“ Emma Griffin gives a new and powerful voice to the men and women whose blood and sweat greased the wheels of the Industrial Revolution ” (Tim Hitchcock, author of Down and Out in Eighteenth-Century London). This “ provocative study ” looks at hundreds of autobiographies penned between 1760 and 1900 to offer an intimate firsthand account of how the Industrial Revolution was experienced by the working class (The New Yorker). The era didn ’ t just bring about misery and poverty. On the contrary, Emma Griffin shows how it raised incomes, improved literacy, and offered exciting opportunities for political action. For many, this was a period of new, and much valued, sexual and cultural freedom. This rich personal account focuses on the social impact of the Industrial Revolution, rather than its economic and political histories. In the tradition of bestselling books by Liza Picard, Judith Flanders, and Jerry White, Griffin gets under the skin of the period and creates a cast of colorful characters, including factory workers, miners, shoemakers, carpenters, servants, and farm laborers. “ Through the ‘ messy tales ’ of more than 350 working-class lives, Emma Griffin arrives at an upbeat interpretation of the Industrial Revolution most of us would hardly recognize. It is quite enthralling. ” —The Oldie magazine “ A triumph, achieved in fewer than 250 gracefully written pages. They persuasively purvey Griffin ’ s historical conviction. She is intimate with her audience, wooing it and teasing it along the way. ” —The Times Literary Supplement “ An admirably intimate and expansive revisionist history. ” —Publishers Weekly

A Study Guide for Charles Dickens' A Tale of Two Cities LMT Press

Why does Western civilization dominate the rest of the world? This book is a summary of "Civilization: The West and the Rest," by Niall Ferguson. The central question is: Why did the West dominate the Rest and not vice versa? The book describes six concepts that the West has developed that allow them to leap ahead of the Rest, unleashing the Industrial Revolution and increasing human productivity. Six hundred years ago, Ming China and Ottoman Turkey dominated the world civilizations, while Western Europe was a miserable backwater, devastated by incessant war and disease. But today, Western civilization has risen to global dominance. How has the West overtaken its Eastern rivals in the past 500 or so years? In Civilization, Niall Ferguson argues that beginning in the 15th century, the West developed six powerful concepts that

the Rest lacked: competition, science, property rights, medicine, consumerism, and work ethic. These six killer apps allowed the West to leap ahead of the Rest, unleashing the Industrial Revolution and increasing human productivity. Yet now, the days of Western predominance are numbered because the Rest are adopting these same concepts, while the West has lost faith in its own civilization. Read this book and learn how these six killer apps help the West dominate the world. This guide includes * Book Summary—helps you understand the key concepts. * Online Videos—cover the concepts in more depth. Value-added from this guide: * Save time * Understand key concepts * Expand your knowledge

The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how

Internet technology and renewable energy are merging to create a powerful "Third Industrial Revolution." He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an "energy internet," just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players — heads of state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world.

A comprehensive study guide offering in-depth explanation, essay, and test prep for Simone de Beauvoir's The Second Sex, the book that arguably stands as the stepping stone for all other feminists' work. As a work of post-WWII, The Second Sex stirred up controversy as women in France and America had just earned their right to vote and men who fought on the front returned home to reclaim the jobs that had been filled by women. Moreover, the fight for liberation

and equality for women continues to impact politics and philosophy even today. This Bright Notes Study Guide explores the context and history of de Beauvoir's classic work, helping students to thoroughly explore the reasons it has stood the literary test of time. Each Bright Notes Study Guide contains: - Introductions to the Author and the Work - Character Summaries - Plot Guides - Section and Chapter Overviews - Test Essay and Study Q&As The Bright Notes Study Guide series offers an in-depth tour of more than 275 classic works of literature, exploring characters, critical commentary, historical background, plots, and themes. This set of study guides encourages readers to dig deeper in their understanding by including essay questions and answers as well as topics for further research.
