Sometimes you have to travel to the farthest edge of the world in order to find your true place in it... A panoramic historical epic and an unforgettable love story from the author of *The Tenderness of Wolves*, for fans of Kristin Hannah, Sarah Perry, and Barbara Kingsolver A whaler's daughter, Flora Mackie first crossed the Arctic Circle at the age of twelve. Years later, in 1892, determination and chance lead her back to northern Greenland as a scientist at the head of a British expedition, defying the expectations of those who believe a woman has no place in that harsh world. Geologist Jakob de Beyn was raised in Manhattan. Yearning for wider horizons, he joins a rival expedition. Jakob and Flora's paths cross. It is a fateful meeting, where passion and ambition collide and an irresistible attraction is born. The violent extremes of the north obsess them both: perpetual night and endless day; frozen seas and coastal meadows, and the strange, maddening pull it exerts on the people trying to make their mark on its vast expanses - a pursuit of glory whose outcome will reverberate for years to come.

Winner of the NESTOR LUJÁN HISTORICAL NOVEL PRIZE."I

was nervous about this book. Finding a good novel in translation from the tiny state of Andorra, nestling in the Pyrenees between Spain and France, was always going to be tricky... I was in for a pleasant surprise... Salvad ó has certainly done his homework: the book is painstakingly researched... By and large, the level of detail and historical knowledge is well-handled... The text itself felt professional and slick... this is a highly readable light novel... powerful flashes of insight into human greed, pride and ambition..." (ANN MORGAN, Andorra: Buried treasure, A Year of Reading the Word, <http://ayearofreadingtheworld.com/2012/02/22/andorra-buried-treasure/>, London, february 22, 2012)This is the history of the time of Pharaoh Snefru and Queen Hetepheres, the parents of Cheops, who built the largest and most impressive pyramid of all. It is also the story of Sedum, a slave who became Cheops' teacher, the high priest Ramosi, and how the first pyramid came to be built. Sebekhotep, the great wise man of that time, said, "Everything is written in the stars. Most of us live our lives unaware of it. Some can read the stars and see their destiny. But very few people learn to write in the stars and change their destiny." Ramosi and Sedum learned to write in them and tried to change their destinies, but fortune treated them very differently. This is a tale of the confrontation between two men's intelligence: one fighting for power, the other struggling for freedom. Other critics' opinions: " It is a long time since a prize was so justly awarded. THE TEACHER OF CHEOPS deserves every honour... An intrigue that develops at a good pace without causing anxiety... A restrained and inspired piece of writing; an outstanding, intelligent and well-constructed novel. "

(RAMÓN VENTURA, El Peri ó dico) " Salvad ó develops the mystery with great skill in his novel. " (JACINTO ANTÓN, El Pa í s) " Salvad ó presents a story about power and knowledge through a fast-paced plot combining intrigue, love, mystery, murder and adventure. " (ROSA M^a PIÑOL, La Vanguardia) " Albert Salvad ó displays seasoned writing skill in this novel... A very well-organised plot... A straightforward, effective style that is a pleasure to read... He achieves accuracy in his writing. " (IGNASI ARAGAY, Avui)
