## The Advocate Routledge

Every season, with alarming predictability, yet another graphic design book sets out to capture definitively the zeitgeist. The blurb always makes the same claim: that the book shows the work of the newest, youngest, most innovative designers. This restless search is self-perpetuating, can never be sated and ultimately intensifies nagging fears and insecurities among designers. An understanding of design history has the reverse effect. It explains who we are and sets contemporary work in an expansive and broad landscape, one that is more objective and less introspective. Without knowledge and experience we are lost, floating in a sea of unanswered questions. Drip-dry shirts seeks to answer some of the questions. Book jacket. By presenting the conditions, methods and techniques of monetisation of business models in the digital economy, this book combines implementation of the theoretical aspects of monetisation with the presentation of practical business solutions in this field. The scope of the book includes the relationship between the monetisation and scalability degree of business models. The book describes the place and role of the digital business ecosystem in the process of digital transformation. It demonstrates ideological and functional conditions for the use of the concept of sharing to design innovative business models while also presenting a multi-dimensional approach to the use of Big Data and their monetisation in the context of business

models. Digital Business Models shows the place and role of ecological and social factors in building digital business models that are part of the concept of the circular economy and presents the contemporary conditions of a sustainability concept that meets the ethical challenges of doing digital business. It demonstrates how important the social factors of business model design and the creation of social value are in modern business and demonstrates. The book explores the servitisation of digital business models using digital technologies and features case studies on the effective solutions of business models that use servitisation as a factor supporting the monetisation of business models. Written for scholars exploring the efficiency and effectiveness of business models related to contemporary concepts – Sharing Economy, Circular Economy, Network Economy, Big Data, so on – and those designing business models taking into account social aspects, it will also be of direct interest to entrepreneurship courses.

Speculative Everything John Wiley & Sons

Following up on their much-heralded first volume of interiors, this new publication presents the next evolution of Atelier AM--virtuosos of mixing antiques and museum-quality artworks with pedigreed design.

"Alexandra and Michael Misczynski, the wife-and-husband team behind the Los Angeles-based AD100 design firm Atelier AM, are standard-bearers for the...concepts of quality and connoisseurship. In an image-driven culture, where novelty and extravagance so often masquerade as virtues, the Misczynskis remain steadfast in their belief that true style can emerge only from substance."

--Architectural Digest Atelier AM has been the go-to designers for true connoisseurs since they opened their office in 2002. Taking on very few projects each year, each Atelier AM home is a complete masterwork--where design and art are fully integrated into the architecture and landscape for a rich and immersive experience. Eight new homes are featured in this new

volume, and each features Atelier AM's signature reverence for patina mixed with the new: reclaimed wood beams and well-loved vintage modern furniture pieces mingles comfortably with century-old artifacts and antiques. The projects in this volume show a deep understanding of design history--from Spanish Colonial and English Classicism to contemporary. The mix of modern and ancient acknowledges and celebrates both the past and the future of design. With photography by their long-term collaborator Francois Halard, and insightful texts by Mayer Rus, Houses: Atelier AM promises to be as rich and satisfying as an Atelier AM home itself.

"A new perspective on servant leadership—challenging us to bring both courage and humility to the table—for the sake of the people and the enterprise." —John C. Maxwell, New York Times bestselling author In this updated edition of Dare to Serve, former Popeyes CEO Cheryl Bachelder shows that leading by serving is a rigorous and tough-minded approach that yields the best results. When she was named CEO of Popeyes in 2007, the stock price had slipped from \$34 in 2002 to \$13. The brand was stagnant, the team was discouraged, and the franchisees were just plain angry. Nine years later, restaurant sales were up 45 percent, restaurant profits had doubled, and the stock price was over \$61. Servant leadership is sometimes derided as soft or ineffective, but this book confirms that challenging people to reach a daring destination, while treating them with dignity, creates the conditions for superior performance. The second edition of this bestselling book includes Bachelder 's post-Popeyes observations and new examples of how you can switch

your leadership from self to serve. Ever engaging and inspirational, Bachelder takes you firsthand through the transformation of Popeyes and shows how anyone, at any level can become a Dare-to-Serve leader. “ Extraordinary! Dare to Serve describes the kind of leadership so desperately needed in the 21st century. A powerful blend of courage and humility, Cheryl Bachelder ’ s engaging story offers a clear path for leaders to follow, and what makes her message so compelling is the tremendous results she ’ s produced. I highly recommend this book. ” —Stephen M. R. Covey, New York Times bestselling author of *The Speed of Trust*

How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “ what if ” questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an

---

emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they

---

understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.
