[Socialism: The Failed Idea That Never Dies](#) Harper Collins

You are what you eat. Food and diet have an enormous influence on your health and well-being, but eating the right amount of the right things - and not too much of the wrong things - isn't easy. But, as in most walks of life, knowledge is power. This book will empower you to eat healthily, lose weight, and sort the fads from the science facts. This is the New Scientist take on a "New Year, New You" book: an eye-opening and myth-busting guide to everything from sugar to superfoods, from fasting to eating like a caveman and from veganism to your gut microbiome. Forget faddy diet books or gimmicky exercise programs, this is what is scientifically proven to make you live longer and to be healthier and happier.

Looking beyond the headlines to address the enduring grand strategic questions facing the United States today American foreign policy is in a state of upheaval. The rise of Donald Trump and his "America First" platform have created more uncertainty about America's role in the world than at any time in recent decades. From the South China Sea, to the Middle East, to the Baltics and Eastern Europe, the geopolitical challenges to U.S. power and influence seem increasingly severe—and America's responses to those challenges seem increasingly unsure. Questions that once had widely accepted answers are now up for debate. What role should the United States play in the world? Can, and should, America continue to pursue an engaged an assertive strategy in global affairs? In this book, a leading scholar of grand strategy helps to make sense of the headlines and the upheaval by providing sharp yet nuanced assessments of the most critical issues in American grand strategy today. Hal Brands asks, and answers, such questions as: Has America really blundered aimlessly in the world since the end of the Cold War, or has its grand strategy actually been mostly sensible and effective? Is America in terminal decline, or can it maintain its edge in a harsher and more competitive environment? Did the Obama administration pursue a policy of disastrous retrenchment, or did it execute a shrewd grand strategy focused on maximizing U.S. power for the long term? Does Donald Trump's presidency mean that American internationalism is dead? What type of grand strategy might America pursue in the age of Trump and after? What would happen if the United States radically pulled back from the world, as many leading academics—and, at certain moments, the current president—have advocated? How much military power does America need in the current international environment? Grappling with these kinds of issues is essential to understanding the state of America's foreign relations today and what path the country might take in the years ahead. At a time when American grand strategy often seems consumed by crisis, this collection of essays provides an invaluable guide to thinking about both the recent past and the future of America's role in the world.

The computer unlike other inventions is universal; you can use a computer for many tasks: writing, composing music, designing buildings, creating movies, inhabiting virtual worlds,

communicating... This popular science history isn't just about technology but introduces the pioneers: Babbage, Turing, Apple's Wozniak and Jobs, Bill Gates, Tim Berners-Lee, Mark Zuckerberg. This story is about people and the changes computers have caused. In the future ubiquitous computing, AI, quantum and molecular computing could even make us immortal. The computer has been a radical invention. In less than a single human life computers are transforming economies and societies like no human invention before. Two impossible love stories are fatefully connected by one artistic legacy in a stunning debut that leaps between the mysteries of late-Renaissance Venice and the dramas of present-day America.

“ Enchanting from the first page. ” —Sarah Jio, New York Times bestselling author of All the Flowers in Paris In the wake of her father ' s death, Rose Newlin finds solace in her work as a book restorer. Then, one rainy Connecticut afternoon, a struggling painter appears at her door. William Lomazzo brings with him a sixteenth-century treatise on art, which Rose quickly identifies as a palimpsest: a document written over a hidden diary that had purposely been scraped away. Yet the restoration sparks an unforeseen challenge when William—a married man—and Rose experience an instant, unspoken attraction. Five centuries earlier, Renaissance-era Venetians find themselves at the mercy of an encroaching Ottoman fleet preparing for a bloody war. Giovanni Lomazzo, a portrait artist grappling with tragedy, discovers that his vision is fading with each passing day. Facing the possibility of a completely dark world, Gio begins to document his every encounter, including what may be his final artistic feat: a commission to paint the enchanting courtesan of one of Venice ' s most powerful military commanders. Soon, however, Gio finds himself enraptured by a magnificent forbidden love. Spellbound by Gio ' s revelations, Rose and William are soon forced to confront the reality of their own mystifying connection. A richly detailed page-turner shadowed by one of history ' s darkest times, The Lost Diary of Venice weaves a heartbreakingly vivid portrait of two vastly different worlds—and two tales of entrancing, unrelenting love.

Behavioral Finance and Wealth Management Knopf

Revised edition of the authors' Managing business ethics, [2014]

To Kill a Mockingbird Springer Science & Business Media

The essential interaction design guide, fully revised and updated for the mobile age About Face: The Essentials of Interaction Design, Fourth Edition is the latest update to the book that shaped and evolved the landscape of interaction design. This comprehensive guide takes the worldwide shift to smartphones and tablets into account. New information includes discussions on mobile apps, touch interfaces, screen size considerations, and more. The new full-color interior and unique layout better illustrate modern design concepts. The interaction design profession is blooming with the success of design-intensive companies, priming customers to expect "design" as a critical ingredient of marketplace success. Consumers have little tolerance for websites, apps, and devices that don't live up to their expectations, and the responding shift in business philosophy has become widespread. About Face is the book that brought interaction design out of the research labs and into the everyday lexicon, and the updated Fourth Edition continues to lead the way with ideas and methods relevant to today's design practitioners and developers. Updated information includes: Contemporary interface, interaction, and product design methods Design for mobile platforms and consumer electronics State-of-the-art interface recommendations and up-to-date examples Updated Goal-Directed Design methodology Designers and developers looking to remain relevant through the current shift in consumer technology habits will find About Face to be a comprehensive, essential resource.

Logan West's life is anything but ideal. Mindless sex, tedious business ventures, and the occasional poker game keep him occupied, but he only lives for one thing: fatherhood. This novella can be read as the first in the Harmony series or anytime during the series. It is not a mandatory read to enjoy the series, simply a companion read. This novella is Logan's story of how he ended up living in Harmony and right next door to the woman that would forever change his life. -- Book cover.

Princess Jehosheba wants nothing more than to please the harsh and demanding Queen Athaliah, daughter of the

notorious Queen Jezebel. Her work as a priestess in the temple of Baal seems to do the trick. But when a mysterious letter from the dead prophet Elijah predicts doom for the royal household, Jehosheba realizes that the dark arts she practices reach beyond the realm of earthly governments. To further Athaliah and Jezebel's strategies, she is forced to marry Yahweh's high priest and enters the unfamiliar world of Yahweh's temple. Can her new husband show her the truth and love she craves? And can Jehosheba overcome her fear and save the family--and the nation--she loves? With deft skill, Mesu Andrews brings Old Testament passages to life, revealing a fascinating story of the power of unconditional love.

[Wine and Society](#) McGraw-Hill/Glencoe

Divided into four parts, this book examines the context of wine production, the wine consumer, and the social context of wine. It discusses themes like the historical, geographical, and cultural factors and the way they shape wine production and consumption, wine production, marketing differentiation, the contemporary wine consumer and lifestyle factors, and politics and the economics of wine. (Midwest).

American Grand Strategy in the Age of Trump Pearson Education

Hilary Robinson gave up on fairy tales when she was still a little girl. Headstrong and stubborn, she refuses to depend on anyone except herself, living life her way: easy come, easy go. Faultless loyalty and unwavering confidence is what the world may see, but deep down she's drowning in reckless behavior--with consequences she's tired of running from. A man of many talents, Caleb Townsend has always lived hard and with no regrets. He knows the game better than most but plays by his own rules, which include a calculated hand of poker that opens enticing new possibilities. With a promising business to build and estranged family members anticipating his failure, he has everything to lose and no time for distractions. But it only takes a single conversation with the once-shy girl he remembers hanging around when they were kids to spark an undeniable attraction. With shameful secrets and old habits dying hard, they soon realize that if they don't raise the stakes, one of them will be forced to fold their hand. Some romances burn bright and fizzle fast, but this one's nothing short of an...infernno. This is a full length standalone novel that can be read before or after Inevitable.

Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, To Kill a Mockingbird has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

New York Times Bestseller Discover the critical link between your brain and the food you eat and change the way your brain ages, in this cutting-edge, practical guide to eliminating brain fog, optimizing brain health, and achieving peak mental performance from media personality and leading voice in health Max Lugavere. After his mother was diagnosed with a mysterious form of dementia, Max Lugavere put his successful media career on hold to learn everything he could about brain health and performance. For the better half of a decade, he consumed the most up-to-date scientific research, talked to dozens of leading scientists and clinicians around the world, and visited the country ' s best neurology departments—all in the hopes of understanding his mother ' s condition. Now, in Genius Foods, Lugavere presents a comprehensive guide to brain optimization. He uncovers the stunning link between our dietary and lifestyle choices and our brain functions, revealing how the foods you eat directly affect your ability to focus, learn, remember, create, analyze new ideas, and maintain a balanced mood. Weaving together pioneering research on dementia prevention, cognitive optimization, and nutritional psychiatry, Lugavere distills groundbreaking science into actionable lifestyle changes. He shares invaluable insights into how to improve your brain power, including the nutrients that can boost your memory and improve mental clarity (and where to find them); the foods and tactics that can energize and rejuvenate your brain, no matter your age; a brain-boosting fat-loss method so powerful it has been called “ biochemical liposuction ” ; and the foods that can improve your happiness, both now and for the long term. With Genius Foods, Lugavere offers a cutting-edge yet practical road map to eliminating brain fog and optimizing the brain ' s health and

performance today—and decades into the future.

This Book Could Save Your Life Bucknell University Press

The gripping, true story of a brutal serial killer who unleashed his own reign of terror in Nazi-Occupied Paris. As decapitated heads and dismembered body parts surfaced in the Seine, Commissaire Georges-Victor Massu, head of the Brigade Criminelle, was tasked with tracking down the elusive murderer in a twilight world of Gestapo, gangsters, resistance fighters, pimps, prostitutes, spies, and other shadowy figures of the Parisian underworld. But while trying to solve the many mysteries of the case, Massu would unravel a plot of unspeakable deviousness. The main suspect, Dr. Marcel Petiot, was a handsome, charming physician with remarkable charisma. He was the “ People ’ s Doctor, ” known for his many acts of kindness and generosity, not least in providing free medical care for the poor. Petiot, however, would soon be charged with twenty-seven murders, though authorities suspected the total was considerably higher, perhaps even as many as 150. Petiot's trial quickly became a circus. Attempting to try all twenty-seven cases at once, the prosecution stumbled in its marathon cross-examinations, and Petiot, enjoying the spotlight, responded with astonishing ease. Soon, despite a team of prosecuting attorneys, dozens of witnesses, and over one ton of evidence, Petiot ’ s brilliance and wit threatened to win the day. Drawing extensively on many new sources, including the massive, classified French police file on Dr. Petiot, *Death in the City of Light* is a brilliant evocation of Nazi-Occupied Paris and a harrowing exploration of murder, betrayal, and evil of staggering proportions.

Artists' Magazines HarperCollins

Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan 's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism .

The Lost Diary of Venice Routledge

Ableism in Academia JHU Press

The groundbreaking debut by the award-winning author of *Wayward Lives, Beautiful Experiments*, revised and updated. Saidiya Hartman has been praised as “ one of our most brilliant contemporary thinkers ” (Claudia Rankine, *New York Times Book Review*) and “ a lodestar for a generation of students and, increasingly, for politically engaged people outside the academy ” (Alexis Okeowo, *The New Yorker*). In *Scenes of Subjection*—Hartman ’ s first book, now revised and expanded—her singular talents and analytical framework turn away from the “ terrible spectacle ” and toward the forms of routine terror and quotidian violence characteristic of slavery, illuminating the intertwining of injury, subjugation, and selfhood even in abolitionist depictions of enslavement. By attending to the withheld and overlooked at the margins of the historical archive, Hartman radically reshapes our understanding of history, in a work as resonant today as it was on first publication, now for a new generation of readers. This 25th anniversary edition features a new preface by the author, a foreword by Keeanga-Yamahitta Taylor, an afterword by Marisa J. Fuentes and Sarah Haley, notations with Cameron Rowland, and compositions by Torkwase Dyson.

Icons of Horror and the Supernatural Angela Graham

USA Today Bestseller. Book 2 of Cassandra & Logan's story. It wasn ’ t his fault she lay broken and battered. He wasn ’ t responsible for the injuries covering her bruised body. Her heart, however, told a different story. She endured the pain of its jagged edges as it shattered against her chest, ripping through the hope she once held. Her spirit was broken, and only one man was to blame for that. Cassandra Clarke had known better than to trust her all to a man like Logan West. She ’ d thought he was different—a better man than he ’ d portrayed to others. A man worth risking it all for. But she was wrong, and would never make that mistake again. What happens when you question everything you longed to believe—deny all emotions you still hold for a man unworthy of them? Faced with Logan ’ s persistence, Cassandra must find the strength to keep her guard up or risk falling again for the one man her body feels...is irreplaceable. Book 1 *Inevitable* is currently \$0.99 Book 3, *Indestructible* is out now.
