1) A Consistent drop in profits. It has been statistically proved that one of the first signs of poor management is, of course, a drop in profits. Although both loss and profit is an integral part and parcel of an organization, a continuous decline in revenues can create panic, which is not good for any business.

In the Company of the Poor: Conversations with Dr. Paul ...

A general rule of thumb is that costs of poor quality in a thriving company will be about 10-15% of operations. Effective quality improvement programs can reduce this substantially, thus making a direct contribution to profits. The quality cost system, once established, should become dynamic and have a positive impact on the achievement of the ...
