Honour Simon and Schuster a nearly unfathomable clash of cultures. Despite enduring years of threats over her emancipated life, Fadime advocated compassion for her killer to the end, believing him to be trapped by an unyielding code of honor. Wikan puts this shocking event in context by analyzing similar honor killings throughout Europe, Canada, and the United States. She also examines the concept of honor in historical and cross-cultural depth, concluding that Islam itself is not to blame—indeed, honor killings occur across religious and ethnic traditions—but rather the way that many cultures have resolutely linked honor with violence. In *Honor of Fadime* holds profound and timely insights into conservative Kurdish culture, but ultimately the

In 2002 young Fadime Sahindal was brutally murdered by her own father. She belonged to a family of Kurdish immigrants who had lived in Sweden for almost two decades. But Fadime’s relationship with a man outside of their community had deeply dishonored her family, and only her death could remove the stain. This abhorrent crime shocked the world, and her name soon became a rallying cry in the struggle to combat so-called honor killings. Unni Wikan narrates Fadime’s heartbreaking story through her own eloquent words, along with the testimonies of her father, mother, and two sisters. What unfolds is a tale of courage and betrayal, loyalty and love, power and humiliation, and

He had known this day

would come. No man could escape the entire might of the Sovran forever. He just found it humorous that it was an enemy of the Sovran that had caught him instead. Bound, kneeling before a queen whom he had hounded for a straight year, he should have been anxious. Or at least a little worried. Instead, a strange sense of relief filled him. It was over. His mad escape from Brindisi's justice was over. "That is a very calm expression on your face, General Darius Bresalier," she observed. Her tone was idle, but her eyes were as sharp as a hawk's. "Are you not worried?" "I knew what the punishment would be, Your Most High Majesty," he answered respectfully. "I have had a year to resign myself to my fate. I cannot complain." She gave a low, musical hum of approval. "Well said. I have

heard many reports on what you did but never once did I believe I could have the full tale." She leaned forward, causing the silk pillows behind her to slide in every direction. "Kingslayer, tell me. Why did you kill your king?"

Honour killing is considered the worst form of domestic violence against human beings, particularly against women. It is clear that societies across the world – through their laws and their courts – continue to countenance legal defences which overwhelmingly benefit males committing violence against females. Despite the statistics that honour killings are being reported from all over the world, the greatest number of shocking reports of honour killings come from Muslim countries.

Unfortunately, Pakistan is among those countries where women are facing various forms of violence in the name of religion, customs and traditions, and cases of honour killing are regularly reported

there. It is imperative to understand and see killings in the name of honour from the perspective of those who have been directly affected by the socio-religious cultural norms which condone them. The findings gathered here show that honour killing is not only family or community violence or a tradition to preserve honour, but that behind these killings ulterior purposes are being served and therefore the number of the killings is increasing every year in Pakistan. This book will allow the reader to understand precisely the menace of honour killing and to consider how it can be addressed to save innocent lives and to stop these severe violations of human rights.

From the Orange Prize long-listed and award-winning author of The Forty Rules of Love and The Bastard of Istanbul Elif Shafak, Honour is a novel of love, betrayal and a clash of

cultures. 'My mother died twice. I promised myself I would not let her story be forgotten . . .' Leaving her twin sister behind, Pembe leaves Turkey for love - following her husband Adem to London. There the Topraks hope to make new lives for themselves and their children. Yet, no matter how far they travel, the traditions and beliefs the Topraks left behind stay with them - carried in the blood. Their eldest is the boy Iskender, who remembers Turkey and feels betrayal deeper than most. His sister is Esmâ, who is loyal and true despite the pain and heartache. And, lastly, Yunus, who was born in London, and is shy and different. Trapped by the mistakes of the past, the Toprak children find their lives shattered and transformed by a brutal act

of murder . . . A powerful novel set in Turkey and London in the 1970s, Honour explores pain and loss, loyalty and betrayal, the trials of the immigrant, the clash of tradition and modernity, as well as the love and heartbreak that too often tears families apart. 'A powerful book; thoughtful, provoking and compassionate' Joanne Harris, author of *Chocolat* 'Rich and wide as the Euphrates river along whose banks it begins and ends, Elif Shafak has woven with masterful care and compassion one immigrant family's heartbreaking story - a story nurtured in the terrible silences between men and women trying to grow within ancient ways, all the while growing past them. The practice of *karo kari* allows family, especially fathers, brothers and sons, to take the lives of their daughters, sisters and mothers if they are accused of adultery. This volume examines the central position of *karo kari* in the social, political and juridical structures in Upper Sindh, Pakistan. Drawing

connections between local contests over marriage and resources, Nafisa Shah unearths deep historical processes and power relations. In particular, she explores how the state justice system and informal mediations inform each other in state responses to *karo kari*, and how modern law is implicated in this seemingly ancient cultural practice.

In June 2002, journalists throughout the world began to hear of the gang rape of a Pakistani woman from the impoverished village of Meerwala. The rape was ordered by a local clan known as the Mastoi and was arranged as punishment for indiscretions allegedly committed by the woman's brother. While certainly not the first account of a female body being negotiated for honor in a family, and (sadly) not the last, journalists and activists were captivated. This time the survivor had chosen to fight back, and in doing so, single-handedly changed the feminist

movement in Pakistan. Her name was Mukhtar Mai, and her decision to stand up to her accusers was an act of bravery unheard of in one of the world's most adverse climates for women. By July 2002, Mai's case was headline news in Pakistan and under international scrutiny, the government awarded her the equivalent of 8,500 U.S. dollars in compensation money (a historic settlement), and her attackers were sentenced to death.

learned of her gang rape, punishment for an 'honour crime' allegedly committed by her brother. After the horrific rape, custom dictated that she would kill herself. But Mai defied custom, she took her rapists to court and won.

Mukhtar Mai went on to open a school for girls in an effort to ensure that future generations would not suffer, as she had, from illiteracy. In this rousing account, Mai describes her experience and how she has since become an agent for change and a beacon of hope for oppressed women around the world. Timely and topical, *In the Name of Honor* is the remarkable and inspirational memoir of a woman who fought and triumphed against exceptional odds.
