THE ADVENTURE OF THE CARDBOARD BOX "The Adventure of the Cardboard Box" is one of the 56 short Sherlock Holmes stories written by British author Sir Arthur Conan Doyle. It is the second of the twelve Memoirs of Sherlock Holmes in most British editions of the canon, and the second of the eight stories from His Last Bow in most American versions. The story was first published in The Strand Magazine in 1892. Craving a classic mystery tale? You can't go wrong with Arthur Conan Doyle, a towering figure in the origination of the detective fiction genre. This short story features master detective Sherlock Holmes attempting to

pinpoint the origins of a mysterious and gory parcel. THE ADVENTURE OF THE RED CIRCLE "Well, Mrs. Warren, I cannot see that you have any particular cause for uneasiness, nor do I understand why I, whose time is of some value, should interfere in the matter. I really have Other things to engage me." So spoke Sherlock Holmes and turned back to the great scrapbook in which he was arranging and indexing some of his recent material. But the landlady had the pertinacity and also the cunning of her sex. She held her ground firmly. "You arranged an affair for a lodger of mine last year," she said--"Mr. Fairdale Hobbs." "Ah, yes--a simple matter. When you're in the mood for a classic Sherlock Holmes story, nothing else will do. In this

tightly plotted tale, the services of the famed super-sleuth are solicited by a distraught landlady. At her behest, Holmes and Watson investigate the case of a mysterious lodger who may not be what he appears to be.

THE HOUND OF THE BASKERVILLES The Hound of the Baskervilles is the third of the four crime novels written by Sir Arthur Conan Doyle featuring the detective Sherlock Holmes. Originally serialised in The Strand Magazine from August 1901 to April 1902, it is set largely on Dartmoor in Devon in England's West Country and tells the story of an attempted murder inspired by the legend of a fearsome, diabolical hound of supernatural origin. Sherlock Holmes and his companion Dr. Watson investigate the case. This was the first appearance of Holmes since his apparent death in "The Final Problem", and the success of The Hound of the Baskervilles led to the character's eventual revival. One of the most famous stories ever written, in 2003, the book was listed as number 128 of 200 on the BBC's The Big Read poll of the UK's "best-loved novel". In 1999, it was listed as the top Holmes novel, with a perfect rating from Sherlockian scholars of 100.

THE SIGN OF THE FOUR The Sign of the Four (1890), also called The Sign of Four, is the second novel featuring Sherlock Holmes written by Sir Arthur Conan Doyle. Doyle wrote four novels and 56 short stories featuring the fictional detective. Set in 1888, The Sign of the Four has a complex plot involving service in India, the Indian Mutiny of 1857,

a stolen treasure, and a secret pact among four convicts ("the Four" of the title) and two corrupt prison guards. It presents Holmes's drug habit and humanizes him in a way that had not been done in the preceding novel, *A Study in Scarlet* (1887). It also introduces Dr. Watson's future wife, Mary Morstan. According to Mary, in December 1878, her father had telegraphed her upon his safe return from India and requested her to meet him at the Langham Hotel in London. When Mary arrived at the hotel, she was told her father had gone out the previous night and not returned. Despite all efforts, no trace was ever found of him. Mary contacted her father's only friend who was in the same regiment and had since retired to England, one Major John Sholto, but he denied knowing her father had returned. The second puzzle is that she has received six pearls in the mail from an anonymous benefactor, one per year since 1882, after answering an anonymous newspaper query inquiring for her. With the last pearl she received a letter remarking that she has been wronged and asking for a meeting. Holmes takes the case and soon discovers that Major Sholto had died in 1882 and that within a short span of time Mary began to receive the pearls, implying a connection. The only clue Mary can give Holmes is a map of a fortress found in her father's desk with the names of Jonathan Small, Mahomet Singh, Abdullah Khan and Dost Akbar. **THE VALLEY OF FEAR** The Valley of Fear is the fourth and final Sherlock Holmes novel by Sir Arthur

Conan Doyle. It is loosely based on the Molly Maguires and Pinkerton agent James McParland. The story was first published in the Strand Magazine between September 1914 and May 1915. The first book edition was copyrighted in 1914, and it was first published by George H. Doran Company in New York on 27 February 1915, and illustrated by Arthur I. Keller. ' The greatest schemer of all time, the organizer of every devilry, the controlling brain of the underworld, a brain which might have made or marred the destiny of nations – that's the man! ' Summoned to a mysterious manor house by one of the henchmen of his arch nemesis, Professor Moriarty, Holmes and Watson find themselves confronted by the scene of a brutal murder. But the brilliant

Holmes soon reveals that there is much more to this case than first meets the eye... First published as a serialisation in The Strand Magazine between 1914 and 1915, this fourth and final Sherlock Holmes novel will delight fans of Conan Doyle ' s legendary detective and his faithful sidekick Watson. HIS LAST BOW "His Last Bow. The War Service of Sherlock Holmes", later titled "His Last Bow: An Epilogue of Sherlock Holmes", is one of 56 short stories about Sherlock Holmes written by Sir Arthur Conan Doyle. It was first published in September 1917 in The Strand Magazine and collected as the last of an anthology of eight stories titled His Last Bow: Some Reminiscences of Sherlock Holmes the following month. The narration is in the

third person, instead of the first-person narration usually provided by the character of Dr. Watson, and it is a spy story, rather than a detective mystery. Due to its portrayal of British and German spies on the eve of war, its publication during the First World War, and its patriotic themes, the story has been interpreted as a propaganda tool intended to boost morale for British readers. On the eve of World War I, a German agent awaits one last package containing valuable naval signals before he prepares to leave for Berlin. A London landlady has a mysterious tenant who is never seen to emerge from his room. A rich elderly woman disappears from her home. The highly confidential plans to build a submarine are missing though ten pages are found near the body of a naval clerk. These mysteries and many more are brought to the house on Baker Street where Sherlock Holmes resides. But no case is too tricky for the world's most famous sleuth and his incredible powers of deduction. 'His Last Bow', the title story of this collection, tells how Sherlock Holmes is brought out of retirement to help the Government fight the German threat at the approach of the First World War. The Prime Minister himself requests Holmes's services to hunt down the remarkable German agent, Von Bork. Several of the detective's earlier cases complete the volume, including 'Wisteria Lodge', 'The Bruce-Partington Plans', and 'The Disappearance of Lady Frances Carfax'. In 'The Dying Detective', Dr

Watson is horrified to discover Holmes at death's door from a mysterious tropical disease as his friend lays a trap for a murderer Short Stories for High School Why must we confine the reading of our children to the older literary classics? This is the question asked by an ever-increasing number of thoughtful teachers. They have no wish to displace or to discredit the classics. On the contrary, they love and revere them. But they do wish to give their pupils something additional, something that pulses with the present life, that is characteristic of today. The children, too, wonder that, with the great literary outpouring going on about them, they must always fill their cups from the cisterns of the past. The short story is specially adapted to

supplement our high-school reading. It is of a piece with our varied, hurried, efficient American life, wherein figure the business man ' s lunch, the dictagraph, the telegraph, the telephone, the automobile, and the railway " limited. " It has achieved high art, yet conforms to the modern demand that our literature—since it must be read with despatch if read at all—be compact and compelling. Moreover, the short story is with us in almost overwhelming numbers and is probably here to stay. Indeed, our boys and girls are somewhat appalled at the quantity of material from which they must select their reading, and welcome any instruction that enables them to know the good from the bad. It is certain, therefore, that, whatever else they may throw into the educational

discard when they leave the high school, they will keep and use anything they may have learned about this form of literature which has become so powerful a factor in our daily life. This book does not attempt to select the greatest stories of the time. What tribunal would dare make such a choice? Nor does it attempt to trace the evolution of the short story or to point out natural types and differences. These topics are better suited to college classes. Its object is threefold: to supply interesting reading belonging to the student ' s own time, to help him to see that there is no divorce between classic and modern literature, and, by offering him material structurally good and typical of the qualities represented, to assist him in discriminating between the artistic and the inartistic. The stories have been carefully selected, because in the period of adolescence “ nothing read fails to leave its mark ” ; they have also been carefully arranged with a view to the needs of the adolescent boy and girl. Stories of the type loved by primitive man, and therefore easily approached and understood, have been placed first. Those which appeared in periods of higher development follow, roughly in the order of their increasing difficulty. It is hoped, moreover, that this arrangement will help the student to understand and appreciate the development of the story. He begins with the simple tale of adventure and the simple story of character. As he advances he sees the story develop in the plot, in character analysis,

and in setting, until he ends with the psychological study of Markheim, remarkable for its complexity of motives and its great spiritual problem. Both the selection and the arrangement have been made with this further purpose in view— “ to keep the heart warm, reinforcing all its good motives, performing choices, universalizing sympathies. ” It is a pleasure to acknowledge, in this connection, the suggestions and the criticism of Mr. William N. Otto, Head of the Department of English in Shortridge High School, Indianapolis; and the courtesies of the publishers who have permitted the use of their material. The White Company One of Arthur Conan Doyle's lesser known works, The White Company is a historical novel that is set during the Hundred Years War - a series of conflicts in the 14th and 15th centuries between the House of Plantaganet and the House of Valois. The novel in particular tells of Edward, the Black Prince and his attempts to restore Peter of Castille to his throne. The name of the book comes from a group of archers (The White Company) and is taken from an actual group of mercenaries from the 14th century. The book is supposed to be read alongside Doyle's Sir Nigel, about a knight (based on Sir Neil Loring) - and this character also features in this book. As well as many fictional characters, The White Company includes some real life historical figures, such as John of Gaunt, Edward III, Thomas Percy, and Henry II of Castille. Doyle regarded this novel, as well as his

other historical ones, higher than he did his books about Sherlock Holmes, and it was popular up until the time of WWII. He wrote the book after attending a lecture about the Middle Ages, and after much research, it was first serialised in Cornhill Magazine. The Coming of the Fairies Best remembered for his creation of Sherlock Holmes, the world's first consulting detective and a dedicated adherent to logic, Sir Arthur Conan Doyle in later life became fascinated by the occult. The Adventure of the Bruce-Partington Plans A thick smog has fallen over London. Mycroft comes to visit his brother Sherlock Holmes, asking for his help. A ten-page secret document has gone missing and three pages have just been found... in the pocket of Arthur Cadogan West's lifeless body. He was discovered near Aldgate tube station with his head smashed in and with only a little money, the confidential pages, and theatre tickets on him. Strangely, he had no Underground ticket. The document is a construction plan for the Bruce-Partington submarine and it is feared that the document may fall into enemy hands. "The Adventure of the Bruce-Partington Plans" is part of "His Last Bow". A Study in Scarlet A Study in Scarlet is an 1887 detective novel written by Arthur Conan Doyle. The story marks the first appearance of Sherlock Holmes and Dr. Watson, who would become the most famous detective duo in literature. The book's title derives from a speech given by Holmes, a consulting detective, to his friend

and chronicler Watson on the nature of his work, in which he describes the story's murder investigation as his "study in scarlet": "There's the scarlet thread of murder running through the colourless skein of life, and our duty is to unravel it, and isolate it, and expose every inch of it." The story, and its main characters, attracted little public interest when it first appeared. Only 11 complete copies of the magazine in which the story first appeared, Beeton's Christmas Annual for 1887, are known to exist now and they have considerable value. Although Conan Doyle wrote 56 short stories featuring Holmes, *A Study in Scarlet* is one of only four full-length novels in the original canon. The novel was followed by *The Sign of the Four*, published in 1890. *A Study in Scarlet* was the first work of detective fiction to incorporate the magnifying glass as an investigative tool. *Tales of Terror and Mystery* A collection of short stories that don't feature Doyle's most famous creation, Sherlock Holmes. Stories include: *The Horror Of The Heights*; *The Leather Funnel*; *The New Catacomb*; *The Case Of Lady Sannox*; *The Terror Of Blue John Gap*; *The Brazilian Cat*; *The Lost Special*; *The Beetle-Hunter*; *The Man With The Watches*; *The Japanned Box*; *The Black Doctor*; and, *The Jew's Breastplate*. This volume presents some of Conan Doyle's unduly neglected masterworks. Each begins in a quietly factual way, making all the more dramatic the crescendo of fear and puzzlement that ensues as each new

circumstance is revealed. Even without his supremely logical brain child, Sherlock Holmes, Conan Doyle shows that his tales are unbeatable for thrills and excitement. **The Parasite** *The Parasite* is about a young man known as Austin Gilroy, who studies physiology and knows a professor who is studying the occult. The young man is introduced to a middle-aged woman known as Miss Penclosa, who has a crippled leg and psychic powers. And some other stuff happens. **The Disintegration Machine** *The Disintegration Machine* is the last story in the *Professor Challenger* series. It was first published in *Strand Magazine* in January 1929. The story centers around the discovery of a machine capable of disintegrating objects and reforming them as

they were. **The Memoirs of Sherlock Holmes** *The memoirs of Sherlock Holmes* see Sherlock Holmes and his friend, Dr. Watson, pursuing the strangest of cases across Britain once again. This edition boasts of stories where Holmes deals with challenges that defy the understanding of most people. Conan Doyle ' s genius shines through as he spins tales and shapes them around the extraordinary ability of Holmes. The bizarre cases that Holmes takes up are fascinating, for they fall beyond the mundane. Indulge children in this volume of stories that have enthralled readers over generations. Sherlock Holmes and Dr. Watson have once again taken up some of the most intriguing cases. Join them as they investigate disappearances, violent murders,

and burglary and solve the mystery of a strange yellow-faced figure and an unusual business agreement. A collection of eleven short stories, *The Memoirs of Sherlock Holmes* introduces Mycroft, Holmes' elder brother, in 'The Adventure of the Greek Interpreter,' and Professor James Moriarty, the criminal mastermind and Holmes' archenemy, in 'The Adventure of the Final Problem.' The stories continue to thrill their readers.

THE ADVENTURES OF SHERLOCK HOLMES

The Adventures of Sherlock Holmes is a collection of twelve short stories by Arthur Conan Doyle, first published on 14 October 1892. It contains the earliest short stories featuring the consulting detective Sherlock Holmes, which had been

published in twelve monthly issues of *The Strand Magazine* from July 1891 to June 1892. The stories are collected in the same sequence, which is not supported by any fictional chronology. The only characters common to all twelve are Holmes and Dr. Watson and all are related in the first-person narrative from Watson's point of view. In general, the stories in *The Adventures of Sherlock Holmes* identify and try to correct social injustices. Holmes is portrayed as offering a new, fairer sense of justice. The stories were well received, and boosted the subscriptions figures of *The Strand Magazine*, prompting Doyle to be able to demand more money for his next set of stories. The first story, "A Scandal in Bohemia", includes the character of Irene

Adler, who, despite being featured only within this one story by Doyle, is a prominent character in modern Sherlock Holmes adaptations, generally as a love interest for Holmes. Doyle included four of the twelve stories from this collection in his twelve favourite Sherlock Holmes stories, picking "The Adventure of the Speckled Band" as his overall favourite. The Casebook of Sherlock Holmes The Case-Book of Sherlock Holmes is the final set of twelve Sherlock Holmes short stories (56 total) by Arthur Conan Doyle first published in the Strand Magazine between October 1921 and April 1927. It includes 12 stories: The Adventure Of The Mazarin Stone; The Problem Of Thor Bridge; The Adventure Of The Creeping Man; The Adventure Of

The Sussex Vampire; The Adventure Of The Three Garridebs; The Adventure Of The Illustrious Client; The Adventure Of The Blanched Soldier; The Adventure Of The Retired Colourman; The Adventure Of The Three Gables; The Adventure Of The Lion's Mane; The Adventure Of The Veiled Lodger; and, The Adventure Of Shoscombe Old Place (the last Sherlock Holmes story written by Arthur Conan Doyle to be published). The Return of Sherlock Holmes Thirteen classic Sherlock Holmes mysteries, complete and unabridged, in a newly packaged electronic edition - featuring full-page illustrations by Frederic Dorr Steele (the premiere American illustrator of the Sherlock Holmes stories) and a ten page introduction by Andrew Malec. Steele's

illustrations - modelled upon the features of William Gillette - add colour and spice to Doyle's tales. Witness Holmes' dramatic return; observe the downfall of Milverton, 'king of blackmailers'; and crack the cryptic message of the Dancing Men - all the while, allowing Steele's beautiful and thoughtful illustrations to bring your imagination to life. The Return of Sherlock Holmes is a collection of 13 stories. This was the first collection since 1893, when Holmes had died in The Final Problem. Having published The Hound of the Baskervilles, Doyle came under intense pressure to revive his famous character. The first story is set in 1894 and has Holmes returning in London and explaining the period from 1891 – 94, a period called 'The Great Hiatus' by

Sherlockian enthusiasts. Also of note is Watson's statement in the last story of the cycle that Holmes has retired, and forbids him to publish any more stories.

The White Company is a historical adventure by Arthur Conan Doyle set during the Hundred Years' War. The story is set in England, France, and Spain, in the years 1366 and 1367, against the background of the campaign of Edward, the Black Prince to restore Peter of Castile to the throne of the Kingdom of Castile. The climax of the book occurs before the Battle of N á jera. Doyle became inspired to write the novel after attending a lecture on the Middle Ages in 1889. After extensive research, The White Company

was published in serialized form in 1891 in Cornhill Magazine. Additionally, the book is considered a companion to Doyle's later work *Sir Nigel*, which explores the early campaigns of Sir Nigel Loring and Samkin Aylward. The novel is relatively unknown today, though it was very popular up through the Second World War. In fact, Doyle himself regarded this and his other historical novels more highly than the Sherlock Holmes adventures for which he is mainly remembered. The "White Company" of the title is a free company of archers, led by one of the main characters. The name is taken from a real-life 14th-Century Italian mercenary company, led by John Hawkwood.

The Adventure of Abbey Grange Stanley Hopkins returns again and gets Holmes and Watson to help him out on a home invasion/murder case. A woman named Mary Frasier, wife of Sir Eustace Brackenstall, witnessed her husband's murder. She says a gang of men broke into their home, killed her husband, tied her up, and stole some silver dishes. It all seems like a clear-cut case, but Holmes's gut tells him otherwise. After some digging he realizes Mary Frasier is lying and confronts her with evidence that a man

named Jack Crocker was involved. Jack confesses all. Turns out Sir Eustace was an abusive husband and that Jack and Mary were really in love. Jack came to see Mary and was confronted by Sir Eustace, whom he killed in self-defense. Afterwards, Jack, Mary, and her maid Theresa covered up the crime. Holmes agrees that Jack was justified and lets him go without reporting it to the police. The Adventure of the Second Stain Watson and Holmes are hired by the Prime Minister, Lord Bellinger, and the European Secretary, Trelawney Hope, to help recover a stolen political document. If the document gets into the wrong hands, it could spark a war. Holmes and Watson track the document to a spy named Eduardo Lucas, who has recently been murdered by his wife, who actually was married to one of his assumed identities. After some digging, Holmes realizes that Trelawney Hope's wife has the letter. She was being blackmailed and delivered the letter to Eduardo, not realizing the trouble she

would cause. After his murder she stole the letter back. Holmes quickly puts it back where it belongs, and the crisis is averted. About the Author: Arthur Conan Doyle was born on 22 May 1859 in Edinburgh into a prosperous Irish family. He trained as a doctor, gaining his degree from Edinburgh University in 1881. He worked as a surgeon on a whaling boat and also as a medical officer on a steamer travelling between Liverpool and West Africa. He then settled in Portsmouth on the English south coast and divided his time between medicine and writing. Sherlock Holmes made his first appearance in 'A Study of Scarlet', published in 'Beeton's Christmas Annual' in 1887. Its success encouraged Conan Doyle to write more stories involving Holmes but, in 1893, Conan Doyle killed off Holmes, hoping to concentrate on more serious writing. A public outcry later made him resurrect Holmes. In addition, Conan Doyle wrote a number of other novels, including 'The Lost World' and various non-fictional works.

These included a pamphlet justifying Britain's involvement in the Boer War, for which he was knighted and histories of the Boer War and World War One, in which his son, brother and two of his nephews were killed. Conan Doyle also twice ran unsuccessfully for parliament. In later life he became very interested in spiritualism. Memoirs of Sherlock Holme 16. The adventures of Sherlock Holmes 17. The Casebook of Sherlock Holmes 18. The Return of Sherlock Holmes Book Summary: The Case Book of Sherlock Holmes has twelve stories of the adventures of Holmes and Watson, mostly in their later years. The stories were published in different magazines at different times and were later compiled in the The Case-Book of Sherlock Holmes in 1927. The Adventure of the Mazarin Stone Watson is shown in Holmes's quarters by Billy, a young help. They discuss Holmes' new case of finding the Mazarin stone and the two men who may have possibly stolen it, Count Sylvius and Sam Merton. Count Sylvious is clever and cunning, while Sam is just the loyal muscle-man. Holmes fears that the two might be planning to kill him by shooting him thorough his window and so has a very life-likemwax effigy of him installed in his window. Holmes comes and updates Watson on the new facts of the case. Billy, soon after, comes and informs of Count Sylvius requesting a visit. Holmes and Watson hide in the bedroom as Count is shown into the living room. Holmes gives a note to the Watson with

instructions for Scotland Yard and asks him to leave immediately. The count tries to strike on the effigy misunderstanding it to be Holmes when Holmes goes out to meet him. Holmes informs the count of his knowledge about his criminal activities and the witnesses he has, who will implicate the Count. He asks them to surrender the stone or be arrested. He also calls Sam Merton and ask the two men to discuss their situation. Once he leaves, the two men decide to give a false confession to Holmes while deciding to smuggle the diamond, which was in the pocket of the count at the moment, to Amsterdam. Holmes, who had been hiding in the plain sight by impersonating the effigy, catches them red-handed and hands them to the waiting police. Lord Cantlemere comes soon after and Holmes pranks him by placing the diamond in the pocket of a sceptical Lord Cantlemere. Lord Cantlemere is joyous and leaves with the prize. The Problem of the Thor Bridge Holmes is engaged by a Neil Gibson, the Gold King, a ruthless businessman popular for his violent and aggressive nature, for acqutting his governess Miss Grace Dunbar from

the charge of murder of his wife. The wife was found dead at the mouth of the Thor bridge with a bullet shot to her head, and a revolver was found upon investigation in the wardrobe of the governess. The manager of the client comes before the client himself and describes Gibson' violent ways. Holmes successfully deduces of an infatuation between the businessman and the governess and chides him for his lust. The businessman confesses of having feelings for the Dunbar, as he had nothing in common with his wife whom he married in an impulse for her sheer beauty,

but mentions that Dunbar was against an illicit relationship and only helped him be a bit more humane. He also suspects that the murder was an accident as his wife was mentally unstable. Holmes reaches Winchester and examines the murder scene, he notices a chip in the firm and strong parapet. He also learns of a note by Dunbar clutched by the deceased, which he finds suspicious. He meets Dunbar and learns of the wife's jealousy. She asked Dunbar, in a note which she asked to be burned, to come to Thor Bridge. Dunbar replies via a note, which was later

recovered fromt the wife. When she goes to meet her, the wife retaliates with curses and Dunbar rushes back. The next morning, the wife is found dead. On the way back, Holmes asks for Watson's revolver and uses a stone to weigh it down while holding it. When he drops the revolver, it is sucked into the lake a chip is formed on the parapet. Holmes surmises that the wife committed suicide in the same manner to implicate Dunbar, and used a copy of the revolver as a murder weapon shich she had placed earlier in the day in her wardrobe. The Adventure of the Creeping Man

Watson is called upon by Holmes, and he is somewhat annoyed at this. When he reaches Holmes, he founds him deep in thought over a case. His client, Mr. Bennet, comes and explains the condition of his future father-in-law Professor Pressbury, to whom he is also the seceratary. The professor is a man of sharp wit and a good reputation. However, he fell in love with a much younger girl who won't accept his proposal given his age. The professor then disappears on a foreign journey, to Prague which his household learns through some other source. The professor gets mysterious after this

journey. Robert Ferguson married for the second time to a beautiful Peruvian woman, who seemed to have taken a dislike to his son by first wife, Jack, who is also a cripple, and has assaulted him twice. She has also been witnessed to suck blood from her baby of a few months by the baby's governess. After Ferguson catches her in the act, she confines to her rooms and Ferguson seeks Holmes' help. He comes with them to Lemberley and finds Jack over-attached to his father. He also observes a physical ailment in the dog which he is informed appeared lately. Watson attends the wife after her faithful maid complains of her mistress' ailment and finds the wife in throes of delirium out of anxiety. Holmes examines the baby's wounds while Jack is present in the room and notices the look of loathing on Jack's face. He writes his deductions and sends them to the wife who then agrees to see them. Holmes breaks in front of them that Jack had been poisoning the baby, which he tested on the dog previously which led to it's paralysis, out of jealousy. The

act on the part of the wife was meant to suck poison out of the baby's body. Holmes leaves the couple to sort their differences after suggesting a long voyage for Jack. The Adventure of the Three Garridebs Watson is informed by Holmes of a fortune if he can find a man with the name of Garrideb. Watson finds one Nathan Garrideb in the phone book, while another one, John Garrideb visits them and is annoyed of their involvement in his matters. He informs them of an american Alexander Garrideb, with a large fortune and no heirs, had divided his property in three parts and would give each part only to a Garrideb, given that all three are present. Nathan involves Holmes in hopes to find the third Garrideb. When John leaves, Holmes tells Watson that his story is false and they visit Nathan who is devoted to his personal museum of strange artifacts of all kinds. John comes suddenly and informs Nathan of the existence of a Howard Garrideb and asks him to meet Howard. Holmes deduces that John is lying but lets Nathan go anyway. He does some research and gets to know that a forger Prescott used to live in Nathan's apartment before being

shot by Killer Evans who has been disguising himself as John Garrideb. Holmes and Watson wait for Evans in Nathan's apartment after Nathan leaves and discover Evans arriving and opening a gap in the floor. The three men have an altercation in which Watson is slightly injured and it is discovered that Prescott's machinery and counterfeit notes were under Nathan's apartment..... Sherlock Holmes Among the Pirates

In the Company of Sherlock Holmes

In a stunning follow-up to the acclaimed *In the Company of Sherlock Holmes*, Laurie R. King and Leslie S. Klinger present a brand-new anthology of stories inspired by the Arthur Conan Doyle canon. In this follow-up to the acclaimed *In the Company of Sherlock Holmes*, expert Sherlockians Laurie King and Les Klinger put forth the question: What happens when great writers/creators who are not known as Sherlock Holmes devotees admit to being inspired by Conan Doyle stories? While some are highly-regarded mystery writers, others

are best known for their work in the fields of fantasy or science fiction. All of these talented authors, however, share a great admiration for Arthur Conan Doyle and his greatest creations, Sherlock Holmes and Dr. Watson. To the editors' great delight, these stories go in many directions. Some explore the spirit of Holmes himself; others tell of detectives themselves inspired by Holmes's adventures or methods. A young boy becomes a detective; a young woman sharpens her investigative skills; an aging actress and a housemaid each find that they have unexpected talents. Other characters from the Holmes stories are explored, and even non-Holmesian tales by Conan Doyle are echoed. The variations

are endless! Although not a formal collection of new Sherlock Holmes stories—however some do fit that mold—instead these writers were asked to be inspired by the Conan Doyle canon. The results are breathtaking, for fans of Holmes and Watson as well as readers new to Doyle's writing—indeed, for all readers who love exceptional storytelling.
