The whole earl being manipulated into ruining the American who's running about 1812 London and after the whole scheme being exposed is forgiven in half a page just doesn't ring at all

credible. Not to mention that the Duke insisting on the scheme ends up married to another of the sisters, which means that I will actually I'm trying to work out why this book has so many stellar reviews.

With no other means for an income, the impoverished Andrew Black, earl of Townson, makes an agreement that will put a definite end to his eight-year poverty streak. But in order to gain his fortune, he must do only one simple thing: ruin an innocent young lady's reputation enough to make her flee to America.

A new twist on the old fortune hunter plot puts an impoverished earl in a position to gain his fortune only by ruining an innocent's reputation without offering marriage. The innocent he's selected, however, has no plans to settle for anything less than marriage and will go to almost any length to secure him.
