Igniting the Passion for Change in America's Communities Fantastical Press About the Book Classical pianist Renata DiMonte has abandoned a career with the symphony to entertain in the elegant Piano Bar and Lounge of the Claremont Arms, one of New York City's premier luxury hotels. Haunted by guilt following her mother's death, Renata finds solace in the music she has always longed to play, bonding closely with her audience for the first time. / However, five-star service is not all the Claremont Arms has to offer. There are rumors of paranormal phenomena-rumors that Renata ignores until she begins to have experiences she can't explain. Patrons she has never met will request songs, and without warning, their life stories reveal themselves to her, open books of pain and joy. Nothing frightening has happened-yet-but nothing about this is remotely normal, either. Are Renata's strange experiences simply flukes, products of an overactive imagination? Does the beautiful concert grand piano she plays possess supernatural qualities? Or is there magic in the music itself? 101BookFacts.com (pub-5999650418488591) Over a three-decade period that began in 1919, Oscar Micheaux wrote, directed, edited, produced and distributed over forty films nationally and internationally. These films usually featured all-Black casts. They spanned a silent film period (1919-1930) and a talkie period (sound films) (1931-1948). Given such a background and the period in American history into which he was born, Micheaux's achievements were extraordinary and his legacy is a study of survival, persistence, and bold determination to develop a new era in Black films. The book features a commentary by actor/producer Ossie Davis and has review copy (on the back cover) by Dr. Maya Angelou and Dr. Henry T. Sampson. This book was edited by the late Dr. Beverly J. Robinson, who was Professor at the School of Theater, Film and Television at UCLA for nearly 25 years. Reviews: "I expect this published volume to be a very valuable contribution to the history of an African American

filmmaker." -- Dr. Henry T. Sampson, Scientist, Writer, Black Film Historian "If Oscar could do it, what reasons have the rest of us to fail?" -- Ossie Davis, Actor, Writer, Producer, Director "Movie lovers, movie makers, and even some movie critics will fall for this book." -- Dr. Maya Angelou

Myth 1: Imports kill jobs; Myth 2: Exchange rates drive trade; Myth 3: A trade balance is a national matter; Myth 4: A trade "deficit" is "bad"; Myth 5: Foreigners finance America's trade deficit -- These commonly held concepts of trade balances are based on 15th-century accounting techniques. Politicians misled by these outdated ideas have made cheap, vote-grabbing protectionist policies that reduce to "saving jobs by fighting unfair imports." One result of such sophistry has been two senseless world wars. The paradigm has to move in to the 21st century: a first step is to include multinational corporations' incredibly successful overseas activities when calculating trade balances. Enzo von Pfeil invented this approach in 1987 and has been applying it publicly in his research and in the press since. His key message is that if politicians keep using simplistic protectionist policies, they are courting retaliation in the countries where they operate, thereby nurturing terrorism as well as threatening the very existence of their own corporations operating abroad. If such politicians are threatening these multinationals' overseas operations -- why are these companies financing the campaigns of these politicians? Born in Namibia and raised in America, Germany and England, Enzo von Pfeil studied under Friedrich von Hayek and got his Ph.D. in economics, then worked for the world's three leading banks of their day. Formerly chief regional economist for leading

London-based investment banks in Hong Kong, von Pfeil is now an independent investment adviser and a regular contributor to Bloomberg Television UK, Bloomberg Television Deutschland, and to CNBC Asia. His investment advice is constantly updated at www.EconomicClock.com.

Excavations at Great Linford, 1974-80 Noelle Adams

WHAT DO YOU DO WHEN LIBERATING HUMAN SLAVES IS AGAINST THE LAW? In this prequel to the highly regarded science-fiction novel, *The Survivors*, Colonel Kendrick Landry and Major Will Adams return as the crew of the starcraft Aurora travels to Alpha Centauri B-III and learns that the descendants of the crew of *The Green Horizon*, Earth's first interstellar starcraft, are living in centuries-old enslavement to a lizard-like race. The lizards manage the humans with the help of renegade effete and decadent human council members that the author describes as wearing flowing robes reminiscent of ancient Roman emperors. The First Intergalactic Alliance does not permit liberation of the human slaves because the planet is not a member of the Alliance and subject to Alliance law. Alliance law, however, would sanction the Auroras defense including even offensive action against the lizard government, permitting its overthrow by human resistance fighters on the planet but only if the lizard government has first attacked the Aurora. Without knowledge or consent of Colonel Landry, Major Adams devises a scheme to provoke such an attack by the lizard command. The lizards attack the Aurora, in orbit around the planet, with devastating force. Now, the crew of the Aurora will be fortunate to ensure their own survival, let alone assist in the liberation of the lizards human slaves! The events of *Lizards Lair* occur one solar year earlier than the central story of *The Survivors* and sets out in full narrative detail the plot of a story briefly summarized early in *The Survivors*. For those readers who might not take immediate notice, this dandy novel is not just about alien lizards! It is a modern satire on government overreaching and institutionalized slavery, and is a highly

relevant moral parable of our time. FROM A JULY 2008 PRESS RELEASE TO THE SACRAMENTO BEE: Lizards Lair is written in the paradigm form of a science-fiction novella--defined to have a word count of between 17,500 and 40,000 by the Science Fiction and Fantasy Writers of America Nebula Awards for Science Fiction. This novella is an original dandy thriller and proves that indeed good things can come in small packages. A worthy complement to Derek Laurens already getting noticed premier science-fiction novel, The Survivors.
