Inspired: How to Create Products Customers Love by Marty Cagan is a well-written book detailing the process of creating a product, whether that be internet based or physical. Cagan starts from the beginning with the key roles of team members, takes you through the development process and finishes with marketing and selling your product.

“INSPIRED is the authority on how to build a product that customers actually want. It’s not about hiring product managers – it’s about establishing a culture that puts the user first, and builds the organization and teams around that customer to ensure that you are building the best product possible.

## **INSPIRED V2 | Silicon Valley Product Group**

INSPIRED V2. Today, there are many excellent resources for product designers and engineers, but precious little available specifically for product managers who are responsible for technology-powered products. So, in this edition I decided to concentrate on the job of the technology product manager.

Inspired Quotes. “ Software projects can be thought of as having two distinct stages: figuring out what to build (build the right product), and building it (building the product right). The first stage is dominated by product discovery, and the second stage is all about execution. ”

“ Keep the focus on minimal product.
