Powerhouse adult fantasy author R. A. Salvatore and Erika Lewis deliver a sweeping, action-packed, romantic pre-Arthurian tale of the origins of magic (and Merlin), perfect for fans of Falling Kingdoms and Seraphina. Magic needs a spark. And Maggie’s powers are especially fickle. With no one to help her learn to control her magic, the life debt that she owes stretches eternally over her head, with no way to repay it. Until she meets Griffin, the king’s champion, infamous for hunting down the draignochs that plague their kingdom. Neither has any idea of the destiny that they both carry, or that their meeting will set off a chain of events that will alter every aspect of the life they know—and all of history thereafter. This epic, romantic tale will enchant readers and draw them into a thrilling world of star-crossed lovers, magic, destiny, and the paths we choose.

Gladiator meets Game of Thrones: a royal woman becomes a skilled warrior to destroy her murderous

cousin, avenge her family, and save her kingdom in this first entry in a dazzling fantasy epic from the New York Times and USA Today bestselling author of the Elemental Assassin series—an enthralling tale that combines magic, murder, intrigue, adventure, and a hint of romance. In a realm where one’s magical power determines one’s worth, Lady Everleigh’s lack of obvious ability relegates her to the shadows of the royal court of Bellona, a kingdom steeped in gladiator tradition. Seventeenth in line for the throne, Evie is nothing more than a ceremonial fixture, overlooked and mostly forgotten. But dark forces are at work inside the palace. When her cousin Vasilia, the crown princess, assassinates her mother the queen and takes the throne by force, Evie is also attacked, along with the rest of the royal family. Luckily for Evie, her secret immunity to magic helps her escape the massacre. Forced into hiding to survive, she falls in with a gladiator troupe. Though they use their talents to entertain and amuse the masses, the gladiators are actually highly trained warriors skilled in the art of war, especially Lucas Sullivan, a powerful magier with secrets of his own. Uncertain of her future—or if she even has one—Evie begins training with the troupe until she can decide her next move. But as the bloodthirsty Vasilia exerts her power, pushing Bellona to the brink of war, Evie’s fate becomes clear: she must become a fearsome gladiator herself . . . and kill the queen.

How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In Speculative Everything, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the kind of future people want (and do not want). Speculative Everything offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

The #1 New York Times bestselling epic fantasy series by Brandon Sanderson! The Stormlight Archive is the wildly imaginative epic fantasy from New York Times bestselling author Brandon Sanderson: welcome to the remarkable world of Roshar, a world of stone and storms. Uncanny tempests of incredible power sweep across the rocky terrain so frequently that they have shaped ecology and civilization alike. Roshar is shared by humans and the enigmatic, humanoid Parshendi, with whom they are at war. It has been centuries since the fall of the ten consecrated orders known as the Knights Radiant, but their Shardblades and Shardplate remain. Men trade kingdoms for Shardblades. Wars were fought for them, and won by them, but in the war against the Parshendi, the ancient weapons and armor may not be enough. Speak again the ancient oaths: Life before death. Strength before weakness. Journey before Destination. and return to men the Shards they once bore. The Knights Radiant must stand again. --- Other Tor books by Brandon Sanderson The Cosmere The Stormlight Archive The Way of Kings Words of Radiance Edgedancer (Novella) Oathbringer The Mistborn trilogy Mistborn: The Final Empire The Well of

In addition to the wealth of information in the book, you'll also get access to a host of online content that more closely mimics the actual ASVAB and CAT-ASVAB testing environment. Create your own practice tests to eliminate your weaknesses Expand your vocabulary with interactive flashcards See complete answers and explanations to each question Learn strategies specifically geared toward taking the AFQT Your future in the military starts now. The minute you sit down to take the ASVAB, you're telling recruiters what you're worth. Start preparing now to perform to your full potential. ASVAB AFQT For Dummies, 2nd Edition is your single most valuable resource for AFQT prep. Only you can decide if you're up to the challenge.

**Book of Mormon Student Manual** Marvel Entertainment

Kristen Ciccarelli’s debut fantasy explores an intricately woven world of deception, inner darkness, and dragons that fantasy fans won’t be able to resist. In the beginning, there was the Namsara: the child of sky and spirit, who carried love and laughter wherever he went. But where there is light, there must be darkness—and so there was also the Iskari. The child of blood and moonlight. The destroyer. The death-bringer. These are the legends that Asha, daughter of the king of Firgaard, has grown up learning in hushed whispers, drawn to the forbidden figures of the past. But it isn’t until she becomes the fiercest, most feared dragon slayer in the land that she takes on the role of the next Iskari—a lonely destiny that leaves her feeling more like a weapon than a girl. Asha conquers each dragon and brings its head to the king, but no kill can free her from the shackles that await at home: her betrothal to the cruel commandant, a man who holds the truth about her nature in his palm. When she’s offered the chance to gain her freedom in exchange for the life of the most powerful dragon in Firgaard, she finds that there may be more truth to the ancient stories than she ever could have expected. With the help of a secret friend—a slave boy from her betrothed’s household—Asha must shed the layers of her Iskari bondage and open her heart to love, light, and a truth that has been kept from her.

*Poems by Emily Dickinson* Marvel Entertainment

A monumental, genre-defying novel that David Mitchell calls "Michel Faber’s second masterpiece," The Book of Strange New Things is a masterwork from a writer in full command of his many talents. It begins with Peter, a devoted man of faith, as he is called to the mission of a lifetime, one that takes him galaxies away from his wife, Bea. Peter becomes immersed in the mysteries of an astonishing new environment, overseen by an enigmatic corporation known only as USIC. His work introduces him to a seemingly friendly native population struggling with a dangerous illness and hungry for Peter’s teachings—his Bible is their “book of strange new things.” But Peter is rattled when Bea’s letters from home become increasingly desperate: typhoons and earthquakes are devastating whole countries,

and governments are crumbling. Bea’s faith, once the guiding light of their lives, begins to falter. Suddenly, a separation measured by an otherworldly distance, and defined both by one newly discovered world and another in a state of collapse, is threatened by an ever-widening gulf that is much less quantifiable. While Peter is reconciling the needs of his congregation with the desires of his strange employer, Bea is struggling for survival. Their trials lay bare a profound meditation on faith, love tested beyond endurance, and our responsibility to those closest to us. Marked by the same bravura storytelling and precise language that made The Crimson Petal and the White such an international success, The Book of Strange New Things is extraordinary, mesmerizing, and replete with emotional complexity and genuine pathos.
