The collapse of the USSR seemed to spell the end of the empire, yet it by no means foreclosed on Russia's enduring imperial preoccupations, which had extended from the reign of Ivan IV over four and a half centuries. Examining a host of films from contemporary Russian cinema, Nancy Condee argues that we cannot make sense of current Russian culture without accounting for the region's habits of imperial

identification. But is this something made legible through narrative alone- Chechen wars at the periphery, costume dramas set in the capital-or could an imperial trace be sought in other, more embedded qualities, such as the structure of representation, the conditions of production, or the preoccupations of its filmmakers? This expansive study takes up this complex question through a commanding analysis of the late Soviet and post-Soviet period auteurs, Kira Muratova, Vadim Abdrashitov, Nikita Mikhalkov, Aleksei German, Aleksandr Sokurov and Aleksei Balabanov. In the early years of the Cold War, Western nations increasingly adopted strategies of public diplomacy involving popular music. While the diplomatic use of popular music was initially limited to such genres as jazz, the second half of the 20th century saw a growing presence of various popular genres in

diplomatic contexts, including rock, pop, bluegrass, flamenco, funk, disco, and hip-hop, among others. This volume illuminates the interrelation of popular music and public diplomacy from a transnational and transdisciplinary angle. The contributions argue that, as popular music has been a crucial factor in international relations, its diplomatic use has substantially impacted the global musical landscape of the

20th and 21st centuries. Into the Cosmos shows us the fascinating interplay of Soviet politics, science, and culture during the

Khrushchev era, and how the space program became a binding force between these elements. the spring of 1898. At that time my library contained several hundreds of volumes of the best Judeo-German (Yiddish) literature, which had been brought together by dint of continued attention and, frequently, by mere chance, for the transitoriness of its works, the absence of any and all bibliographies, the almost absolute absence of a guide into its literature, and the whimsicalness of its book trade made a systematic selection of such a library a difficult problem to solve. Not satisfied with the meagre details which could be gleaned from internal testimonies in the works of the Judeo-German writers, I resolved to visit the Slavic countries for

the sake of gathering data, both literary and biographical, from which anything like a trustworthy history of its literature could be constructed.
