Meet Malek Khalil. In his mid-40s, Malek is a brilliant reporter with decades of experience in the field. If there has been a war, natural disaster or political crisis, Malek has been there and will be there. But the years of conflict reporting have taken their toll and Malek is slowly unravelling. His colleagues,

Neeka and Justin, have noticed a change in him. Neeka should know, she has been his producer for decades and knows him better than he knows himself. Justin the cameraman has shot his material for just as long. Together they make a formidable team. But they are only as strong as each other - and Malek is fast going down the rabbit hole. Born a Muslim but an atheist to his core, Malek undertakes a voyage that takes him around the world and back in time to ancient Babylon as he finds himself arguing with a God in whom he doesn't believe. The novel takes place throughout Middle East, South Asia and London where the backdrop of war, religion, political skulduggery and love play out to take the reader on a

journey through some of the most dangerous parts of modern culture and the ancient world.

A KISS OF

MADNESS  
Madness - A  
word defined as the state

of insanity. Chaotic frenzy. Crazy. It doesn't matter how you define it. It only matters how you perceive it. I've always known things I shouldn't know. Seen things I shouldn't see, things no one else sees. But one terrifying vision--and my reaction to it--lands me in Bocker's Center for the Criminally Insane. I'm convinced I can make it through my time here unscathed. After all, I'm not crazy. But after spending time with three guys--a schizophrenic

with two personalities, a pathological liar who isn't to be trusted, and a nymphomaniac with a penchant for knives--I'm beginning to doubt my sanity. Can I separate the real from the mad, or will this place make me spiral further down into the dark recesses of my mind? Am I crazy? I'll let you decide... \*This is a twisted romance novel that'll leave you questioning if what you're reading is true, or just a Kiss Of Madness\*\*\*WARNING:

**Madness** In The Time Of Madness At the Mountains of Madness, Lovecraft's incontrovertible masterpiece, written in February-March 1931, is a story details the events of a disastrous expedition to the barren, windswept Antarctic continent, where the secret history of our planet is preserved, amidst the ruins of its first civilization, in September 1930, and what was found there by a group of

explorers led by the narrator, Dr. William Dyer of Miskatonic University. Throughout the story, Dyer details a series of previously untold events in the hope of deterring another group of explorers who wish to return to the continent. It uncovers strange fossils and mind-blasting terror. Since it was originally serialized in the February, March, and April 1936 issues of Astounding Stories during the classic pulp era, 'At the Mountains

of Madness' has influenced both horror and science fiction worldwide. Lovecraft scholar S.T. Joshi describes the novella as representing the decisive "demythology" of the Cthulhu Mythos by reinterpreting Lovecraft's earlier supernatural stories in a science fiction paradigm.

living through the great derangement of our times? In *The Madness of Crowds* Douglas Murray investigates the dangers of 'woke' culture and the rise of identity politics. In lively, razor-sharp prose he examines the most controversial issues of our moment: sexuality, gender, technology and race, with interludes on the Marxist foundations of

'wokeness', the impact of tech and how, in an increasingly online culture, we must relearn the ability to forgive. One of the few writers who dares to counter the prevailing view and question the dramatic changes in our society - from gender reassignment for children to the impact of transgender rights on women - Murray's penetrating book, now published

with a new afterword taking account of the book's reception and responding to the worldwide Black Lives Matter protests, clears a path of sanity through the fog of our modern predicament.
