Essentials of Social Psychology

HarperCollins

A wedding companion to the New York Times & USA Today Bestselling Harmony Series. Some dreams are forever just that: a longing void never filled, the desire for something always out of reach. It's only when

fate steps in that your world can be forever changed. Lovers enter your life in many different forms-a young crush, or an unavoidable collision. Some are hopeless encounters, others sculpting experiences. But when your soul finds its mate, the bond is...Infinite.

Post Cinematic Affect
John Wiley & Sons
Individuals decide, in the present, how to recall the past, and, in the process, imbue the past with meaning that has evolved over time and is relevant in the present."
"Tracing the changing meanings of the term over time, considering its connection to memory, analyzing its relationship with identity, and

exploring the way in which nostalgia is used personally and collectively constitute the main thrust of the book."--Jacket.

Death in the City of Light
Nicholas Brealey

'Community' continues to be a persistent theme in political, philosophical and policy debates. The idea of community poses fundamental questions about social inclusion and exclusion, particular versus general interests, identity and belonging. As well as extensive theoretical literature in the social sciences, there is a rich body of social research aimed at exploring the nature of community, and evaluating its contribution to people's lives and well-being. Drawing on a wealth of international empirical examples and illustrations, this book reviews debates surrounding the idea of community. It examines

changing patterns of community life and evaluates their importance for society and for individuals. As well as urban, rural and class-based communities, it explores other contemporary forms of community, such as social movements, communes and 'virtual' gatherings in cyberspace. Truly multidisciplinary, this book will be of interest to students of sociology, geography, political science and social policy and welfare. Grounded in a wide-ranging review of empirical research, it provides an overview of sociological debates surrounding the idea of community and relating them to the part community plays in people's everyday conceptions of identity.

Irreplaceable Harper Collins Hilary Robinson gave up on fairy tales when she was still a little girl. Headstrong and stubborn, she refuses to depend on anyone except herself, living

life her way: easy come, easy go. Faultless loyalty and unwavering confidence is what the world may see, but deep down she's drowning in reckless behavior- with consequences she's tired of running from. A man of many talents, Caleb Townsend has always lived hard and with no regrets. He knows the game better than most but plays by his own rules, which include a calculated hand of poker that opens enticing new possibilities. With a promising business to build and estranged family members anticipating his failure, he has everything to lose and no time for distractions. But it only takes a single conversation with the once-shy girl he remembers hanging around when they were kids to spark an undeniable attraction. With shameful secrets and old habits dying hard, they soon realize that if they don't raise the stakes, one of them will be forced to fold their hand. Some romances burn bright and fizzle fast, but this

one's nothing short of an...inferno. This is a full length standalone novel that can be read before or after Inevitable.

Romantic Theory JHU Press Offers entries on 24 of the significant archetypes of horror and the supernatural, from the classical epics of Homer to the novels of Stephen King.

Stirred Up Pearson Education India

You are what you eat. Food and diet have an enormous influence on your health and well-being, but eating the right amount of the right things - and not too much of the wrong things - isn't easy. But, as in most walks of life, knowledge is power. This book will empower you to eat healthily, lose weight, and sort the fads from the science facts. This is the New Scientist take on a "New Year, New You" book: an eye-opening and myth-busting guide to

everything from sugar to superfoods, from fasting to eating like a caveman and from veganism to your gut microbiome. Forget faddy diet books or gimmicky exercise programs, this is what is scientifically proven to make you live longer and to be healthier and happier. To Kill a Mockingbird Crown The gripping, true story of a brutal serial killer who unleashed his own reign of terror in Nazi-Occupied Paris. As decapitated heads and dismembered body parts surfaced in the Seine, Commissaire Georges-Victor Massu, head of the Brigade Criminelle, was tasked with tracking down the elusive murderer in a twilight world of Gestapo, gangsters, resistance fighters, pimps, prostitutes, spies, and other shadowy figures of the Parisian underworld. But while trying to solve the many mysteries of the case, Massu would unravel a plot of unspeakable deviousness. The main suspect, Dr. Marcel Petiot,

was a handsome, charming physician with remarkable charisma. He was the “ People ’ s Doctor, ” known for his many acts of kindness and generosity, not least in providing free medical care for the poor. Petiot, however, would soon be charged with twenty-seven murders, though authorities suspected the total was considerably higher, perhaps even as many as 150. Petiot's trial quickly became a circus. Attempting to try all twenty-seven cases at once, the prosecution stumbled in its marathon cross-examinations, and Petiot, enjoying the spotlight, responded with astonishing ease. Soon, despite a team of prosecuting attorneys, dozens of witnesses, and over one ton of evidence, Petiot ’ s brilliance and wit threatened to win the day. Drawing extensively on many new sources, including the massive, classified French police file on Dr. Petiot, *Death in the City of Light* is a brilliant evocation of Nazi-Occupied Paris and a harrowing exploration of murder, betrayal, and evil of

staggering proportions.

A Reader's Guide to Contemporary Literary Theory Ludwig von Mises Institute

The groundbreaking debut by the award-winning author of *Wayward Lives*, *Beautiful Experiments*, revised and updated.

Saidiya Hartman has been praised as “ one of our most brilliant contemporary thinkers ” (Claudia Rankine, *New York Times Book Review*) and “ a lodestar for a generation of students and, increasingly, for politically engaged people outside the academy ” (Alexis Okeowo, *The New Yorker*). In *Scenes of Subjection*—Hartman ’ s first book, now revised and expanded—her singular talents and analytical framework turn away from the “ terrible spectacle ”

and toward the forms of routine terror and quotidian violence characteristic of slavery, illuminating the intertwining of injury, subjugation, and selfhood even in abolitionist depictions of enslavement. By attending to the withheld and overlooked at the margins of the historical archive, Hartman radically reshapes our understanding of history, in a work as resonant today as it was on first publication, now for a new generation of readers. This 25th anniversary edition features a new preface by the author, a foreword by Keeanga-Yamahatta Taylor, an afterword by Marisa J. Fuentes and Sarah Haley, notations with Cameron Rowland, and compositions by Torkwase Dyson.

Independent Publishing Platform
Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent

prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

Building Blocks for Liberty W.
W. Norton & Company

This is a book for cinephiles, pure and simple. Author and filmmaker, Jim Piper, shares his vast knowledge of film and analyzes the most striking components of the best movies ever made. From directing to cinematography, from editing and music to symbolism and plot development, *The Film Appreciation Book* covers hundreds of the greatest works in cinema, combining history, technical knowledge, and the art of enjoyment to explain why some movies have become the most treasured and entertaining works ever available to the public, and

why these movies continue to amaze viewers after decades of notoriety. Read about such classic cinematic masterpieces as *Citizen Kane*, *Gandhi*, *Midnight Cowboy*, *Easy Rider*, *True Grit*, *Gone With the Wind*, and *The Wizard of Oz*, as well as more recent accomplishments in feature films, such as *Requiem for a Dream*, *Munich*, *The King's Speech*, and *The Hurt Locker*. Piper breaks down his analysis for you and points out aspects of production that movie-lovers (even the devoted ones) would never recognize on their own. This book will endlessly fascinate, and by the time you get to the last chapter, you're ready to start all over again. In-depth analysis and thoughtful and wide-ranging film choices from every period of cinema history will ensure that you never tire of this reading companion to film. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad

range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Socialism: The Failed Idea That Never Dies Springer Science & Business Media

The essential interaction design guide, fully revised and updated for the mobile age **About Face: The Essentials of Interaction Design, Fourth Edition** is the latest update to the book that shaped and evolved the

landscape of interaction design. This comprehensive guide takes the worldwide shift to smartphones and tablets into account. New information includes discussions on mobile apps, touch interfaces, screen size considerations, and more. The new full-color interior and unique layout better illustrate modern design concepts. The interaction design profession is blooming with the success of design-intensive companies, priming customers to expect "design" as a critical ingredient of marketplace success. Consumers have little tolerance for websites, apps, and devices that don't live up to their expectations, and the responding shift in business philosophy has become widespread. **About Face** is the book that brought interaction design out of the research labs and into the everyday lexicon, and the updated Fourth Edition continues to lead the way with ideas and methods relevant to today's design practitioners and developers. Updated information includes: Contemporary interface, interaction, and

product design methods Design for mobile platforms and consumer electronics State-of-the-art interface recommendations and up-to-date examples Updated Goal-Directed Design methodology Designers and developers looking to remain relevant through the current shift in consumer technology habits will find About Face to be a comprehensive, essential resource.

The Smitten Kitchen Cookbook
Ballantine Books

Certain men. Certain professions. Some things are just universally sexy. But maybe not quite this sexy... “ Lay back for me. ”

Community and Everyday Life
Routledge

The computer unlike other inventions is universal; you can use a computer for many tasks: writing, composing music, designing buildings, creating movies, inhabiting virtual worlds, communicating... This popular science history isn't just about technology but introduces the pioneers: Babbage, Turing, Apple's Wozniak and Jobs, Bill

Gates, Tim Berners-Lee, Mark Zuckerberg. This story is about people and the changes computers have caused. In the future ubiquitous computing, AI, quantum and molecular computing could even make us immortal. The computer has been a radical invention. In less than a single human life computers are transforming economies and societies like no human invention before.

Inferno London Publishing Partnership

Socialism is strangely impervious to refutation by real-world experience. Over the past hundred years, there have been more than two dozen attempts to build a socialist society, from the Soviet Union to Maoist China to Venezuela. All of them have ended in varying degrees of failure. But, according to socialism ' s adherents, that is only because none of these experiments were “ real

socialism ” . This book documents the history of this, by now, standard response. It shows how the claim of fake socialism is only ever made after the event. As long as a socialist project is in its prime, almost nobody claims that it is not real socialism. On the contrary, virtually every socialist project in history has gone through a honeymoon period, during which it was enthusiastically praised by prominent Western intellectuals. It was only when their failures became too obvious to deny that they got retroactively reclassified as “ not real socialism ” . Inevitable John Wiley & Sons Rather than embracing difference as a reflection of wider society, academic ecosystems seek to normalise and homogenise ways of working and of being a researcher. As a consequence, ableism in

academia is endemic. However, to date no attempt has been made to theorise experiences of ableism in academia. Ableism in Academia provides an interdisciplinary outlook on ableism that is currently missing. Through reporting research data and exploring personal experiences, the contributors theorise and conceptualise what it means to be/work outside the stereotypical norm. The volume brings together a range of perspectives, including feminism, post-structuralism, such as Derridean and Foucauldian theory, crip theory and disability theory, and draw on the width and breadth of a number of related disciplines. Contributors use technicism, leadership, social justice theories and theories of embodiment to raise awareness and increase understanding of the marginalised; that is those academics who are not perfect. These theories are placed in the context of neoliberal academia, which is distant from the privileged and romanticised versions that exist in the public and internalised imaginations of

academics, and used to interrogate aspects of identity, aspects of how disability is performed, and to argue that ableism is not just a disability issue. This timely collection of chapters will be of interest to researchers in Disability Studies, Higher Education Studies and Sociology, and to those researching the relationship between theory and personal experience across the Social Sciences.

Why Do We Quote? Revell

Logan West's life is anything but ideal. Mindless sex, tedious business ventures, and the occasional poker game keep him occupied, but he only lives for one thing: fatherhood. This novella can be read as the first in the Harmony series or anytime during the series. It is not a mandatory read to enjoy the series, simply a companion read. This novella is Logan's story of how he ended up living in Harmony and right next door to the woman that would forever change his life. -- Book cover.
