While the diplomatic use of popular music was initially limited to such genres as jazz, the second half of the 20th century

saw a growing presence of various popular genres in diplomatic contexts, including rock, pop, bluegrass, flamenco, funk, disco, and hip-hop, among others. This volume illuminates the interrelation of popular music and public diplomacy from a transnational and transdisciplinary angle. A SUGGESTION to write the present book reached me in the spring of 1898. At that

time my library contained several hundreds of volumes of the best Judeo-German (Yiddish) literature, which had been brought together by dint of continued attention and, frequently, by mere chance, for the transitoriness of its works, the absence of any and all bibliographies, the almost absolute absence of a guide into its literature, and the whimsicalness of its book trade made a systematic selection of such a library a difficult problem to solve. Not satisfied with the meagre details which could be gleaned from internal testimonies in the works of the Judeo-German writers, I resolved to visit the Slavic countries for the sake of gathering data, both literary and

biographical, from which anything like a trustworthy history of its literature could be constructed.

The collapse of the USSR seemed to spell the end of the empire, yet it by no means foreclosed on Russia's enduring imperial preoccupations, which had extended from the reign of Ivan IV over four and a half centuries. Examining a host of films from contemporary Russian cinema, Nancy Condee argues that we cannot make sense

---

of current Russian culture without accounting for the region's habits of imperial identification. But is this something made legible through narrative alone-Chechen wars at the periphery, costume dramas set in the capital-or could an imperial trace be sought in other, more embedded qualities, such as the structure of representation, the conditions of production, or the preoccupations of its filmmakers? This expansive study takes up this complex question through a

commanding analysis of the late Soviet and post-Soviet period auteurs, Kira Muratova, Vadim Abdrashitov, Nikita Mikhalkov, Aleksei German, Aleksandr Sokurov and Aleksei Balabanov.
