Critical Care Nursing is the most in-demand field of nursing. For secure career, I highly recommend students to specialise in the critical care nursing. To attain a nursing degree, every student is required to submit a dissertation on recent nursing dissertation topics in critical care available. Yet I totally understand when students, with limited resources, face issues in finding research topics in critical care nursing that are both workable and important.

Intensive and Critical Care Nursing | Vol 59, August 2020 ...

The aim of this module is to critically evaluate the practice of intensive care nursing with emphasis on the wider context of care. Intensive care nurses will have the opportunity to enhance and evaluate specialist skills, critique their developing role, examine contextual issues, review the current evidence-base, enabling evaluation and synthesis of knowledge for practice.

We also welcome manuscripts from other members of the multidisciplinary team providing the content is relevant to critical care nursing. Intensive and Critical Care Nursing: the international journal of practice and research has, as the sub-title indicates, an international audience. Therefore the manuscript should be placed in a global context e.g. if local demographic statistics are used these should be compared with international trends/statistics.

~~Intensive care. Intensive care units (ICUs) are specialist hospital wards that provide treatment and monitoring for people who are very ill. They're staffed with specially trained healthcare professionals and contain sophisticated monitoring equipment. ICUs are also sometimes called critical care units (CCUs) or intensive therapy units (ITUs).~~
