Behind the *Crimson Blind* Fawcett Long ago the world fell into twilight, when the great empires of old consumed each other in sorcerous cataclysms. In the south the *Star Towers* fell, swallowed by the

sea, while the black glaciers descended upon the northern holdfasts, entombing the cities of Min-Ceruth in ice and sorcery. Then from the ancient empire of Menekar the paladins of Ama came, putting every surviving sorcerer to the sword and cleansing their taint from the land for the radiant glory of their lord. The pulse of magic slowed, fading like the heartbeat of a dying man. But after a thousand years it has begun to quicken again. In a small fishing village a boy with strange powers

Only yesterday boys

and girls spoke of embracing and kissing (necking) as getting to first base. Second base was deep kissing, plus groping and fondling this and that. Third base was oral sex. Home plate was going all the way. That was yesterday. Here in the Year 2000 we can forget about necking. Today's girls and boys have never heard of anything that dainty. Today first base is deep kissing, now known as tonsil hockey, plus groping and fondling this and that. Second base is oral sex. Third base is going all the way. Home plate is being introduced by name. And how rarely our hooked-

up boys and girls are introduced by name!-as Tom Wolfe has discovered from a survey of girls' File-o-Fax diaries, to cite but one of Hooking Up's displays of his famed reporting prowess. Wolfe ranges from coast to coast chronicling everything from the sexual manners and mores of teenagers... to fundamental changes in the way human beings now regard themselves thanks to the hot new field of genetics and neuroscience. . . to the inner workings of television's magazine-show sting operations. Printed here in its entirety is "Ambush at Fort Bragg," a novella about sting TV in

---

which Wolfe prefigured with eerie accuracy three cases of scandal and betrayal that would soon explode in the press. A second piece of fiction, "U. R. Here," the story of a New York artist who triumphs precisely because of his total lack of talent, gives us a case history preparing us for Wolfe's forecast ("My Three Stooges," "The Invisible Artist") of radical changes about to sweep the arts in America. As an espresso after so much full-bodied twenty-first-century fare, we get a trip to Memory Mall. Reprinted here for the first time are Wolfe's two articles

about The New Yorker magazine and its editor, William Shawn, which ignited one of the great firestorms of twentieth-century journalism. Wolfe's afterword about it all is in itself a delicious draught of an intoxicating era, the Twistin' Sixties. In sum, here is Tom Wolfe at the height of his powers as reporter, novelist, sociologist, memoirist, and-to paraphrase what Balzac called himself-the very secretary of American society in the 21st century. The Crimson Letter Farrar, Straus and Giroux For fans of Children of Blood and Bone and Six

and found life—intelligent life, at that—things changed with a vengeance. By the year 2000, America, Russia, and the other great powers of Earth are all contending for influence and power amid the newly-discovered inhabitants of our sister planets. Venus is a primitive world. But on Mars, early hominids evolved civilization earlier than their earthly cousins, driven by the needs of a harsh world growing still harsher as the initial terraforming runs down. Without coal, oil, or uranium, their technology was forced into different paths, and the genetic wizardry of

the Crimson Dynasty united a world for more than twenty thousand years. Now, in a new stand-alone adventure set in this world's 2000 AD, Jeremy Wainman is an archaeologist who has achieved a lifelong dream; to travel to Mars and explore the dead cities of the Deep Beyond, searching for the secrets of the Kings Beneath the Mountain and the fallen empire they ruled. Teyud Zha-Zhalt is the Martian mercenary the Terrans hire as guide and captain of the landship Intrepid Traveller. A secret links her to the deadly intrigues of Dvor il-Adazar, the

City That Is A Mountain, where the last aging descendant of the Tollamune Emperors clings to the remnants of his power...and secrets that may trace their origin to the enigmatic Ancients, the Lords of Creation who reshaped the Solar System in the time of the dinosaurs. When these three meet, the foundations of reality will be shaken—from the lost city of Rema-Dza to the courts of the Crimson Kings. expel a group of students for their sexuality. In 2002, a researcher for The Harvard Crimson came across a restricted archive labeled "Secret Court Files, 1920." The mystery he uncovered involved a tragic scandal in which Harvard University secretly put a dozen students on trial for homosexuality and then systematically and persistently tried to ruin their lives. In May of 1920, Cyril Wilcox, a freshman suspended from Harvard, was found sprawled dead on his bed, his room filled with gas--a suicide. The note he left behind revealed his secret life as part of a circle of homosexual students. The resulting witch hunt and the lives it cost remains one of the most

shameful episodes in the history of America's premiere university. Supported by legendary Harvard President Lawrence Lowell, Harvard conducted its investigation in secrecy. Several students committed suicide; others had their lives destroyed by an ongoing effort on the part of Harvard to destroy their reputations. Harvard's Secret Court is a deeply moving indictment of the human toll of intolerance and the horrors of injustice that can result when a powerful institution loses its balance. Death Row, the paininsight and of goodbye as a friend is led to execution, and the small acts of humanity that keep hope alive for men living in the shadow of death. Each carefully crafted personal essay illuminates the complex stew of choice and circumstance that brought four men to Death Row and the cycle of dehumanization and brutality that continues inside prison. At times the men write with humor, at times with despair, at times with deep sensitivity, but always with keen

understanding of the common human experience that binds us. life of the city in all its horror and splendor. It is a story about police politics, fathers and sons, partners who become brothers, old ghosts and undying legacies. Conlon joined the NYPD during the Giuliani administration, when New York City saw its crime rate plummet but also witnessed events that would alter the city, its inhabitants, and its police force forever: polarizing racial cases, the proliferation of the drug trade, and the events of September 11, 2001, and its aftermath.
