Air Conditioning User Manuals

| Instructions Books ...
A split air conditioner is
composed of two separate
units, a condensing unit and
an evaporative coil (known as
a "condenser," and a "coil"
respectively in short-hand or
slang). It is from these two
separate units that a split
air conditioner gets its
name. These units are joined
by a set of copper tubing
known as a "line-set," which
transfers refrigerant from
one unit to another.
