Over twenty years ago, Godine published the first English translation of Georges Perec's masterpiece, *Life A User's Manual*, hailed by the *Times Literary Supplement*, *Boston Globe*, and others as "one of the great novels of the century." We are now proud to announce a newly revised twentieth anniversary edition of *Life*. Carefully prepared, with many corrections, this edition of *Life A User's Manual* will be the

preferred reference edition for the future. *Life* is an unclassified masterpiece, a sprawling compendium as encyclopedic as Dante's *Commedia* and Chaucer's *Canterbury Tales* and, in its break with tradition, as inspiring as Joyce's *Ulysses*. Structured around a single moment in time — 8:00 p.m. on June 23, 1975 — Perec's spellbinding puzzle begins in an apartment block in the XVIIth arrondissement of Paris where, chapter by chapter, room by room, like an onion being peeled, an extraordinary rich cast of characters is revealed in a series of tales that are bizarre, unlikely, moving, funny, or (sometimes) quite ordinary. From the confessions of a racing cyclist to the plans of an avenging murderer, from a young ethnographer obsessed with a Sumatran tribe to the death of a trapeze artist, from the fears of an ex-croupier to the dreams of a sex-change pop star to an eccentric English millionaire who has devised the ultimate pastime, *Life* is a manual of human irony, portraying the mixed marriages of fortunes, passions and despairs, betrayals and bereavements, of hundreds of lives in Paris and around the world. But the novel is more than an extraordinary range of fictions; it is a closely observed account of life and experience. The apartment block's one hundred rooms are arranged in a magic square, and the book as a whole is peppered with a staggering range of literary puzzles and allusions, acrostics, problems of chess and logic, crosswords, and mathematical formula. All are there for the reader to solve in the best tradition of the detective novel.

Live . . . work . . . play . . . die South Haven is the premier mixed-used community in metro Atlanta, a vibrant place where old-fashioned country living gets a modern update. There ' s the town square where residents watch family movies on the lawn on warm summer nights. The corner market stocked with organic foods. The bakery with fresh coffee and Wi-Fi. The stately homes on shaded, gently winding streets. The water park where children splash, laugh, and run . . . There ' s also

something deadly lurking. The first incident is dismissed as an aberration: a college student goes berserk and hacks his family to chunks with a machete. But a day later, a young woman riding her bicycle is chased through the streets by her own neighbors. Then a teenager takes a deadly joyride, using his pick-up truck to mow down everyone in sight. As the incidents pile up, the only thing they share is that each person launched into an inexplicable, uncontrollable frenzy. Mark Deacon, an ex-cop and chief of South Haven ' s private security force, has never seen anything like it. And it ' s about to get a whole lot worse. Within twenty-four hours, South Haven is declared a quarantine zone, with every entrance barricaded and military snipers positioned outside the perimeter with orders to shoot on sight. Fearful residents huddle inside, uncertain whom to trust, anxiously watching one another for clues of where the terror might strike next. Together with Dr. Hannah Bailey, a brilliant CDC scientist dispatched to investigate the threat, Deacon teams up with a motley crew of neighbors, and they hatch a desperate plan to find out answers--and stay alive. But the spreading menace might not have arrived by accident . . .

Dylan "Books" Griffith isn't the first soldier to lose friends in Afghanistan. Or the first to be sent home wounded. Nor is he the first to find it hard to find his way in the civilian world, despite his short time of deployment. But when alcohol, drugs, and sex can't wallpaper over his deepest wounds, Dylan embarks on a quest to save himself and search for deeper meaning--by way of a vision-quest trip by motorcycle across the Southwest to the Hopi tribal home of a fallen comrade. What he finds there astonishes him--but who and what he encounters along the way stirs his soul in equal measure. *DYLAN'S DIVIDE* is a story with familiar themes, but a wholly unique story, infused with the heat of passion and the heart of an underdog--and a hope that burns brighter than the high-noon highways of the Southwest.

Tough Justice: Exposed (Part 1 of 8) Wesleyan University Press This book explores the memorializing practices of American veterans of the Vietnam War at several of the most significant contemporary sites of memory in the United States and Vietnam. These sites include veterans' memoirs, museum exhibits, replicas of the National Vietnam Veterans Memorial, and tourism to Vietnam. Because war memorializing has, since the late 1960s, shifted focus from national soul searching to personal identity and recovery, I emphasize how contemporary narratives of the war, shaped more by memory than by history, often are detached from the specific history of the war and its political controversies. Drawing on trauma and cultural memory scholarship, as well as empirical data gathered during field research in the U.S. and Vietnam, the author examines how veterans' memorializing practices have become increasingly individualized, commodified, and conservative since the early 1980s.
