The Go! Chinese Workbook supplements the Textbook; it provides exercises that are closely linked to the content of each lesson to allow students to review and solidify their understanding of the lessons learnt in the classroom. Besides traditional exercises on phonetic (pinyin), Chinese radicals, vocabulary and grammar that help students build a strong foundation in the language, the Workbook also offers students with interesting and challenging opportunities to learn Chinese language through problem-solving tasks such as cross-word puzzles, composing short conversations, and answering questions involving the interpretation of graphs or pictures. The Workbook also provides Chinese character writing worksheets and two sets of review questions.

Ni Hao, Level 2 (3rd edition) consists of a student textbook, student workbook and four audio CDs. Lessons 2 and 3 have been renamed but the content is primarily the same. Lesson 6 was eliminated. One more review lesson has been added as Lesson 5. A new section "About Pinyin and characters" has been added to this new edition. It highlights some areas that students would like to know when learning the

rules of pronunciation. In the student workbook the first section of each lesson provides word recognition practices instead of listening to statements and identifying the picture as in the 2002 edition. The audio CDs cover all sections in each lesson which provide support to students for independent listening opportunities. The sections in the student textbook and workbook exercises are clearly annunciated.

Written by Michael D. Fetters, one of the leading scholars in the field and co-editor of the Journal of Mixed Methods Research, *The Mixed Methods Research Workbook: Activities for Designing, Implementing, and Publishing Projects* is the perfect tool for doctoral students and researchers who want support throughout their research project, as well as a practical way to apply the knowledge they've learned. With *The Mixed Methods Research Workbook*, you'll be ready to tackle your mixed methods research project with confidence. Each chapter follows a familiar framework, starting with learning objectives for each piece of the mixed methods process. Readers have ample space in this text to write notes, fill out activities, and begin their process of actively designing and writing up a mixed methods study. This easy-to follow process gives readers an immediate structure to their projects. Exemplar boxes provide a starting framework, with the text encouraging deeper reflection on mixed methods challenges and opportunities. Stories from the field illuminate struggles and suggestions with the benefit of hindsight. Checklists at the end of each chapter help readers stay organized and key resources provide up-to-date lists of material for further study. From start to finish, readers can follow along with this text as they work on their projects. The text begins by assisting readers in identifying topics and conducting literature reviews in the context of mixed methods, zeroing in to address mixed-methods-specific challenges like integration, leveraging advantages of both qualitative and quantitative methods, and incorporating theory and personal backgrounds. Identifying data sources helps readers organize their data collection. Two chapters on research designs structure the data collection process with procedural diagrams. A unique chapter on mixed methods sampling offers application through basic and advanced designs. The book illustrates integrating and implementing mixed methods designs with practical advice for each of stage of the process. Ethics in a mixed methods context readies readers for the research protocol stage.

Several chapters fully explicate the data analysis process, including developing a joint display, a state-of-the-art procedure for analysis and presentation of findings. Closing out the process, the text tackles quality and evaluation in mixed methods studies, preparing your study for publication, and writing up your article.

Designed to build a strong foundation in both the spoken and written language, it develops all the basic skills such as pronunciation, character writing, word use, and structures, while placing a strong emphasis on the development of communicative skills. Each level of the course consists of a textbook and workbook in simplified Chinese. A free companion website provides all the audio for the course with a broad range of interactive exercises and additional resources for students' self-study, along with a comprehensive instructor's guide with teaching tips, assessment and homework material, and a full answer key. Key changes to this new edition: An increased number of vocabulary and characters introduced. 255 characters are introduced in this second edition for active production. Dialogues and example sentences are also presented in full-character format for passive recognition, and to provide additional challenge for more advanced students. Additional exercises in the workbooks and online to support the expanded number of words and characters incorporated into the textbooks. New cross-references between the textbooks, workbooks, and companion website facilitate using all the resources in an integrated manner. Greatly enhanced and re-designed website. Retaining its focus on communicative skills and the long-term retention of characters, the text is now presented in simplified characters and pinyin from the outset with a gradual and phased removal of pinyin as specific characters are

introduced and learnt. This unique approach allows students to benefit from the support of pinyin in the initial stages as they begin speaking while ensuring they are guided and supported towards reading only in characters.
