When students have access to personalized entertainment sitting in their pockets, anything that doesn't jump out and grab their attention right away is easily drowned out. But there is a place where even today all those modern distractions melt away--Disneyland. When you're there, you're not only in a different world, you're in Walt Disney's world. Whether you are Peter Pan flying over London in Fantasyland or a rebel fighter struggling against the First Order in Galaxy's Edge, you are 100% engaged. If we can bring those techniques into our teaching, we can create engaging experiences for our students, grab their attention, and boost their learning. You'll improve your teaching and create a place students want to visit. In this book we'll learn from the world's greatest engagement masters--the Disney Imagineers. Moving to America turns H& à 's life inside out. For all the 10 years of her life, H& à has only known Saigon: the thrills of its markets, the joy of its traditions, the warmth of her friends close by, and the beauty of her very own papaya tree. But now the Vietnam War has reached her home. H& à and her family are forced to flee as Saigon falls, and they board a ship headed toward hope. In America, H& à discovers the foreign world of Alabama: the coldness of its strangers, the dullness of its food, the strange shape of its landscape, and the strength of her very own family. This is the moving story of one girl's year of change, dreams, grief, and healing as she journeys from one country to another, one life to the next.

Inside Out Elementary MacMillan UK Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how

children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
