Best known as the woman who "ran MGM," Ida R. Koverman (1876-1954) served as talent scout, mentor, executive

secretary, and confidant to American movie mogul Louis B. Mayer for twenty-five years. *She Damn Near Ran the Studio: The Extraordinary Lives of Ida R. Koverman* is the first full account of Koverman's life and the true story of how she became a formidable politico and a creative powerhouse during Hollywood's Golden Era. For nearly a century, Koverman's legacy has largely rested on a mythical narrative while her more fascinating true-life story has remained an enduring mystery-until now. This story begins with

Koverman's early years in Ohio politics and put Herbert Hoover in the White House. As scandal that forced her escape "the political boss of Los Angeles County," she was the premiere matchmaker in the courtship between Hollywood and national partisan politics, which, as Mayer's executive secretary, was epitomized by her third incarnation as "one of the most formidable women in Hollywood," whose unparalleled power emanated from her unique perch inside the executive suite of Metro-Goldwyn-Mayer. Free to adapt her managerial skills and political know-how

on behalf of the studio, she quickly drew upon her artistic sensibilities as a talent scout, expanding MGM's catalog of stars and her own influence on American popular culture. Recognized as "one of the invisible power centers in both MGM and the city of Los Angeles," she nurtured the city's burgeoning performing arts by fostering music and musicians and the public financing of them. As the "lioness" of MGM royalty, Ida Koverman was not just a naturalized citizen of the Hollywood kingdom; at times

during her long reign, she "damn near ran the studio."

This book analyses the various
features of specialized discourse in
order to assess its degree of

specificity and diversification, as compared to general language. Prior to any analysis of such traits, the notion of specialized discourse and its distinctive properties are clarified, also as compared to other features frequently occurring in specialized texts which cannot be considered distinctive. The presence of such properties are accounted for not only in linguistic but also in pragmatic terms since the approach is interpretative rather than merely descriptive. The complexity of this discourse calls for a multidimensional analysis, covering both lexis and morpho-syntax as well as textual patterning.

Some lexical aspects, morphosyntactic features and textual genres are also examined from a diachronic perspective, thus showing how various conventions concerning specialized discourse have developed over the last few centuries.
