Two impossible love stories are fatefully connected by one artistic legacy in a stunning debut that leaps between the mysteries of late-Renaissance Venice and the dramas of present-day America. “ Enchanting from the first page. ” —Sarah Jio, New York Times bestselling author of *All the Flowers in Paris* In the wake of her father ’ s death, Rose Newlin finds solace in her work as a book restorer. Then, one rainy Connecticut afternoon, a struggling painter appears at her door. William Lomazzo brings with him a sixteenth-century treatise on art, which Rose quickly identifies as a palimpsest: a document written over a hidden diary that had purposely been scraped away. Yet the restoration sparks an unforeseen challenge when William—a married man—and Rose experience an instant, unspoken attraction. Five centuries earlier, Renaissance-era Venetians find themselves at the mercy of an encroaching Ottoman fleet preparing for a bloody war. Giovanni Lomazzo, a portrait artist grappling with tragedy, discovers that his vision is

fading with each passing day. Facing the possibility of a completely dark world, Gio begins to document his every encounter, including what may be his final artistic feat: a commission to paint the enchanting courtesan of one of Venice ’ s most powerful military commanders. Soon, however, Gio finds himself enraptured by a magnificent forbidden love. Spellbound by Gio ’ s revelations, Rose and William are soon forced to confront the reality of their own mystifying connection. A richly detailed page-turner shadowed by one of history ’ s darkest times, *The Lost Diary of Venice* weaves a heartbreakingly vivid portrait of two vastly different worlds—and two tales of entrancing, unrelenting love. *The Smitten Kitchen Cookbook* Routledge Offers entries on 24 of the significant archetypes of horror and the supernatural, from the classical epics of Homer to the novels of Stephen King. *Wine and Society* JHU Press New York Times Bestseller Discover the critical link between your brain and the food you eat and change the way your brain ages, in this cutting-edge, practical guide to eliminating brain fog, optimizing brain health, and

Rather than embracing difference as a reflection of wider society, academic ecosystems seek to normalise and homogenise ways of working and of being a researcher. As a consequence, ableism in academia is endemic. However, to date no attempt has been made to theorise experiences of ableism in academia. *Ableism in Academia* provides an interdisciplinary outlook on ableism that is currently missing. Through reporting research data and exploring personal experiences, the contributors theorise and conceptualise what it means to be/work outside the stereotypical norm. The volume brings together a range of perspectives, including feminism, post-structuralism, such as Derridean and

Foucauldian theory, crip theory and disability theory, and draw on the width and breadth of a number of related disciplines. Contributors use technicism, leadership, social justice theories and theories of embodiment to raise awareness and increase understanding of the marginalised; that is those academics who are not perfect. These theories are placed in the context of neoliberal academia, which is distant from the privileged and romanticised versions that exist in the public and internalised imaginations of academics, and used to interrogate aspects of identity, aspects of how disability is performed, and to argue that ableism is not just a disability issue. This timely collection of chapters will be of interest to researchers in Disability Studies, Higher Education Studies and Sociology, and to those researching the relationship between theory and personal experience across the Social Sciences.

The gripping, true story of a brutal serial killer who unleashed his own reign of terror in Nazi-Occupied Paris. As decapitated heads and dismembered body parts surfaced in the Seine, Commissaire Georges-Victor Massu, head of the Brigade Criminelle, was tasked with tracking down the elusive murderer in a twilight world of Gestapo, gangsters, resistance fighters, pimps, prostitutes, spies, and other shadowy figures of the Parisian underworld. But while trying to solve the many mysteries

of the case, Massu would unravel a plot of unspeakable deviousness. The main suspect, Dr. Marcel Petiot, was a handsome, charming physician with remarkable charisma. He was the "People's Doctor," known for his many acts of kindness and generosity, not least in providing free medical care for the poor. Petiot, however, would soon be charged with twenty-seven murders, though authorities suspected the total was considerably higher, perhaps even as many as 150. Petiot's trial quickly became a circus. Attempting to try all twenty-seven cases at once, the prosecution stumbled in its marathon cross-examinations, and Petiot, enjoying the spotlight, responded with astonishing ease. Soon, despite a team of prosecuting attorneys, dozens of witnesses, and over one ton of evidence, Petiot's brilliance and wit threatened to win the day. Drawing extensively on many new sources, including the massive, classified French police file on Dr. Petiot, *Death in the City of Light* is a brilliant evocation of Nazi-Occupied Paris and a harrowing exploration of murder, betrayal, and evil of staggering proportions.

As Christians, we know that we are new creations in Jesus. So we try to act differently, hoping this will make us more like Him. But changing our outward behavior doesn't change our hearts. Only by God's grace can we be transformed internally.

Renovation of the Heart lays a biblical foundation for understanding what best-selling author Dallas Willard

calls the "transformation of the spirit" —a divine process that "brings every element in our being, working from inside out, into harmony with the will of God." This fresh approach to spiritual growth explains the biblical reasons why Christians need to undergo change in six aspects of life: thought, feeling, will, body, social context, and soul. Willard also outlines a general pattern of transformation in each area, not as a sterile formula but as a practical process that you can follow without the guilt or perfectionism so many Christians wrestle with. Don't settle for complacency. Accept the challenge *Renovation of the Heart* offers to become an intentional apprentice of Jesus Christ, changing daily as you walk with Him.

Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan ' s fascinating

study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism . 'Community' continues to be a persistent theme in political, philosophical and policy debates. The idea of community poses fundamental questions about social inclusion and exclusion, particular versus general interests, identity and belonging. As well as extensive theoretical literature in the social sciences, there is a rich body of social research aimed at exploring the nature of community, and evaluating its contribution to people's lives and well-being. Drawing on a wealth of international empirical examples and

illustrations, this book reviews debates surrounding the idea of community. It examines changing patterns of community life and evaluates their importance for society and for individuals. As well as urban, rural and class-based communities, it explores other contemporary forms of community, such as social movements, communes and 'virtual' gatherings in cyberspace. Truly multidisciplinary, this book will be of interest to students of sociology, geography, political science and social policy and welfare. Grounded in a wide-ranging review of empirical research, it provides an overview of sociological debates surrounding the idea of community and relating them to the part community plays in people's everyday conceptions of identity.
