Ni Hao, Level 2 (3rd edition) consists of a student textbook, student workbook and four audio CDs. Lessons 2 and 3 have been renamed but the content is primarily the same. Lesson 6 was eliminated. One more review lesson has been added as Lesson 5. A new section "About Pinyin and characters" has been added to this new edition. It highlights some areas that students would like to know when learning the rules of pronunciation. In the student workbook the first section of each

lesson provides word recognition practices instead of listening to statements and identifying the picture as in the 2002 edition. The audio CDs cover all sections in each lesson which provide support to students for independent listening opportunities. The sections in the student textbook and workbook exercises are clearly announced.

Since the publication of New Practical Chinese Reader in 2002, it has been well-received by teachers and learners. For users' convenience, in this new edition we have revised those points we found improper. In contrast to its first edition, the notes of the texts are designed next to each text to facilitate students. We have not revised the framework, especially the texts and the main language points of the textbook. Users can visit [www.blcup.com](http://www.blcup.com/resource.blcup.com) and download

the traditional Chinese version of the texts for free. All the reading materials and illustrations in the workbook are updated. This is the second edition of the Workbook 4, which corresponds to Textbook 4. Each lesson is divided into two parts: 1. Listening and speaking exercises; 2. Reading and writing exercises. Readers are exposed to genuine Chinese materials to improve their integrated skills in listening, speaking, reading and writing. A CD of MP3 file is attached to the book, providing the recording of the listening exercises.

Chaoyue: Advancing in Chinese covers the five Cs—communication, cultures, comparisons, connections, and communities—and follows three communicative modes in lesson design: interpersonal, interpretive, and presentational. The authors arrange their lessons around four topics intrinsically interesting to students: the self, schooling, social customs, and the global village, fostering a full appreciation of Chinese culture. Each lesson contains warm-up activities, mini-dialogues, authentic readings, conversational relays, a cultural

unit, examples of sentence patterns, and a vocabulary list. Two review lessons are geared specifically toward synthesizing and reinforcing the language and culture skills taught throughout the book, and footnote glossaries assist in reading comprehension. Written by experienced Chinese language instructors, Chaoyue helps students reach the preadvanced proficiency level within two semesters, or approximately 150 to 180 hours of course time. The preadvanced stage is comparable to a fourth-semester college Chinese course, or 250 hours of instruction. Unlike other language texts, Chaoyue is printed in both simplified and traditional Chinese characters, as well as the phonetic systems used in China (pinyin) and Taiwan (zhuyin fuhao). It also includes a CD-ROM with additional assignments and

review as well as an online teacher manual. Lesson sections include:

- Warm-up activities that articulate the lesson's theme and activate students' prior knowledge
- Short readings in the form of letters, e-mails, reports, dialogues, stories, and interviews
- Dialogue practice with key vocabulary and sentence patterns
- Interactive activities such as surveys, debates, and small group discussions
- Conversational relays that ask pairs to complete minialogues
- Authentic readings in the form of advertisements, Web sites, maps, and signs, with multiple-choice review questions
- Common expressions that relate to the lesson theme
