HOW TO GROW YOUR FAVORITE PLANTS ALL-YEAR-ROUND IN YOUR HOME KITCHEN WITHOUT... SPENDING A FORTUNE ON EXPENSIVE EQUIPMENT OR TAKING TOO MUCH SPACE! Are you

looking for ways to grow healthy and beautiful plants that make your home more alive and your family healthier? Would you like to grow and enjoy eating fresh fruits and veggies that are just as delicious as those from those beautiful garden trees? Or maybe you just love gardening but don't have a massive balcony or outdoor yard to grow your plants? If you answered "yes" to at least one of these questions, please read on... I don't blame you... I also thought that kitchen or indoor gardening is just a waste of time. And instead, it's better to save up money to purchase that massive garden one day and grow all the lovely fruits and veggies my whole family and kids would enjoy. I was wrong... Not about my dream to have a massive garden, but about the theory that you can't do that inexpensively at home and without spending too much time and space on it. And that's exactly what I have been doing for the last 5 years. And now the time has come for me to share that knowledge with you so you can enjoy all those plant-benefits as well. Take a look at what's inside: - Is indoor kitchen gardening for you? (you'll be surprised how simple and fun it can be) - How to detect the best and most convenient places to grow your plants? - LIGHT, TEMPERATURE, WATER, and DRAINAGE are not the issue anymore - here is everything you need to know to get the most out of your plants - What plants to choose for a start, and which ones are the easiest to grow? - Step-by-Step planting and growth strategies for different types of fruits, veggies, and herbs (just about everything you need for a perfect start) - How to keep your plants happy and grow them all-year-round? - How to design your plant-space for a beautiful and tidy look and convenience? - Much much more... Indoor Gardening for Beginners: How to Grow Beautiful Plants, Herbs and Vegetables in Your

House Are you missing out on the joys of gardening because you don't have room outside? Have you ever wondered about gardening inside but thought it would be too difficult? For years, I lived in a small apartment without access to land to grow my own food. Everything I ate was purchased at the store — sometimes from questionable sources and often treated with harmful chemicals to increase shelf life. That was, of course, until I learned how to maximize the space all around me. That is to say, the indoor space inside my very own apartment. But growing food indoors isn't just for apartment dwellers. By growing indoors, you effectively extend the growing season by months. In fact, when properly set up, most indoor gardens can be cultivated year-round. Try doing that outside in the winter months! Learn how anyone can start their own indoor garden using effective techniques that are explained in easy-to-understand, step-by-step instructions. Also, you'll discover..

Why is my plant dying? Will Creed answers your indoor plant care questions that are not answered anywhere else - providing real answers to real questions non-professionals have about caring for their plants. Other plant care books perpetuate many of the out-of-date or unrealistic techniques or confusing information that has changed very little over generations. Included here are specific care requirements for dozens of the most popular house and office plants. Learn to care for your plants properly, from buying the right plant for the right place, to preventing or treating disease. Don't repot that plant! Repotting is rarely necessary. A plant may seem rootbound- but it loves its pot just the size it is. It is healthy, it is thriving. Contrary to conventional wisdom, repotting a plant isn't always the answer. Get the light right - make sure you have the right light intensity available for the particular plant species. Learn how much each plant species needs to dry out. Learn to prune. Learn to identify plant pests and treat them early. Don't bother about humidity and fertilizer/plant food
