, Stephanie Green was a doctor on-call for one of the world's busiest airports, confronting dramatic, bizarre and sometimes heart-breaking situations. During her 24-hour shifts at Heathrow, Dr Green had to be ready for anything: from finding an abandoned suitcase leaking blood onto the carousel, to discovering a man smuggling heroin in a corset. It's a job that brought her into contact with all walks of life; her patients included drug mules and fugitives, schizophrenics and stowaways, refugees and tourists. And with the threats of a nerve agent poisoning or a Level Four viral epidemic always in the back of her mind, Dr Green found herself on the frontline where the decisions are made about who - or what - was allowed to leave the airport's borders. *THE HEATHROW DOCTOR* reveals the thrilling drama that takes place behind-the-scenes of an airport and what is needed to make critical decisions in this hidden no-man's land of geopolitics, terror, tragedy and medicine. \*Previously published as 'Flight Risk'.

From the man with a device lodged far inside his body whose batteries refuse to run out to a woman with a plunger super-glued to her vagina, *In Rude Health* recounts real life tales from the coal face of the NHS. From doctors, nurses, physiotherapists, psychiatrists and dentists come a range of eye-popping, side-splitting acts of misadventure that have had the medical profession weeping into their face masks as they attended to members of the great British public in their hour of need. From the publishers of UK Booksellers Association Top 5 Christmas book, 101 Uses of a Dead Kindle, *In Rude Health* is a riotous account of the weird, the warped and the whacky ways we end up in the hands of the medical profession.

*Your Life In My Hands - a Junior Doctor's Story* Lake Union Publishing

I am very much aware that it is an act of extreme rashness to attempt to write an elementary book about structures. Indeed it is only when the subject is stripped of its mathematics that one begins to realize how difficult it is to pin down and describe those structural concepts which are often called 'elementary'; by which I suppose we mean 'basic' or 'fundamental'. Some of the omissions and oversimplifications are intentional but no doubt some of them are due to my own brute ignorance and lack of understanding of the subject. Although this volume is more or less a sequel to *The New Science of Strong Materials* it can be read as an entirely separate book in its own right. For this reason a certain amount of repetition has been unavoidable in the earlier chapters. I have to thank a great many people for factual information, suggestions and for stimulating and sometimes heated discussions. Among the living, my colleagues at Reading University have been generous with help, notably Professor W. D. Biggs (Professor of Building Technology), Dr Richard Chaplin, Dr Giorgio Jeronimidis, Dr Julian Vincent and Dr Henry Blyth; Professor Anthony Flew, Professor of Philosophy, made useful suggestions about the last chapter. I am also grateful to Mr John Bartlett, Consultant Neurosurgeon at the Brook Hospital. Professor T. P. Hughes of the University of the West Indies has been helpful about rockets and many other things besides. My secretary, Mrs Jean Collins, was a great help in times of trouble. Mrs Nethercot of Vogue was kind to me about dressmaking. Mr Gerald Leach and also many of the editorial staff of Penguins have exercised their accustomed patience and helpfulness. Among the dead, I owe a great deal to Dr Mark Pryor - lately of Trinity College, Cambridge - especially for discussions about biomechanics which extended over a period of nearly thirty years. Lastly, for reasons which must surely be obvious, I owe a humble oblation to Herodotus, once a citizen of Halicarnassus.

*The Doctor Will See You Now* Atlantic Books (UK)

When an unseen enemy maneuvers the three Doctors into an impossible meeting, the future of the universe itself is put at stake. It will take all of the Doctor's innate cunning and adaptability to team up with his past and present selves to uncover the immensely powerful culprit, fix the time stream, and right an ancient wrong! What mysterious event from the Doctors' collective past will have an unforgettable effect on their future?! *Four Doctors* is the blockbuster next chapter in the stunning ongoing adventures of each Doctor - and also stars TV companion Clara Oswald alongside comic companions Gabby Gonzalez and Alice Obiefune. It's an unmissable crossover epic from two creators at the height of their craft!

'Treats a grim subject with warmth and self-deprecating good humour ... equally enlightening sequel' Daily Mail The sequel to the bestselling *Trust Me, I'm a (Junior) Doctor*. The junior doctor is back, but working on the streets for the Phoenix Outreach Project. Unfortunately, his first year in a hospital hasn't quite prepared him for it ... He's into his second year of medicine, but this time Max is out of the wards and onto the streets, working for the Phoenix Outreach Project. Fuelled by tea and more enthusiasm than experience, he attempts to locate and treat a wide and colourful range of patients that somehow his first year on the wards didn't prepare him for . . . from Molly the 80-year-old drugs mule and God in a Tesco car park, to middle-class mums addicted to appearances and pain killers in equal measure. His friends don't approve of the turn his career is taking, his mother is worried and the public spit at him, but Max is determined to make a difference. Despite warnings that miracles are rare, and that not everyone's life can be turned around, Max is still surprised by those that can be saved. Funny, touching and uplifting, Max goes from innocence to experience via dustbin-shopping-trips without ever losing his humanity.

*Galaxy's Most Wanted #2: Into the Dorkness* Springer Science & Business Media

When siblings Dan and Hayley Daley inherit their late grandmother's derelict Victorian farmhouse, it seems like a dream come true. All they have to do is fix the place up and sell it for a tidy profit! Except--as anyone who has renovated an old house knows--things are never that easy. The walls are rapidly crumbling around them, the architect is a certified lunatic, the budget is spiraling...and then there's the disturbingly intelligent cow to worry about. On top of all this, the renovation is being featured on a daytime reality TV show, and as soon as Great Locations presenter Gerard O'Keefe catches sight of Hayley's first-floor balcony, he's determined to woo her out of her ban on romance, whether she wants him to or not. Will Dan and Hayley survive and sell up? Or will the whole thing collapse on them like a ton of bricks? From bestselling author Nick Spalding comes a hilarious tale of life, love, and dodgy plumbing.

Kid genius Kevin Brewer and his friends are blasting off into space in the final installment of John Kloefer's hilarious illustrated middle grade series *Galaxy's Most Wanted*, a perfect fit for reluctant readers. You'd think saving the universe not once but twice would buy you a little time off. Not so for Kevin Brewer and his science-camp buddies. They've just got word that their favorite comic book author, Max Grayson, is in terrible danger--and so is the universe! The kids have no choice but to head to outer space to save their hero and prevent a diabolic breed of aliens from annihilating their home galaxy.

*The Scottish Fairy Book* MDPI

This collection of true narratives reflects the dynamism and diversity of nurses, who provide the first vital line of patient care. Here, nurses remember their first "sticks," first births, and first deaths, and reflect on what gets them through long, demanding shifts, and keeps them in the profession. The stories reveal many voices from nurses at different stages of their careers: One nurse-in-training longs to be trusted with more "important" procedures, while another questions her ability to care for nursing home residents. An efficient young emergency room nurse finds his life and career irrevocably changed by a car accident. A nurse practitioner wonders whether she has violated professional boundaries in her care for a homeless man with AIDS, and a home care case manager is the sole attendee at a funeral for one of her patients. What connects these stories is the passion and strength of the writers, who struggle against burnout and bureaucracy to serve their patients with skill, empathy, and strength.

the wards, facing extraordinary and daunting moments: from attending her first post-mortem, sitting with a patient through their final moments, to learning the power of a well- or badly chosen word. These moments, and the small sustaining acts of kindness and connection that punctuate hospital life, teach her that emotional care and mental health can be just as critical as restoring a heartbeat. In a profession where weakness remains a taboo, this moving, beautifully written book brings to life the vivid, human stories of doctors and patients - and shows us why we need to take better care of those who care for us. Edward's Crochet Imaginarium Titan Books (US, CA)

A New York Times Bestseller "The Wild Truth is an important book on two fronts: It sets the record straight about a story that has touched thousands of readers, and it opens up a conversation about hideous domestic violence hidden behind a mask of prosperity and propriety." – NPR.org The spellbinding story of Chris McCandless, who gave away his savings, hitchhiked to Alaska, walked into the wilderness alone, and starved to death in 1992, fascinated not just New York Times bestselling author Jon Krakauer, but also the rest of the nation. Krakauer's book, Into the Wild, became an international bestseller, translated into thirty-one languages, and Sean Penn's inspirational film by the same name further skyrocketed Chris McCandless to global fame. But the real story of Chris' s life and his journey has not yet been told - until now. The missing pieces are finally revealed in The Wild Truth, written by Carine McCandless, Chris's beloved and trusted sister. Featured in both the book and film, Carine has wrestled for more than twenty years with the legacy of her brother's journey to self-discovery, and now tells her own story while filling in the blanks of his. Carine was Chris's best friend, the person with whom he had the closest bond, and who witnessed firsthand the dysfunctional and violent family dynamic that made Chris willing to embrace the harsh wilderness of Alaska. Growing up in the same troubled household, Carine speaks candidly about the deeper reality of life in the McCandless family. In the many years since the tragedy of Chris's death, Carine has searched for some kind of redemption. In this touching and deeply personal memoir, she reveals how she has learned that real redemption can only come from speaking the truth.
